*The Child Savage, 1890-2010* Elisabeth Wesseling, 2016 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time     The Horn Book Guide to Children's and Young Adult Books ,2008     **The Book Review Digest** ,2007
