The Far Horizons of Time H. Chris Ransford, 2015-04-24 What is Time Assuming no prior specialized knowledge by the reader the book raises specific hitherto overlooked questions about how time works such as how and why anyone can be made to be at the very same instant simultaneous with events that are actually days apart It examines abiding issues in the physics of time or at its periphery which still elude a full explanation such as delayed choice experiments the brain's perception of time during saccadic masking and more and suggests that these phenomena can only exist because they ultimately obey applicable mathematics thereby agreeing with a modern view that the universe and everything within it including the mind are ultimately mathematical structures It delves into how a number of conundrums such as the weak Anthropic Principle could be resolved and how such resolutions could be tested experimentally All its various threads converge towards a same new vision of the ultimate essence of time seen as a side effect from a deeper reality

To Save Time Is To Lengthen Life (English) Dr. Sahadeva Das, 2018-01-01 Time is our most precious resource All we have in life is time Often we realize the importance of time only when there is little of it left Our greatest capital asset is our unexpired years of productive life We can not influence the supply of this resource C S Lewis says The future is something which everyone reaches at the rate of sixty minutes an hour whatever he does whoever he is This realization is not very easy to come by It is said that a wise person does at once what a fool does at last Both do the same thing only at different times

Shivers & Signposts Len Richman, 2015-08-13 *Shivers Signposts: The Journey Continues* is Len Richman's second exploration of a life measured out by a distinct rhythm of his own devising. Picking up where his first memoir *Raindrops Glimpses Moments: An Unconventional Memoir of an Unplanned Journey* left off, Richman shows in *Shivers Signposts* that he still has much to do and much to say. Richman attacks life with uncommon vigour. Never motionless, he moves forwards and sometimes backwards, suffusing each manoeuvre with unique energy, vitality, and constant evolution. Shivers at the thought of growing old, of becoming stale, occasional alienation and loneliness. Richman is driven onwards by a pressing need to redefine and redirect his innermost self, a self that he continually re-evaluates through the lens of modern technology, literature, theatre, and film. These are the signposts that guide him through his fascinating quest for renewal of spirit and self. Let us hear his decisive commentary on modern social and cultural mores, his unapologetic tackling of issues from racism to materialism to present-day psychoanalysis. Let us listen to the music of Richman's own Love Song about the love of a life well lived and still well worth living. Let us be challenged through Richman's examination of his own life to ask of ourselves: How should we presume? From the Introduction by Stuart Lubarsky M.D.
