## **Life After God By Douglas Coupland:**

**LIFE AFTER GOD** Douglas Coupland, 2010-05-11 In this compellingly innovative collection of stories bestselling author Douglas Coupland cuts through the hype of modern living to find a rare grace amid our lives uncovering a new kind of truth for a culture stuck on fast forward a culture seemingly beyond God We are the first generation raised without God We are creatures with strong religious impulses yet they have nowhere to flow in this world of shopping and TV Kraft dinners and jets How do we cope with loneliness Anxiety The collapse of relationships How do we reach the quiet safe layer of our lives

*Religion and Literature* Robert Detweiler, David Jasper, 2000-01-01 Featuring a selection from over 80 key texts this anthology aims to help the reader to understand the common origins of religious expression and of literature The texts included cover classical literature the Bible English and European classics and contemporary works      **Life After God** Michael Lewis MacLennan, 2007 Adapted from the short story by Douglas Coupland      **The Rhizomatic West** Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's *Generation X* In Jim Jarmusch's movies In Calexico's music Or is the American West as this book tells us a constantly moving mutating idea within a complex global culture And what precisely or better yet imprecisely does it mean Using Gilles Deleuze and Félix Guattari's concept of the rhizome Neil Campbell shows how the West or westness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms A region long traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the West reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its rootless history culture and nature Crossing the concept of roots with routes this book shows how notions of the West in representations ranging from literature and film to photography music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders The Rhizomatic West offers a new vision of the American West as a hybrid performative space a staging place for myriad intersecting and constantly changing identities      **Imagination and the Journey of Faith** Sandra M. Levy, 2008-09-05 This book will speak to all readers whether religious believers or not who wish to strengthen and deepen the imaginative power of their spiritual lives      Auden's O Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W. Hass explores the ascendancy of the concept of nothing into late modernity He argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century's end this movement has shifted from linear progression to

mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work The Sea and the Mirror an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times

**Do You Feel it Too?** Nicoline Timmer, 2010 Do You Feel It Too explores a new sense of self that is becoming manifest in experimental fiction written by a generation of authors who can be considered the heirs of the postmodern tradition It offers a precise in depth analysis of a new post postmodern direction in fiction writing and highlights which aspects are most acute in the post postmodern novel Most notable is the emphatic expression of feelings and sentiments and a drive toward inter subjective connection and communication The self that is presented in these post postmodern works of fiction can best be characterized as relational To analyze this new sense of self a new interpretational method is introduced that offers a sophisticated approach to fictional selves combining the insights of post classical narratology and what is called narrative psychology Close analyses of three contemporary experimental texts Infinite Jest 1996 by David Foster Wallace A Heartbreaking Work of Staggering Genius 2000 by Dave Eggers and House of Leaves 2000 by Mark Danielewski provide insight into the typical problems that the self experiences in postmodern cultural contexts Three such problems or symptoms are singled out and analyzed in depth an inability to choose because of a lack of decision making tools a difficulty to situate or appropriate feelings and a structural need for a we a desire for connectivity and sociality The critique that can be distilled from these texts especially on the perceived solipsistic quality of postmodern experience worlds runs parallel to developments in recent critical theory These developments in fiction and theory both signal in the wake of poststructural conceptions of subjectivity a perhaps much awaited turn to the human in our culture at large today

**The Hyphenateds** Phil Snider, 2011-12-12 Though the emergent church was once viewed as a fringe movement with little to offer established congregations it is now seen as one of the central driving forces shaping the future of postmodern Christianity in North America As an increasing number of mainline communities wonder how the emergent church influences their own structures and practices this book brings together the perspectives of several of the most prominent Hyphenated Christians i e those with one foot in the emergent conversation and the other foot in the mainline church Presbytermergents Anglimergents Luthermergents Methomergents etc With a passion for both mainline traditions and the emergent conversation Hyphenateds offer a vibrant and contagious vision of the ways in which the church might undergo the transformation necessary to faithfully embody the love of Christ in the midst of an ever changing postmodern world The contributors of this book offer wisdom from a variety of contexts and The Hyphenateds reflects the changing dynamics currently taking place in the emergent conversation

Bruner, Stephen Stroope, 2010-04-01. As your children grow, will their faith grow too? To see effective change, parents cannot leave their child's faith to chance. Rather, families must start nurturing faith early; you cannot start once your child is grown; you must start at home. Strengthening family and home life is the best way to encourage your children to maintain a lifelong faith. *It Starts at Home* upholds marriage and family as the proving ground for lasting success. Experienced pastors Kurt Bruner and Steve Stroope provide a clear purpose, an effective strategy, and a simple plan for anyone who wants to be intentional in their homes. Their insights will help leaders recalibrate their priorities by asking them to evaluate their leadership where it counts most. This newly revised edition evaluates the current trends families and young adults face that can contribute to this crisis. Don't let your child's faith fade to memory; learn how you can create a home that will prepare them for lifelong faith.

