Hallahan,2002-12-18

Identification of Learning Disabilities Research to Practice is the remarkable product of a learning disabilities summit conference convened by the Office of Special Education Programs OSEP in August 2001 and the activities following that summit Both the conference and this book were seen as important preludes to congressional reauthorization of the historic Individuals With Disabilities Education Act IDEA scheduled for 2002 and subsequent decision making surrounding implementation The OSEP conference brought together people with different perspectives on LD parents researchers practitioners and policymakers and resulted in this book which examines the research on nine key issues concerning the identification of children with learning disabilities Coverage includes alternative responses to treatment classification approaches processing deficit models and approaches to decision making Chapter Structure Each of the first nine chapters is organized around a lengthy issue oriented paper which presents the most current research on that topic These primary papers are then followed by four respondent papers that reflect a variety of viewpoints on the topic Summarizing Chapter A small group of researchers listed in the final chapter dedicated an enormous amount of time to summarizing the research

and developing key consensus statements regarding the identification of children with learning disabilities Their work is sure to have a tremendous impact on future discussions in this area Expertise The following well known scholars have helped summarize the vast amount of research presented in this book as well as the consensus statements derived therefrom Lynne Cook Don Deshler Doug Fuchs Jack M Fletcher Frank Gresham Dan Hallahan Joseph Jenkins Kenneth Kavale Barbara Keogh Margo Mastopieri Cecil Mercer Dan Reschley Rune Simeonsson Joe Torgesen Sharon Vaughn and Barbara Wise

Comprehensive Handbook of Psychotherapy Integration George Stricker, Jerold R. Gold, 2013-06-29 This Handbook is the culmination of an interest in psychotherapy integration that led to our first professional collaboration in 1978 At that time we undertook in research conducted for a doctoral dissertation by the second editor and supervised by the senior editor to understand from and within a psychodynamic perspective the experiences of patients who had completed behavioral therapies At that time psychotherapy integration was a topic considered viable and interesting by only a few clinicians and scholars with little communication among them and less awareness concern and appreciation on the part of psychotherapists in general The situation today has changed The appearance of this Handbook may be taken as a significant sign of maturation and legitimacy of work in psychotherapy integration It is our hope and expectation that this volume will serve as an up to date and exhaustive overview of the status of ongoing scholarly and clinical work in the integration of the major schools of psychotherapy The Handbook opens with a section that will provide the reader with an overview of the history sociocultural context and empirical status of the broad field of psychotherapy integration
