MaddAddam by Margaret Atwood Margaret Atwood, 2014-08-12 **Margaret Atwood's Dystopian Fiction** Sławomir Kuźnicki, 2017-05-11 This volume details Margaret Atwood's dystopian novels through the themes of the ambivalent ethics of science and technology the position of women in the male dominated world and the ambiguous role played by religion and spirituality The book's unique and original approach places Atwood's fiction within the contemporary world with all the problems of our fast changing reality Furthermore it provides an excellent reading of her dystopias in a broader humanist context with an emphasis on the social cultural and political issues that have been important for both her the writer and us the readers

Margaret Atwood's Aesthetics Dunja M. Mohr, Kirsten Sandrock, 2025-03-31 Perhaps more timely than ever Margaret Atwood's *Aesthetics* offers novel perspectives on both contemporary and canonical topics in Margaret Atwood's work with a special focus on the intersections of literature and politics Arguably one of the most political writers of our times Atwood's oeuvre subtly and overtly entangles readers in the dialectics of personal and political power asymmetries intrinsic to her aesthetic practices The collection takes its cue from the concept of the artpolitical as coined by Crispin Sartwell whose afterword addresses Atwood's aesthetic and imaginative material world construction and explores the interrelationship between literatures and aesthetic as well as political systems in Atwood's works Individual chapters of Margaret Atwood's *Aesthetics* contribute to increasingly burning questions concerning the relevance of literature today by drawing on a variety of critical perspectives including Anthropocene studies gender intersectionality the nonhuman and the posthuman Mikhail Bakhtin's carnivalesque risk studies nationhood intermediality and teaching Chapters offer fresh views on some of Atwood's most prominent works such as *The Handmaid's Tale* and *The Testaments* and their transmedial adaptations while other chapters focus on Atwood's latest publications as well as on under researched works including her graphic novels and her web serialized publications Margaret Atwood's *Aesthetics* provides unique insights into the aesthetic and political power of Atwood's oeuvre arguing that literary and media representations and cultural adaptation practices contain a significant transformative potential that reaches beyond the page

Posthumanism and Literary Insights: A Critical Introduction Nikhilesh Dhar,Bapin Mallick,2025-08-29 The volume delves into the provocative terrain of escape as a mode of resistance Through a diverse array of studies encompassing political theology and artificial intelligence the author navigates the philosophical landscape of exiting established forms of knowledge and practices Drawing from a rich tapestry of Western thought from Carl Schmitt and St Augustine to Bernard Stiegler and Antonio Negri the volume engages deeply with the notion of forging new pathways beyond existing political paradigms The chapters present a fresh perspective on the dynamics of political transformation urging readers to reconsider conventional boundaries and embrace innovative approaches to social change By examining the intersections of philosophy politics and technology it invites readers to contemplate profound questions about liberation creativity and the potential for radical societal renewal It is an essential reading for scholars activists and anyone intrigued

by the philosophical underpinnings of resistance and the quest for new horizons in political theory and practice *Adapting Margaret Atwood* Shannon Wells-Lassagne, Fiona McMahon, 2022-01-01 This book engages with Margaret Atwood's work and its adaptations. Atwood has long been appreciated for her ardent defence of Canadian authors and her genre bending fiction, essays and poetry. However, a lesser studied aspect of her work is Atwood's role both as adaptor and as source for adaptation in media as varied as opera, television, film or comic books. Recent critically acclaimed television adaptations of the novels *The Handmaid's Tale* (Hulu) and *Alias Grace* (Amazon) have rightfully focused attention on these works, but Atwood's fiction has long been a source of inspiration for artists of various media, a seeming corollary to Atwood's own tendency to explore the possibilities of previously undervalued media: graphic novels, genres, science fiction and narratives, testimonial and historical modes. This collection hopes to expand on other studies of Atwood's work or on their adaptations to focus on the interplay between the two, providing an interdisciplinary approach that highlights the protean nature of the author and of adaptation.

Ecosustainable Narratives and Partnership Relationships in World Literatures in English Antonella Riem Natale, Tony Hughes-d'Aeth, 2022-04-27 The book challenges the myth of the neutrality and detachment of the scholar. Its strength lies in its dynamic, engaging and passionate participation in the meeting of texts and words of different genres, geographical areas and cultures in the pluralistic diversity of the themes explored in its fundamental and creative relations with ecosophy, ethnophilology, ecofeminism, system theory and ecolinguistics. It brings together renowned international scholars to focus on postcolonial, ecocritical, mythical and archetypal studies of literature, education and its partnership, mediation, applied linguistics and plurilingual education. Monstrous Textualities Anya Heise-von der Lippe, 2021-06-15 It brings together a range of critical approaches: the Gothic monster theory, critical posthumanism, post-structuralism, postcolonialism, feminist theory, fat studies, cyborg theory, including very recent forays into posthumanist, new materialist intersections. It contributes new readings to the critical canon on a wide range of critically acclaimed texts from Mary Shelley's *Frankenstein* via Toni Morrison's and Angela Carter's work to Margaret Atwood's *MaddAddam* trilogy. It explores narrative strategies of resistance against systemic cultural oppression and challenges a number of critical approaches in the process.

Technoculture in Margaret Atwood's Science Fiction Novels Jasmine Sharma, 2023-09-01 The contemporary mediation between technoscience and philosophy offers overwhelming insights into the literary critical domain of thought. This book conceptualizes an enriching engagement with questions pertaining to the notion of technology and how its blend with cultural facets makes comprehensive room for the reconstitution of the literary landscape in Atwood's science fiction (SF) novels. Ranging from the technologies of disciplinary and bio-corporeal power to theorizing gender politics of cyborgian, nomadic and humanoid bodies from technologizing the consumption of hybrid edibles and lingual epistemology to discerning the hyperreal dimensions of archived tech memoirs, video gaming and digital sex, the book takes a philosophical approach to technocultural studies, a newly emerging interdisciplinary methodology. It contributes to an optimal concretization of

technoscientific exploration in Margaret Atwood's literary scholarship and adds to the existing field of theoretical acumen within cosmopolitan literatures **Under the Literary Microscope** Sina Farzin, Susan M. Gaines, Roslynn D.

Such manipulation is deeply ambivalent since it can be used as a means of disseminating the ideology of oppressive regimes at the expense of the source text but it can also serve to garner attention to marginalised texts This tense interplay between political social and aesthetic purposes almost inevitably generates discontents which may turn out to be the outcome of translation in general However discontent is a relational concept depending on where one stands in the field of competing positions that is the canon

Food in Margaret Atwood's Speculative Fiction Katarina Labudova, 2022-11-10 This book looks at Margaret Atwood's use of food motifs in speculative fiction Focusing on six novels *The Handmaid's Tale* and *The Testaments* the *Maddaddam* trilogy and *The Heart Goes Last* Katarina Labudova explores the environmental ecological and cultural questions at play and the possible future scenarios which emerge for humanity's survival in apocalyptic and post apocalyptic conditions Labudova argues that food has special relevance in these novels and that characters' hunger limited food choices culinary creativity and eating rituals are central to Atwood's depictions of hostile environments She also links food to hierarchy dominance and oppression in Atwood's novels and foregrounds the problem of hunger both psychological or physical caused by pollution and loss of contact with the natural and authentic The book shows how Atwood's writing draws from a range of genres including apocalyptic fiction science fiction speculative fiction dystopia utopia fairy tale myth and thriller and how food is an important highly versatile motif linking these intertextual threads
