Food Safety and Technology Governance Kuei-Jung Ni, Ching-Fu Lin, 2022-08-31 Recent advances in agri food technology have brought increasing complexity and emerging challenges to food safety regulation and governance with many countries greatly divided in their regulatory approaches As more advanced CRISPR based gene editing technologies and novel foods such as cloned animal products non traditional plants nanofood and plant based meat are rapidly being developed debates arise as to whether the existing models of governance require revision to ensure consumer safety Of equal importance is the extensive use of pesticides additives and animal drugs which raise concerns over the methods and approaches of government approval and phasing out of potentially risk causing chemicals Heightened

public criticism of food safety and technology poses a significant challenge to governments around the world which struggle to strike a proper balance between technocracy and democracy oriented risk governance models Drawing on expertise from the United States European Union Japan China Korea Association of South East Asian Nations Malaysia and Taiwan this book explores existing and emerging issues of food law and policy in the context of technology governance to offer an overarching framework for the interaction between food regulation and technology It will be essential reading for academics students and practitioners with an interest in food law and policy agricultural law and policy and food safety and nutrition studies

Asian Medicine and Globalization Joseph S. Alter, 2013-03-26 Medical systems function in specific cultural contexts It is common to speak of the medicine of China Japan India and other nation states Yet almost all formalized medical systems claim universal applicability and thus are ready to cross the cultural boundaries that contain them There is a critical tension in theory and practice in the ways regional medical systems are conceptualized as nationalistic or inherently transnational This volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Offering a range of perspectives the contributors address questions such as How do states concern themselves with the modernization of traditional medicine How does the global hegemony of science enable the nationalist articulation of alternative medicine How do global discourses of science and new age spirituality facilitate the transnationalization of Asian medicine As more and more Asian medical practices cross boundaries into Western culture through the popularity of yoga and herbalism and as Western medicine finds its way east these systems of meaning become inextricably interrelated These essays consider the larger implications of transmissions between cultures

Asian Medicine and Globalization Joseph S. Alter, 2005-05-27 This volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Vital Healing

Marc S. Micozzi, Donald McCown, Mones Abu-Asab, 2013-02-15 Dr Marc S Micozzi unfolds the compelling idea that vital energy prana in the Indian practice of Ayurveda is the unifying concept that underpins all of the traditional medicines of Middle Asia He also draws parallels to mainstream Western medicine and demonstrates how these therapies fit within the context of their own cultures and ours China and the Globalization of Biomedicine

David Luesink, William H. Schneider, Daqing Zhang, 2019 Argues that developments in biomedicine in China should be at the center of our understanding of biomedicine not at the periphery

The Ashgate Research Companion to Anthropology Andrew J. Strathern, 2016-03-03 This companion provides an indispensable overview of contemporary and classical issues in social and cultural anthropology Although anthropology has expanded greatly over time in terms of the diversity of topics in which its practitioners engage many of the broad themes and topics at the heart of anthropological thought remain perennially vital such as understanding order and change diversity and continuity and conflict and co operation in the reproduction of social

life Bringing together leading scholars in the field the contributors to this volume provide us with thoughtful and fruitful ways of thinking about a number of contemporary and long standing arenas of work where both established and more recent researchers are engaged The companion begins by exploring classic topics such as Religion Rituals Language and Culture Violence and Gender This is followed by a focus on current developments within the discipline including Human Rights Globalization and Diasporas and Cosmopolitanism It provides an interesting and challenging look at the state of current thinking in anthropology serving as a rich resource for scholars and students alike

Disease, Religion and Healing in Asia Ivette Vargas-O'Bryan,Zhou Xun,2014-11-20 Recent academic and medical initiatives have highlighted the benefits of studying culturally embedded healing traditions that incorporate religious and philosophical viewpoints to better understand local and global healing phenomena Capitalising on this trend the present volume looks at the diverse models of healing that interplay with culture and religion in Asia Cutting across several Asian regions from Hong Kong to mainland China Tibet India and Japan the book addresses healing from a broader perspective and reflects a fresh new outlook on the complexities of Asian societies and their approaches to health In exploring the convergences and collisions a society must negotiate it shows the emerging urgency in promoting multidisciplinary and interdisciplinary research on disease religion and healing in Asia Drawing on original fieldwork contributors present their latest research on diverse local models of healing that occur when disease and religion meet in South and East Asian cultures Revealing the symbiotic relationship of disease religion and healing and their colliding values in Asia often undetected in healthcare research the book draws attention to religious political and social dynamics issues of identity and ethics practical and epistemological transformations and analogous cultural patterns It challenges the reader to rethink predominantly long held Western interpretations of disease management and religion Making a significant contribution to the field of transcultural medicine religious studies in Asia as well as to a better understanding of public health in Asia as a whole it will be of interest to students and scholars of Health Studies Asian Religions and Philosophy

The Politics of Sport in South Asia Subhas Ranjan Chakraborty,Shantanu Chakrabarti,Kingshuk Chatterjee,2013-09-13 Behind the spectacle of entertainment sport is a subject with political issues at every level These issues range from the social with divisions created along gender and class lines to the use of sport to pursue diplomatic and statecraft goals In addition some sports are positioned and promoted as national events both in public opinion and in the media This book seeks to explore some aspects of the notion of power in sport in south Asia and among south Asians abroad The first two chapters deal with the internal societal dimensions of the politics of sport the next three relate to the politics inside the sporting world in the subcontinent and its bridge with the broader arena of the society through the media while the last five relate to the use of sports in statecraft consensus building and international politics This book was based on two special issues of the International Journal of the History of Sport
