in the Ashanti and Kwawu areas of Ghana Each folktale in Twi Akan dialect of the Tshi language is followed by an English translation The English translation is throughout made as nearly literal as possible At this point one meets a certain difficulty in a conflict between a desire for accuracy and an endeavour to give a translation acceptable to English ears First published in 1930 by R S Rattray this edition features a modern Akan Twi orthography with a brief introduction to the Language Ashanti folktales often tell a moral lesson describe a myth or answer a question about the natural world Most of the Ashanti tales use animal characters to represent human qualities such as jealousy honesty greed and bravery Ananse the spider is a trickster figure who appears in many of the Ashanti tales With regard to the classification of these stories it will be observed that the majority of them fall under one or other of the well known headings drolls and cumulative tales apologues or tales with a moral aetiological stories accounting for physical characteristics in men and beasts e g How the Leopard became Spotted etymological tales e g How the Ram came to be called Odwanini Each and all of the stories in this volume would however be classed by the Akan speaking African under the generic title of Ananses m Spider stories whether the spider appeared in the tale or not

Contractual Obligations in Ghana and Nigeria U. U. Uche, 2014-04-23 First Published in 1971 This study is a comparative investigation of contractual obligations in Ghana and Nigeria It has often been suggested that the law of civil responsibility in West Africa is the same as the current English law position on the subject This book sets out to examine the basis of this assumption an exercise which has never been attempted by any previous writer in West African law The study has been divided into five major parts

The Demise of the Reasonable Man Michael Saltman, 2017-09-08 Judges in most societies often resort to resolving disputes by means of applying a criterion of reasonableness In The Demise of the Reasonable Man Michael Saltman explores the ways in which reasonableness varies from one legal culture to another defined by the relative presence or absence of centralized political power In non politically centralized societies Saltman says judges seek meanings underlying human behavior and try to place reasonableness within a societal and cultural context This is possible because primitive societies are relatively homogenous in their values and tend towards consensus when

determining what constitutes reasonable behavior In contrast modern judges resort to standards of reasonableness only when the legal standard is unclear Saltman contrasts judges in politically centralized societies who in the absence of such consensus have the authority to determine on the basis of that authority what constitutes reasonableness This rich volume references case studies drawn from ethnographic fieldwork historical sources and law reports to demonstrate differences in judicial attitudes toward reasonableness The Statesman's Year-Book 1962 S. Steinberg,2016-12-27 The classic reference work that provides annually updated information on the countries of the world

Divine Rulers in a Secular State Timo Kallinen,2016-03-25 The divine kingship and chiefship of the Asante people of central Ghana have been undergoing a shift towards secularization since the start of the colonial era Timo Kallinen maintains that a close examination of this transformation provides us with a better understanding of secularization processes in Ghana more broadly and in other post colonial societies whose historical development likewise differs from that of the modern West and which have largely confronted secular modernity through encounters with European colonialism Throughout the volume secularization is understood as a process in modern society whereby divinity is separated from the ways in which both human society is regulated and physical nature is understood to function Divine Rulers in a Secular State has been divided into three thematic parts each with a short theoretical introduction In the first two analysis is primarily inspired by the work of Louis Dumont while in the third the theoretical ideas of Webb Keane and Bruno Latour are of central importance The undifferentiated order of the pre colonial Asante kingdom in which the chiefly and priestly functions of the rulers were not separated comprises the initial focus Sacrifices and marriage exchanges both of which were directed at establishing and perpetuating relations between the living and the spirits of the dead ancestors are posited as the most important responsibilities of the chief Also explored are perceptions that the founding of the kingdom and its authority structure are the results of sacrifices offered to various gods by the Asante king and his chiefs The second part examines the dissolution of the traditional order since the onset of British colonial occupation The secularization process was initiated by the aspirations of colonial administrators and missionary bodies who aimed to maintain Christian converts under the political authority of their non Christian chiefs who were still important ritual leaders Consequently it was necessary to start dividing society along political and religious lines so that only the former was a mandatory concern for all The kernel of modern citizenship was planted at the same time as the religious conscience of individuals started to shape their rights and duties towards their political rulers Furthermore theories about Asante as a state based on contract and representation were proposed and developed In the post colonial era chiefship has been put into the service of the independent nation state both as an instrument of administration and a nationalistic symbol while most recently chiefs have been depicted as leaders in civil society even receiving support from global developmental organizations Yet traditional chieftaincy is strongly criticized by certain Christian groups belonging to the Pentecostal Charismatic movement which still see it as integrally linked to traditional cosmologies The third part of the book

