LITERACY AT HOME

Sound Jump: Use chalk to draw a hopscotch game outside. Invite students write letters. Take turns playing hopscotch, saying the letter sounds as you jump on each letter for a challenge, say the letter sound and something that starts with that letter.

MATH AT HOME

Bigger/Smaller or the same? Take a nature walk outside with your child. Point out different things you see and label them with a size. Then have your child find something that is bigger/smaller or the same size as what you pointed out. For example, you might say "I see a tall tree, what do you see that is shorter than that tree?". Practice finding things that are bigger, smaller or the same in size. Take turns noting and comparing sizes while you walk.

TAKING CARE OF ME AT HOME

I Can Share and Take Turns: It's important that students learn how to share and take turns. Reproduce this at home. Find two favorite toys. Set a timer for 1-2 minutes and play with one toy while your child plays with the other. When the timer goes off, say "bigger" and show your child how to pass their toy to you and take the other toy to play with. As students start to understand this idea, practice sharing toys by only using one toy and having students ask for a turn with the toy and then wait until the timer goes off for their turn. Talk to them about things they can do while they are waiting for a turn such as reading a book, or finding a different toy. Have students practice this with siblings or other kids their age while using the timer for trading and sharing.
