Representations of Masculinity in Literature and Film Sara Martín, 2020-09-11 How are men represented on the printed page the stage and the screen What do these representations say about masculinity in the past the present and the future The twelve essays in this volume explore the different ways in which men and masculinity have been represented from the plays of William Shakespeare to the science fiction of Richard K Morgan passing through classic fiction by Emily Bront and Charles Dickens and popular favourites by Terry Pratchett and Isaac Asimov without forgetting the Star Wars saga Collectively these essays argue that although much has been written about men it has been done from a perspective that does not see masculinity as a specific feature in need of critical appraisal Men need to be made aware of how they are

represented in order to alter the toxic patriarchal models handed down to them and even break the extant binary gender models For that it is important that men distinguish patriarchy from masculinity as is done here and form anti patriarchal alliances with each other and with women This book is then an invitation to men s liberation from patriarchy by raising an awareness of its crippling constraints **Margaret Atwood's Apocalypses** Karma Waltonen,2015-01-12 Margaret Atwood s Apocalypses features essays by established and new Atwood scholars on Atwood s poetry The Handmaid s Tale and the famous MaddAddam trilogy Readers will encounter ways to trace the theme of apocalypse through decades of Atwood s work and lenses through which to view various fictional apocalypses including disability studies theology and ecofeminism

Thirteen Richard K. Morgan,2008-06-24 In Thirteen Richard K Morgan radically reshapes and recharges science fiction yet again with a new and unforgettable hero in Carl Marsalis hybrid hired gun and a man without a country or a planet Marsalis is one of a new breed Literally Genetically engineered by the U S government to embody the naked aggression and primal survival skills that centuries of civilization have erased from humankind Thirteens were intended to be the ultimate military fighting force The project was scuttled however when a fearful public branded the supersoldiers dangerous mutants dooming the Thirteens to forced exile on Earth s distant desolate Mars colony But Marsalis found a way to slip back and into a lucrative living as a bounty hunter and hit man before a police sting landed him in prison a fate worse than Mars and much more dangerous Luckily his enhanced life also seems to be a charmed one A new chance at freedom beckons courtesy of the government All Marsalis has to do is use his superior skills to bring in another fugitive But this one is no common criminal He s another Thirteen one who s already shanghaied a space shuttle butchered its crew and left a trail of bodies in his wake on a bloody cross country spree And like his pursuer he was bred to fight to the death Still there s no question Marsalis will take the job Though it will draw him deep into violence treachery corruption and painful confrontation with himself anything is better than remaining a prisoner The real question is can he remain sane and alive long enough to succeed **Blast, Corrupt, Dismantle, Erase** Brett Josef Grubisic,Gisèle M. Baxter,Tara Lee,2014-06-16 What do literary dystopias reflect about the times In Blast Corrupt Dismantle Erase contributors address this amorphous but pervasive genre using diverse critical methodologies to examine how North America is conveyed or portrayed in a perceived age of crisis accelerated uncertainty and political volatility Drawing from contemporary novels such as Cormac McCarthy s The Road Neil Gaiman s American Gods and the work of Margaret Atwood and William Gibson to name a few this book examines dystopian literature produced by North American authors between the signing of NAFTA 1994 and the tenth anniversary of 9 11 2011 As the texts illustrate awareness of and deep concern about perceived vulnerabilities ends of water oil food capitalism empires stable climates ways of life non human species and entire human civilizations have become central to public discourse over the same period By asking questions such as What are the distinctive qualities of post NAFTA North American dystopian literature and What does this literature reflect about the tensions and contradictions of the inchoate continental community

of North America Blast Corrupt Dismantle Erase serves to resituate dystopian writing within a particular geo social setting and introduce a productive means to understand both North American dystopian writing and its relevant engagements with a restricted mapped reality

Temporalities in/of Crises in Anglophone Literatures Sibylle Baumbach, Birgit Neumann, 2023-08-08 Literary works play a crucial role in modelling and conceptualising temporalities This becomes particularly apparent in times of crises which put conventionalised temporal patterns and routines under pressure During crises past present and future appear to collapse into each other and give way to temporal disjunction and rupture Offering pluralised and context sensitive approaches to temporalities in and of crises this volume explores how literature's engagement with crises suggests both the need for and possibility of rethinking time The volume is committed to examining the affordances of specific genres and their potential in pointing beyond temporalities of crises to facilitate a sense of futurity Individual essays are grounded in recent theories of temporality and literary form which are related to novel advancements in ecocriticism queer studies affect theory and postcolonial studies The chapters cover a broad range of examples from different literary genres to reveal the knowledge of literature about temporalities in and of crises
