

Líquido refrigerante

El refrigerante no sólo protege al motor contra el sobrecalentamiento - tiene un punto de ebullición mucho más alto que el agua - sino que proporciona protección contra la corrosión y las heladas. Al usar un anticongelante de mala calidad, el concentrado refrigerante pierde su efecto antisísmico a temperaturas muy elevadas.

¡Atención! Evite el contacto del anticongelante con los ojos o la piel. Si esto sucediera, lave inmediatamente la zona afectada con agua abundante.

El refrigerante sólo se añade con el motor frío.

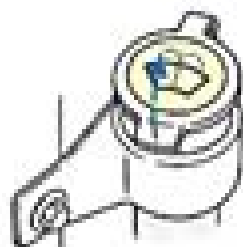

Depósito del líquido de la dirección asistida

Nivel del líquido de la dirección asistida

Apague el motor y controle el nivel del líquido teniendo la dirección asistida a temperatura de funcionamiento.

Retire el tapón del depósito y mida el nivel del líquido con la varilla. El líquido deberá llegar hasta la marca HIGH (MAX). Si estuviera en la marca LOW (MIN), añada el líquido prescrito en el capítulo 'Información para la estación de servicio'.

Depósito del lavaparabrisas

Lavaparabrisas y lavafaros

Compruebe el nivel de los depósitos con regularidad. Cuando sea necesario, recomendamos echar agua limpia y líquido lavaparabrisas de Motomul, mezclados con líquido anticongelante, si fuera el caso.

Depósitos del líquido lavacrystal

El tapón del depósito del líquido del lavaparabrisas se encuentra en la parte delantera derecha del motor del motor. El tapón del depósito del lavafaros se encuentra más, encima del plato lateral. Para llenarlo, retirelo simplemente y súbelo a colocar en su lugar después.

Depósito del lavafaros

Ajuste de los surtidores del lavaparabrisas

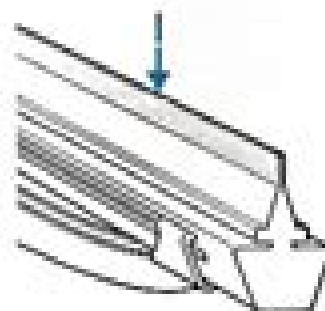

La dirección de los surtidores de bola se ajusta con precisión con un alfiler. Los surtidores de la luneta trasera se encuentran en la parte superior de dicha luneta.

Escobillas del limpiaparabrisas y de la luneta

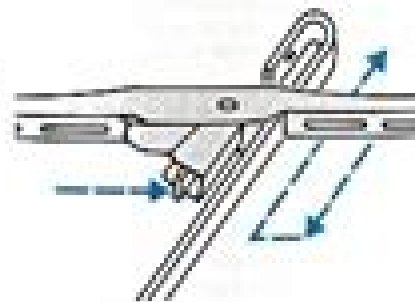

Pase el dedo por el borde de las escobillas, para comprobar si están en buen estado. Los residuos de goma, de silicona o de combustible que quedan adheridos desmejoran su funcionamiento. Limpíelas, junto con el parabrisas, con productos de limpieza especiales de Ford.

Nota: Es aconsejable cambiar las escobillas por lo menos una vez al año.

Cambio de las escobillas

Se recomienda cambiar las escobillas antes del invierno. Doble hacia atrás el brazo del limpiaparabrisas y a continuación coloque la escobilla en ángulo recto con el brazo. Para desprender la escobilla, empuje la pestilla en dirección de la flecha, desenganchela y tire de la escobilla en dirección contraria para sacarla del brazo.

1995 Ford Probe Manual Window Regulator
