The Nigger Of The Narcissus By Joseph Conrad:

The Nigger of the Narcissus Joseph Conrad, 1923 Conrad's Models of Mind Bruce Johnson, 1971-07-14 Conrad's *Models of Mind* was first published in 1971. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. In a new approach to understanding the psychological assumptions that lie behind the creation of a work of fiction, Professor Johnson analyzes a number of Joseph Conrad's novels and short stories, identifying and explaining Conrad's changing conceptions or models of mind. As he points out in his introduction, Every writer makes assumptions about the nature of the mind, whether they may be elaborate theories, metaphors that seem simple but imply a great deal, downright beliefs, or vague gestalten. And such assumptions color his whole creation, the way his characters think and feel and react, possibly even his choice of subject matter. The author traces Conrad's steady progression away from deductive psychology, involving such entities as will, passion, ego, or sympathy, toward a flexible and for the period new psychology that had implications for his entire development as a writer. Professor Johnson finds certain affinities between Conrad's models of mind and those of a number of other writers among them, Schopenhauer, Sartre, and Pascal. He shows that one aspect of Conrad's psychology was closely allied to the Schopenhauerian concept of will, but that when he wrote *Lord Jim*, *Heart of Darkness*, and *Nostromo*, Conrad moved toward an existential concept of self-image and self-creation, similar to Sartre's psychology in *Being and Nothingness*. Finally, Professor Johnson examines Conrad's novel *The Rescue* and shows how hopeless it was for Conrad to return to earlier conceptions of mind after he had explored the new existential models.

The ^ADialect of Modernism Michael North, 1998-01-22 *The Dialect of Modernism* uncovers the crucial role of racial masquerade and linguistic imitation in the emergence of literary modernism. Rebelling against the standard language and literature written in it, modernists such as Joseph Conrad, Gertrude Stein, T. S. Eliot, Ezra Pound, and William Carlos Williams reimagined themselves as racial aliens and mimicked the strategies of dialect speakers in their work. In doing so, they made possible the most radical representational strategies of modern literature, which emerged from their attack on the privilege of standard language. At the same time, however, another movement, identified with Harlem, was struggling to free itself from the very dialect the modernists appropriated, at least as it had been rendered by two generations of white dialect writers. For writers such as Claude McKay, Jean Toomer, and Zora Neale Hurston, this dialect became a barrier as rigid as the standard language itself. Thus, the two modern movements, which arrived simultaneously in 1922, were linked and divided by their different stakes in the same language. In *The Dialect of Modernism*, Michael North shows, through biographical and historical investigation and through careful readings of major literary works, that however different they were, the two movements are inextricably connected and thus cannot be considered in isolation. Each was marked for good and bad by the other.

The Nigger Of The "Narcissus": A Tale Of The Forecastle Joseph Conrad, 2022-09-15 Joseph Conrad's *The Nigger Of The Narcissus: A Tale Of The Forecastle* presents a

profound exploration of the human condition through the microcosm of a ship's crew. Set aboard the merchant vessel *Narcissus*, the narrative delves into the lives of its diverse crew members as they confront existential crises, racial tensions, and moral dilemmas during a tumultuous voyage. Written in Conrad's distinctive impressionistic style, the novel employs rich symbolism and psychological depth, positioning it within the context of late 19th-century literature that grappled with themes of imperialism and identity. Conrad, a Polish-British writer with a seafaring background, brings authenticity to this maritime tale, drawing from his own experiences at sea. His multifaceted identity and exposure to varied cultures deeply influenced his perspective on race, duty, and isolation, themes that resonate throughout this work. This novel reflects his keen understanding of the struggle between civilization and savagery, embodying the conflicts of his time while prefiguring Modernist literature that would follow. Recommended for readers interested in the complexities of human relationships and historical context. *The Nigger of the 'Narcissus'* provocatively engages with challenging themes of race and morality. Conrad's narrative not only serves as a compelling tale of endurance but also invites critical reflection on societal norms and personal identities, making it a seminal work in the canon of maritime literature.

Conrad's Fiction as Critical Discourse Richard Ambrosini, 1991-07-26. Joseph Conrad's comments about his works have commonly been dismissed as theoretically unsophisticated, while the critical notions of James Woolf and Joyce have come to shape our understanding of the modern novel. Richard Ambrosini's study of Conrad's *Fiction as Critical Discourse* makes an original claim for the importance of his theoretical ideas as they are formed, tested, and eventually redefined in *Heart of Darkness* and *Lord Jim*. Setting the narrator's discourse in these tales in the context of the dynamic interplay of Conrad's fictional with his non-fictional writings and of the transformations in his narrative forms, Ambrosini defines Conrad's view of fiction and the artistic ideal underlying his commitment as a writer in a new and challenging way. Conrad's innovative techniques as a novelist are shown in the continuity of his theoretical enterprise from the early search for an artistic prose and a personal novel form to the later dislocations of perspective achieved by manipulation of conventions drawn from popular fiction. This reassessment of Conrad's critical thought offers a new perspective on the transition from the Victorian novel to contemporary fiction.

