Pleasure Grounds of Death Joy M. Giguere, 2024 Rural cemeteries named for their expansive picturesque landscape design rather than location were established during the middle decades of the nineteenth century in the United States An instant cultural phenomenon Mount Auburn Cemetery in Cambridge Massachusetts was the nation's first such burial ground to combine the functions of the public park and the cemetery becoming a popular place to picnic and go for strolls even for people who didn't have graves to visit It sparked a nationwide movement in which communities sought to establish their own cities of the dead *Pleasure Grounds of Death* considers the history of the rural cemetery in the United States throughout the duration of the nineteenth century as not only a critical cultural institution embedded in the formation of community and national identities but also as major sites of contest over matters of burial reform taste and respectability and public behavior issues concerning race class and gender conflicts over the burial of the Civil War dead and formation of postwar memory and what constituted the most appropriate ways to structure the landscape of the dead in a modern and progressive society As cultural landscapes that served the needs of the living as well as the dead rural cemeteries offer a mirror for the transformations and conflicts taking place throughout the nineteenth century in American society

Cornerstone of the Confederacy Keith Hebert, 2023-08-18 Born in early 1812 in Crawfordville Georgia Alexander Stephens grew up in an antebellum South that would one day inform the themes of his famous Cornerstone Speech While Stephens made many speeches throughout his lifetime the Cornerstone Speech is the discourse for which he is best remembered Stephens delivered it on March 21 1861 one month after his appointment as vice president of the Confederacy asserting that slavery and white supremacy comprised the cornerstone of the Confederate States of America Within a few short weeks more than two hundred newspapers worldwide had reprinted Stephens's words Following the war and the defeat of the Confederacy Stephens claimed that his assertions in the Cornerstone Speech had been misrepresented his meaning misunderstood as he sought to breathe new and different life into an oration that may have otherwise been forgotten His intentionally ambiguous rhetoric throughout the postwar years obscured his true antebellum position on slavery and its centrality to the Confederate Nation and lent itself to early constructions of Lost Cause mythology In *Cornerstone of the Confederacy* Keith Hebert examines how Alexander Stephens originally constructed and then reinterpreted his well known Cornerstone Speech Hebert illustrates the complexity

of Stephens's legacy across eight chronological chapters meticulously tracing how this speech still widely cited in the age of Black Lives Matter reverberated in the nation's consciousness during Reconstruction through the early twentieth century and in debates about commemoration of the Civil War that live on in the headlines today. Audiences both inside and outside of academia will quickly discover that the book's implications span far beyond the memorialization of Confederate symbols grappling with the animating ideas of the past and discovering how these ideas continue to inform the present. **Thirsty**

Land into Springs of Water Brooke Kathleen Brassard, 2025-07-15 Looking at the example of The Church of Jesus Christ of Latter-day Saints *Thirsty Land into Springs of Water* answers questions about Canadian and religious identities immigration and integration Brooke Kathleen Brassard sheds light on the Latter-day Saint experience in southern Alberta between 1887 and 1947 revealing how the Latter-day Saints integrated into Canadian society while maintaining their peculiar identity through architecture business practices political participation gendered roles and family structures Drawing on family histories correspondence meeting minutes and oral histories Brassard explores how the Church negotiated the tension between integration and otherness The book demonstrates how Latter-day Saints in southern Alberta embedded themselves in the social economic and political structures of Canada and how they adapted Mormonism to Canadian circumstances It draws on the concept of lived religion and historical methodologies to reveal the complications that occur in the process of negotiation for members of a minority religion in Canada *Thirsty Land into Springs of Water* ultimately illuminates the ways in which mainstream Canadian society forces newcomers to decide what they will adopt reject or adapt in order to belong

City on the Verge Mark Pendergrast, 2017-05-16 What we can learn from Atlanta's struggle to reinvent itself in the 21st Century Atlanta is on the verge of tremendous rebirth or inexorable decline A kind of Petri dish for cities struggling to reinvent themselves Atlanta has the highest income inequality in the country gridlocked highways suburban sprawl and a history of racial injustice Yet it is also an energetic brash young city that prides itself on pragmatic solutions Today the most promising catalyst for the city's rebirth is the BeltLine which the New York Times described as a staggeringly ambitious engine of urban revitalization A long term project that is cutting through forty-five neighborhoods ranging from affluent to impoverished the BeltLine will complete a twenty-two mile loop encircling downtown transforming a massive ring of mostly defunct railways into a series of stunning parks connected by trails and streetcars Acclaimed author Mark Pendergrast presents a deeply researched multi-faceted up to the minute history of the biggest city in America's Southeast using the BeltLine saga to explore issues of race education public health transportation business philanthropy urban planning religion politics and community An inspiring narrative of ordinary Americans taking charge of their local communities *City of the Verge* provides a model for how cities across the country can reinvent themselves. **The Revival Styles in American**

Memorial Art Peggy McDowell, Richard E. Meyer, 1994 From the late eighteenth through the early twentieth centuries a sweeping movement in architectural and decorative taste dominated Western cultures Known collectively by the descriptive

term Revival Styles this phenomenon which left a rich visual legacy upon the cultural landscapes of many nations exhibited three primary manifestations Classical chiefly Greek and Roman Gothic or Medieval and Egyptian or Near Eastern In America for a variety of reasons a significantly large amount of the creative energy inherent in the Revival movement was directed towards the conception and erection of spectacular monuments and memorials to prominent Americans Frequently designed and executed by the leading architects and sculptors of the day the great majority of these strikingly beautiful artifacts and structures were placed in the large rural cemeteries of American cities developed in the middle decades of the nineteenth century where they remain for future generations to analyze and admire In this richly illustrated volume art historian Peggy McDowell and folklorist Richard E Meyer blend their respective disciplinary perspectives along with their shared long standing fascination with cemeteries and funerary material culture to provide a thoroughgoing descriptive analysis of this dramatic chapter in the history of American memorial art