takes the discussion beyond the separation of the categories of religion and politics. Secularization has also entailed the dematerialization of religion, establishing it as something that ought to be understood primarily as mental or spiritual in a secular society. Things like deities, witchcraft, or sacrifices should not be recognized as proper agents and actions at the level of immanent relations. In Ghana, such views are effectively contradicted by religious groups which see spiritual forces as the most powerful agents in social relations. The cases discussed deal with attempted state control of anti-witchcraft activities, the efficiency of protective magic during political upheavals, and Pentecostal notions of demonic influences in secular politics. The Conclusions section brings the themes of the book together by discussing the large-scale effects of the secular project in contemporary Ghanaian society. Research is based on anthropological fieldwork conducted in Ghana in 2000, 2001, and 2005, with data drawn from several archival sources located in Ghana and the United Kingdom, and the anthropological and historical literature on Ghana and the Asante.

In My Time of Dying John Parker, 2025-03-25. Why do people die and where do they go when they are dead? How should the dead be buried and mourned in order to ensure that they continue to work for the benefit of the living? How have perceptions and experiences of death and the ends of life changed over the centuries? In *My Time of Dying*, Parker considers these questions from the perspective of African history. In what is the first history of death in Africa, John Parker examines mortuary culture and the ongoing relationship between the living and the dead over a four-hundred-year period. Focusing anecdotally on West Africa but with a comparative awareness of comparable practices throughout the continent, Parker highlights how Africans developed the world's most vibrant and recognizable cultures of death.

State and Society in Pre-colonial Asante T. C. McCaskie, 2003-10-30. Scholarship on the West African kingdom of Asante is at the leading edge of Africanist research. In this book, T. C. McCaskie gives a detailed and richly nuanced historical portrait of precolonial Asante. His delineation of state and society in the eighteenth and nineteenth centuries is centred on an extended analysis of the crucial ritual of the annual Kumase Odwira festival. It is at once a profound historical reconstruction of an African polity and a deeply informed meditation on key Asante concepts and ideas. Throughout the book, the Asante experience is consistently discussed in a relation to a broad range of historiography and critical theory.

Making Men in Ghana Stephan Miescher, 2005-11-24. By featuring the life histories of eight senior men, *Making Men in Ghana* explores the changing meaning of becoming a man in modern Africa. Stephan F. Miescher concentrates on the ideals and expectations that formed around men who were prominent in their communities when Ghana became an independent nation. Miescher shows how they negotiated complex social and economic transformations and how they dealt with their mounting obligations and responsibilities as leaders in their kinship groups, churches, and schools. Not only were notions about men and masculinity shaped by community standards but they were strongly influenced by imported standards that came from missionaries and other colonial officials. As he recounts the life histories of these men, Miescher reveals that the passage to manhood and a position of power, seniority, authority, and leadership was not always welcome or easy. As an

important foil for studies on women and femininity this groundbreaking book not only explores masculinity and ideals of male behavior but offers a fresh perspective on African men in a century of change A Theory of African Constitutionalism
Berihun Adugna Gebeye, 2021 Utilizing detailed case studies from Nigeria Ethiopia and South Africa this title traces African constitutionalism from precolonial times to the present The volume offers a new framework for understanding African constitutionalism and a range of practical proposals for its future development
