Dissertations and Projects Peter Farrell, 2016-05-31 Writing Built Environment Dissertations and Projects will help you to
 write a good dissertation or project by giving you a good understanding of what should be included and showing you how to
 use data collection and analysis tools in the course of your research Addresses prominent weaknesses in under graduate
 dissertations including weak data collection superficial analysis and poor reliability and validity Includes many more in depth
 examples making it easy to understand and assimilate the concepts presented Issues around study skills and ethics are
 embedded throughout the book and the many examples encourage you to consider the concepts of reliability and validity
 Second edition includes a new chapter on laboratory based research projects Supporting website with sample statistical
 calculations and additional examples from a wider range of built environment subjects **Carnivoran Evolution** Anjali
 Goswami, Anthony Friscia, 2010-07-29 Members of the mammalian clade Carnivora have invaded nearly every continent and
 ocean evolving into bamboo eating pandas clam eating walruses and of course flesh eating sabre toothed cats With this
 ecological morphological and taxonomic diversity and a fossil record spanning over sixty million years Carnivora has proven
 to be a model clade for addressing questions of broad evolutionary significance This volume brings together top international
 scientists with contributions that focus on current advances in our understanding of carnivoran relationships ecomorphology
 and macroevolutionary patterns Topics range from the palaeoecology of the earliest fossil carnivorans to the influences of
 competition and constraint on diversity and biogeographic distributions Several studies address ecomorphological
 convergences among carnivorans and other mammals with morphometric and Finite Element analyses while others consider
 how new molecular and palaeontological data have changed our understanding of carnivoran phylogeny Combined these
 studies also illustrate the diverse suite of approaches and questions in evolutionary biology and palaeontology Writing a
