Beyond epic simplicity : the intersection of literature, philosophy and science in musil's man without qualities Todd Curtis Kontje, Atatürk in the Nazi Imagination Stefan Ihrig, 2014-11-20 Early in his career Hitler took inspiration from Mussolini this fact is widely known But an equally important role model for Hitler has been neglected Atat rk the founder of modern Turkey who inspired Hitler to remake Germany along nationalist secular totalitarian and ethnically

exclusive lines Stefan Ihrig tells this compelling story **Justifying Genocide** Stefan Ihrig, 2016-01-04 As Stefan Ihrig shows in this first comprehensive study many Germans sympathized with the Ottomans longstanding repression of the Armenians and with the Turks program of extermination during World War I In the Nazis version of history the Armenian Genocide was justifiable because it had made possible the astonishing rise of the New Turkey **Imagining the Balkans** Maria Todorova, 2009-04-15 Maria Todorova who was raised in the Balkans is in a unique position to bring both scholarship and sympathy to her subject and in a new afterword she reflects on recent developments in the study of the Balkans and political developments on the ground since the publication of *Imagining the Balkans* The afterword explores the controversy over Todorova's coining of the term Balkanism With this work Todorova offers a timely updated accessible study of how an innocent geographic appellation was transformed into one of the most powerful and widespread pejorative designations in modern history Language in Life and a Life in Language Bruce Fraser, Ken Turner, 2009 Professor Jacob Mey is one of the most respected enterprising industrious scholarly and avuncular members of the many linguistics communities in which he has worked This collection includes invited papers that honour Professor Mey on the occasion of his eightieth birthday

Karl May ; 1 Renate Milczewsky, 1985 Imagining the Balkans Мария Николаева Тодорова, 1997 Starting in the 18th and 19th centuries and continuing up to the present *Imagining the Balkans* covers the Balkan's most formative years The Red Atlantic Jace Weaver, 2014 *Red Atlantic* American Indigenes and the Making of the Modern World 1000-1927 **In the Desert** Karl May, 1955 The Life and Death of Adolf Hitler Robert Payne, 2016-10-05 In *The Life and Death of Adolf Hitler* biographer Robert Payne unravels the tangled threads of Hitler's public and private life and looks behind the caricature with the Charlie Chaplin mustache and the unruly shock of hair to reveal a Hitler possessed of immense personal charm that impressed both men and women and brought followers and contributions to the burgeoning Nazi Party Although he misread his strength and organized an ill-fated putsch Hitler spent his months in prison writing *Mein Kampf* which increased his following Once in undisputed command of the Party Hitler renounced the chastity of his youth and began a sordid affair with his niece whose suicide prompted him to reject forever all conventional morality He promised anything to prospective supporters then cold-bloodedly murdered them before they could claim a share of the power he reserved for himself Once he became Chancellor Hitler step by step bent the powers of the state to his own purposes to satisfy his private fantasies rearming Germany slaughtering his real or imaginary enemies blackmailing one by one the leaders of Europe and plunging the world into the holocaust of World War II *THE LIFE AND DEATH OF ADOLF HITLER* is the story of not so much a man corrupted by power as a corrupt man who achieved absolute power and used it to an unprecedented degree knowing at every moment exactly what he was doing and calculating his enemies' weaknesses to a hair's breadth It is the story of a living man Karl May auf Reisen Joachim Heimannsberg, 2012 Heavenly Fatherland Jeremy Best, 2020 Motivated by a theology that declared missionary work was independent of secular colonial pursuits Protestant missionaries from Germany operated

in ways that contradict current and prevailing interpretations of nineteenth century missionary work As a result of their travels these missionaries contributed to Germany's colonial culture Because of their theology of Christian universalism they worked against the bigoted racialism and ultra nationalism of secular German empire building Heavenly Fatherland provides a detailed political and cultural analysis of missionaries mission societies mission intellectuals and missionary supporters Combining cases studies from East Africa with studies of the metropole this book demonstrates that missionaries ideas about race and colonialism influenced ordinary Germans experience of globalization and colonialism at the same time that the missionaries shaped colonial governance By bringing together religious and colonial history the book opens new avenues of inquiry into Christian participation in colonialism During the Age of Empire German missionaries promoted an internationalist vision of the modern world that aimed to create a multinational multiracial heavenly Fatherland spread across the globe

Islam and the European Empires David Motadel, 2014 The first comparative account of the engagement of all major European empires with Islam in the eighteenth and nineteenth centuries exploring an array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance and contributing to our understanding of religion and power in the modern world

Modern German Literature Michael Minden, 2013-04-30 This accessible and fresh account of German writing since 1750 is a case study of literature as a cultural and spiritual resource in modern societies Beginning with the emergence of German language literature on the international stage in the mid eighteenth century the book plays down conventional labels and periodisation of German literary history in favour of the explanatory force of international cultural impact It explains for instance how specifically German and Austrian conditions shaped major contributions to European literary culture such as Romanticism and the language scepticism of the early twentieth century From the First World War until reunification in 1990 Germany's defining experiences have been ones of catastrophe The book provides a compelling overview of the different ways in which German literature responded to historical disaster They are first Modernism the Literature of Negation second the literature of totalitarian regimes Third Reich and German Democratic Republic and third the various creative strategies and evasions of the capitalist democratic multi medial cultures of the Weimar and Federal Republics The volume achieves a balance between textual analysis and cultural theory that gives it value as an introductory reference source and as an original study and as such will be essential reading for students and scholars alike

Orientalismus, Kolonialismus und Moderne Nina Berman, 2016-12-17

Karl May auf Reisen, 2014 *The Impulse of Freedom in Islam* John van Schaik, Christine Gruwez, 2013-12-01 The word Islam means surrender to God In our secular Western culture it is difficult to imagine what that means Among other things it indicates dependence and predestination But is this really the case Isn't this a superficial presumption Allah calls on human beings to surrender in freedom to their God Sura 96 Allah is merciful and forgiving At the same time however Allah is the all seeing one and the one who humbles In Islam free will and predestination have an uneasy relationship with each other but

isn't this true for every religion In this collection of essays three authors discuss various aspects of the tension between freedom and predestination in Islam from the perspective of Rudolf Steiner's works This background enables them to throw sometimes surprising light on the freedom impulse of Islam It is the authors hope that this book may contribute to a more balanced view of Islam today This timely book offers interested non Muslims a rare opportunity to examine a frequently misunderstood aspect of one of the world's fastest growing religions Captivating Westerns Susan Kollin, 2019-05-01

Tracing the transnational influences of what has been known as a uniquely American genre the Western Susan Kollin's *Captivating Westerns* analyzes key moments in the history of multicultural encounters between the Middle East and the American West In particular the book examines how experiences of contact and conflict have played a role in defining the western United States as a crucial American landscape Kollin interprets the popular Western as a powerful national narrative and presents the cowboy hero as a captivating figure who upholds traditional American notions of freedom and promise not just in the region but across the globe *Captivating Westerns* revisits popular uses of the Western plot and cowboy hero in understanding American global power in the post 9/11 period Although various attempts to build a case for the war on terror have referenced this quintessential American region genre and hero they have largely overlooked the ways in which these celebrated spaces icons and forms rather than being uniquely American are instead the result of numerous encounters with and influences from the Middle East By tracing this history of contact encounter and borrowing this study expands the scope of transnational studies of the cowboy and the Western and in so doing discloses the powerful and productive influence the Middle East has had on the American West