The Nineteenth-century Novel Stephen Regan, 2001. Most undergraduate literature courses begin with a compulsory survey course on the novel. *The Nineteenth Century Novel: A Critical Reader* fills a real gap in the market as no other book provides such a comprehensive selection of contemporary and modern essays and reviews on the most important novels of the period. By bringing together a range of material written across two centuries, it offers an insight into the changing reception of realist fiction and a discussion of how complex debates about the meaning and function of realism informed and shaped the kind of fiction that was written in the nineteenth century. The novels discussed are *Northanger Abbey*, *Jane Eyre*, *Dombey and Son*, *Middlemarch*, *Far From the Madding Crowd*, *Germinal*, *Madame Bovary*, *The Woman in White*, *The Portrait of a Lady*, *The Awakening*, *Dracula*, *Heart of Darkness*.

A Genealogy of Modernism Michael Harry Levenson, 1986-06-27. *A Genealogy of*

Modernism is a study of literary transition in the first two decades of the twentieth century a period of extraordinary ferment and great accomplishment during which the avant garde gradually consolidated a secure place within English culture Michael Levenson analyses that complex process by following the successive phases of a literary movement Impressionist Imagist Vorticist Classicist as it attempted to formulate the principles on which a new aesthetic might be founded The emphasis here falls on the ideology of modernism but throughout the book the ideological question is tied on the one hand to specific literary works and on the other to general movements in philosophy and the fine arts The major figures under discussion Joseph Conrad Ford Madox Ford Ezra Pound Wyndham Lewis and T S Eliot are placed in relation to thinkers who have been largely neglected in the history of modernism Max Stirner Wilhelm Worringer Pierre Lasserre Allen Upward and Hilaire Belloc Levenson thus situates the emergence of a modernist aesthetic within the context of literary theory literary practice and cultural history

Joseph Conrad Joseph Conrad, Georges Jean-Aubry, 1927 **Conrad's Marlow** Paul Wake, 2013-07-19 Variously described as the average pilgrim a wanderer and a Buddha preaching in European clothes Charlie Marlow is the voice behind Joseph Conrad's Youth 1898 Heart of Darkness 1899 Lord Jim 1900 and Chance 1912 Conrad's Marlow offers a comprehensive account and critical analysis of one of Conrad's most celebrated creations asking both who and what is Marlow a character or a narrator a biographer or an autobiographical screen a messenger or an interpreter a bearer of truth or a misguided liar Reading Conrad's fiction alongside the work of Walter Benjamin Maurice Blanchot Jacques Derrida and Martin Heidegger and offering an investigation into the connection between narrative and death this book argues that Marlow's essence is located in his liminality in his constantly shifting position and that the emergence of meaning in his stories is at all points bound up with the process of his storytelling

Modernism and the Middle Passage Laura Winkiel, 2025-10-14 Modernism is typically thought of as focusing on the new and now not looking backward at historical catastrophes Yet in many surprising often submerged ways the transatlantic slave trade shaped the works of both Black and white writers This book reveals how modernists turned to the Middle Passage and in so

Conrad's Narrative Voice Werner Senn, 2017-01-09 Werner Senn's *Conrad's Narrative Voice* draws on the methodology of linguistic stylistics and the analysis of narrative discourse to discuss Joseph Conrad's perception of the role and the limitations of language Tracing recurrent linguistic patterns allows Senn to demonstrate that Conrad's view of the radical indeterminacy of the world is conveyed on the most basic levels of the author's often criticised verbal style but permeates his work at all levels of the narrative Detailed stylistic analysis also reveals the importance to Conrad of the spoken word of oral communication Senn argues that the narrators

compulsive efforts to make their readers see and understand reflect Conrad's ethics of human solidarity in a world he depicts as hostile enigmatic and often senseless

The Nigger Of The "Narcissus" Joseph Conrad, 2015-10-07 The work written in 1896 and partly based on Conrad's experiences of a voyage from Bombay to London began as a short story but developed into a novella of some 53 000 words As it grew Conrad began to think of its being serialized After Smith Elder had rejected it for the Cornhill Magazine William Ernest Henley accepted it for the New Review and Conrad wrote to his agent Garnett Now I have conquered Henley I ain't afraid of the devil himself Some years later in 1904 Conrad described this acceptance as the first event in my writing life which really counted In the United States the novel was first published under the title *The Children of the Sea A Tale of the Forecastle* at the insistence by the publisher Dodd Mead and Company that no one would buy or read a book with the word nigger in its title not because the word was deemed offensive but because a book about a black man would not sell In 2009 WordBridge Publishing published a new edition titled *The N Word of the Narcissus* which completely excised the word nigger from the text According to the publishers the offensive word may have led readers to avoid the book and thus by getting rid of it the work was made more accessible Although praised by some others denounced the change as censorship