*Imagining Our Neighbors as Ourselves* Mary W. McCampbell, 2022-04-19. Anyone reading comments in online spaces is often confronted with a collective cultural loss of empathy. This profound loss is directly related to the inability to imagine the life and circumstances of the other. Our malnourished capacity for empathy is connected to an equally malnourished imagination. In order to truly love and welcome others, we need to exercise our imaginations to see our neighbors more as God sees them than as confined by our own inadequate and ungracious labels. We need stories that can convict us about our own sins of omission or commission, enabling us to see the beautiful, complex world of our neighbors as we look beyond ourselves. In this book, Mary McCampbell looks at how narrative art—whether literature, film, television, or popular music—expands our imaginations and, in so doing, emboldens our ability to love our neighbors as ourselves. The prophetic artists in these pages—Graham Greene, Toni Morrison, and Flannery O'Connor among them—show through the form and content of their narrative craft that in order to love, we must be able to effectively imagine the lives of others. But even though we have these rich opportunities to grow emotionally and spiritually, we have been culturally trained as consumers to treat our practice of reading, watching, and listening as mere acts of consumption. McCampbell instead insists that truly engaging with artists who have the prophetic capacity to create art that wakes us up can jolt us from our typically self-concerned spiritual stupors. She focuses on narrative art as a means of embodiment and an invitation to participation, hospitality, and empathy. Reading, seeing, or listening to the story of someone seemingly different from us can awaken us to the very real spiritual similarities between human beings. The intentionality that it takes to surrender a bit of our own default self-centeredness is an act of spiritual

formation *Imagining Our Neighbors as Ourselves* presents a journey through initial self reflection to a richer more compassionate look outward as narrative empowers us to exercise our imaginations for the sake of expanding our capacity for empathy

Zacharias 2 in 1-Jesus Among Other Gods & Deliver Us from Evil Ravi Zacharias, 2009-09-10 Jesus Among Other Gods In his most important work to date apologetics scholar and popular speaker Ravi Zacharias shows how the blueprint for life and death itself is found in a true understanding of Jesus With a simple yet penetrating style Zacharias uses rich illustrations to celebrate the power of Jesus Christ to transform lives Jesus Among Other Gods contrasts the truth of Jesus with founders of Islam Hinduism and Buddhism strengthening believers and compelling them to share their faith with our post modern world Deliver Us From Evil With clarity and insight Zacharias shows how many of today s most popular ideas thoughts and beliefs are vandalizing our culture He shows how it is there in the depths of our innermost being That the work of God changes what we want to do This is not an ethical system calling us to civility This is the transforming work of the grace of God who calls us His children He shows how Secularization has led us to a loss of shame generating evil even against those we love Pluralization has led us to a loss of reason generating evil toward those we choose to hate Privatization has led us to loss of meaning generating evil against ourselves

*Greening the Red, White, and Blue* Thomas Jundt, 2014 In popular imagination environmentalism is often linked to Rachel Carson s Silent Spring and the political activism of the 1960s and 70s that moved increasing numbers of Americans to insist on a better quality of life open spaces clean air and water beautification campaigns But these interpretations have obscured the significant origins of environmentalism as a moral and intellectual broadside against the growing power of corporate capitalism both domestically and in the postwar liberal international order the United States was enacting abroad In *Greening the Red White and Blue* Thomas Jundt shows how many Americans came to view powerful corporations and a federal government bent on economic

growth as threats to human health and the environment. Fallout from atomic testing, air and water pollution, the proliferation of pesticides and herbicides, all connected to the growing dominance of technology and corporate capitalism in American life, led a variety of constituencies to seek solutions. In what came to be known as environmentalism, in addition to political and legal campaigns to effect change, an alternative form of civic participation emerged beginning in the late 1940s as growing numbers of citizens turned to what they deemed environmentally friendly consumption practices. The goal of this politically charged consumption was not only to protect themselves and their families from harm but also to achieve social change at a time when many believed the government was placing the desires of business before the needs of its citizens. Politicians responded to the growing environmental concerns of middle class Americans but in the end, continual political compromises with corporate power meant weak laws and lax enforcement. Many citizens sought refuge in an alternative green marketplace including organic foods, natural fiber clothing, alternative energy, and everyday products designed to have minimal environmental impact. In doing so, they attempted to create a community for those who shared their concerns and frustrations as well as their vision for a different American Way. Thomas Jundt's work highlights the intertwining of consumerism and environmentalism amidst the growing power of corporate capitalism and government in postwar America.
