Monstrous Bodies June Pulliam, 2014-07-15 Recent works of young adult fantastic fiction such as Stephenie Meyer's Twilight Saga have been criticized for glamorizing feminine subordination But YA horror fiction with female protagonists who have paranormal abilities suggests a resistance to restrictive gender roles The monstrous Other is a double with a difference a metaphor of the Western adolescent girl pressured to embody an untenable doll like feminine ideal This book examines what each of three types of female monstrous Others in young adult fiction the haunted girl the female werewolf and the witch has to tell us about feminine subordination in a supposedly post feminist world where girls continue to be pressured to silence their voices and stifle their desires

Alternating Narratives in Fiction for Young Readers Perry Nodelman, 2017-04-17 This book is about the implications of novels for young readers that tell their stories by alternating between different narrative lines focused on different characters It asks if you make sense of fiction by identifying with one main character how do you handle two or more of them Do novels with alternating narratives diverge from longstanding conventions and represent a significant change in literature for young readers If not how do these novels manage to operate within the parameters of those conventions This book considers answers to these questions by means of a series of close readings that explore the structural educational and ideological implications of a variety of American British Canadian and Australian novels for children and for young adults
