Cultural Traditions and Contemporary Challenges in Southeast Asia Warayuth Sriwarakuel, 2005 **Landscape Ecology in Asian Cultures** Sun-Kee Hong, Jianguo Wu, Jae-Eun Kim, Nobukazu Nakagoshi, 2010-12-25 Cultural landscapes are a product of the interactions between humans and natural settings They are landscapes and seascapes that are shaped by human history and land use Socioeconomic processes especially but also environmental changes and natural disturbances are some of the forces that make up landscape dynamics To understand and manage such complex landscapes interdisciplinary and transdisciplinary approaches are necessary emphasizing the integration of natural and social sciences and considering multiple landscape functions The spatial patterns of Asian landscapes are strongly related to human activities and their impacts Anthropogenic patterns and processes have created numerous traditional cultural landscapes throughout the region and understanding them requires indigenous knowledge Cultural landscape ecology from a uniquely Asian perspective is explored in this book as are the management of landscapes and land use policies Human dominated landscapes with long traditions such as those described herein provide useful information for all ecologists not only in Asia to better understand the human environmental relationship and landscape sustainability

Indonesia and Chinese cultures in Mainland China Hong Kong and Taiwan the contributors explore the different cultural rules for creating and sharing humour Humour can be a powerful lubricant when correctly interpreted mis interpreted it is likely to cause considerable setbacks Over time it has emerged and submerged in different periods and different forms in all these countries but today s conventions still reflect traditional attitudes to and assumptions about what is appropriate in creating and using humour Under close examination Milner Davis and her colleagues show how forms and conventions that differ from those in the west can also be seen to possess elements in common With examples including Mencian and other classical texts Balinese traditional verbal humour Korean and Taiwanese workplace humour Japanese laughter ceremonies performances and cartoons as well as contemporary Chinese language films and videos they engage with a wide range of forms and traditions This fascinating collection of studies will be of great interest to students and scholars of many Asian cultures and also to those with a broader interest in humour studies It highlights the increasing importance of understanding a wider range of cultural values in the present era of globalized communication and the importance of reliable studies of why and how cultures that are geographically related differ in their traditional uses of and assumptions about humour The Asian Future Pracha Hutunuwat, Ramu Manivannan, 2005 Radical Asian perspectives on globalization and Western development *Tradition and Modernity*, 2009 The Question for Twentieth Century China has been the integration of tradition and modernity In this collection of essays written over a period of some twenty years 1987 2006 Chen Lai reflects on the question in an informative and original way He reads behind the political slogans and engages with the thought both of Max Weber Talcott Parsons and Western sociology and representative Chinese thinkers notably Feng Youlan and Liang Shuming While the focus is on China the book also appeals to anyone interested in this fascinating question of how to modernise whilst retaining the positive values of tradition Chen Lai s unique and balanced grasp of society marks him out as the foremost thinker in China on this topic today **Asian American Studies** Jean Yu-wen Shen Wu, Min Song, 2000 This anthology is the perfect introduction to Asian American studies as it both defines the field across disciplines and illuminates the centrality of the experience of Americans of South Asian East Asian Southeast Asian and Filipino ancestry to the study of American culture history politics and society The reader is organized into two parts The Documented Past and Social Issues and Literature Within these broad divisions the subjects covered include Chinatown stories nativist reactions exclusionism citizenship immigration community growth Asia American ethnicities racial discourse and the Civil Rights movement transnationalism gender refugees anti Asian American violence legal battles class polarization and many more Among the contributors are such noted scholars as Gary Okihiro Michael Omi Yen Le Espiritu Lisa Lowe and Ronald Takaki writers such as Sui Sin Far Bienvenido Santos Sigrid Nunez and R Zamora Linmark as well as younger emerging scholars in the field *Culture and Society in the Asia-Pacific* Colin Mackerras, Richard Maidment, 2005-07-28 This important new text examines the crucial social and cultural factors associated with the rise of the Asia Pacific region at the end of the Twentieth Century It

W. Wolters, 1999 A new edition of this classic study of mandala Southeast Asia The revised book includes a substantial retrospective postscript examining contemporary scholarship that has contributed to the understanding of Southeast Asian history since 1982 Excess and Masculinity in Asian Cultural Productions Kwai-Cheung Lo, 2010-08-04 In Excess and Masculinity in Asian Cultural Productions Kwai Cheung Lo explores the excesses associated with the phenomenal economic growth in East Asia including surplus capital environmental waste and the unbalanced ratio of men to women in the region connecting the production of capitalist excess to the production of new forms of transnational Asian masculinity Lo draws on Lacanian psychoanalysis and Marxist ideas as well as gender theory in his examination of East Asian cultural products such as religious and parenting books transgender literary fantasies travel writing gangster movies female action heroes and online games Through this analysis Lo argues that the excess of Asia s masculine modernization throws into relief the internal inconsistencies of capitalism itself posing new challenges to the order of global capitalism and suggesting new possible configurations of global modernity *Asian Cultural Flows* Nobuko Kawashima, Hye-Kyung Lee, 2018-10-10 This book investigates economic political and cultural conditions that have led to transnational flows of culture in Asia Coverage also looks at the consequences of an increasingly interconnected Asian regional culture as well as policy makers and cultural industries response to it The book features essays written by

researchers from different countries in Asia and beyond with diverse disciplinary backgrounds The volume also contains engaging examples and cases with comparative perspectives The contributors provide readers with grounded analysis in the organizational and economic logics of Asian creative industries national cultural policies that promote or hinder cultural flows and the media convergence and online consumers surging demand for Asianized cultural products Such insights are of crucial importance for a better understanding of the dynamics of transnational cultural flows in contemporary Asia In addition the essays aim to de westernize the study of cultural and creative industries which draws predominantly on cases in the United States and Europe The contributors focus instead on regional dynamics of the development of these industries The popularity of J Pop and K Pop in East and Southeast Asia and beyond is now well known but less is known about how this happened This volume offers readers theoretical tools that will help them to make better sense of those exciting phenomena and other rising cultural flows within Asia and their relevance to the global cultural economy
