, 1998 **Religion and Outer Space** Eric Michael Mazur, Sarah McFarland Taylor, 2023-07-07 Religion and Outer Space examines religion in and on the final frontier This book offers a first of its kind roadmap for thinking about complex encounters of religion and outer space A multidisciplinary group of scholarly experts takes up some of the most intriguing scientific spiritual trade commercial and even military dimensions of the complex entanglements of religion and outer space Attending to the historical reality that the interconnections between religion and the heavens are as old as religions themselves the volume starts with an examination of outer space elements in the most sacred writings of the world's religions It then explores some of the religious questions inevitable in this encounter analyzing cultural constructions both literary and actual of religion and outer space It ends with examinations of the role of religion in the very real and very present business of space exploration What might motivate the spread of religion or at least fantasies of religion in its myriad possibilities into new interior and exterior dimensions of the cosmos Only the future will tell Religion and Outer Space is essential reading for students and academics with an interest in religion and space religion and science space exploration religion and science fiction popular culture and religion in America *Strange Bedfellows* Russell Peterson, 2008-03-05 It is no coincidence that presidential candidates have been making it a point to add the late night comedy circuit to the campaign trail in recent years In 2004 when John Kerry decided it was time to do his first national television interview he did not choose CBS's 60 Minutes ABC's Nightline or NBC Nightly News Kerry picked Comedy Central's The Daily Show When George W Bush was lagging in the polls his appearance on the David Letterman Show gave him a measurable boost Candidates for the 2008 presidential election began their late night bookings almost as soon as they launched their campaigns How can this be The reason is that polls have been consistently finding that a significant number of Americans and an even larger proportion of those under the age of thirty get at least some of their news about politics and national affairs from comedy shows While this trend toward what some have called infotainment seems to herald the descent of our

national discourse the triumph of entertainment over substance the reality according to Russell L Peterson is more complex He explains that this programming is more than a mere replacement for traditional news outlets it plays its own role in shaping public perception of government and the political process From Johnny Carson to Jon Stewart from Chevy Chase s spoofing of President Ford on Saturday Night Live to Stephen Colbert s roasting of President Bush at the White House Correspondents Dinner Strange Bedfellows explores what Americans have found so funny about our political institutions and the people who inhabit them and asks what this says about the health of our democracy Comparing the mainstream network hosts Jay Dave Conan and Johnny before them who have always strived to be equal opportunity offenders to the newer edgier crop of comedians on cable networks Peterson shows how each brand of satire plays off a different level of Americans frustrations with politics
