Assessing The Assignment Policy For Army Women:

Assessing the Assignment Policy for Army Women Margaret C. Harrell, Laura Werber, Peter Schirmer, Bryan W. Hallmark, Jennifer Erin Kavanagh, 2007-08-31 Since current policies for assigning military women were issued the U S Army has changed how it organizes and fights *Assessing the Assignment Policy for Army Women* considers whether the Army is adhering to the assignment policies as well as the appropriateness of the current U S Department of Defense and Army assignment policies given how units are operating in Iraq *Assessing the Assignment Policy for Army Women* Margaret C. Harrell, 2007 The current U S Department of Defense DoD policy for assigning military women was issued in 1994 and the U S Army's assignment policy dates to 1992 In the ensuing years the U S Army has undergone significant technological and organizational transformation which has changed how it organizes and fights There is concern that in the course of operations in Iraq the Army has not been adhering to its own assignment policy as there are several important and potentially problematic differences between the DoD and Army policies For example the DoD policy prohibits the assignment of women to units whose primary mission is direct combat whereas the Army policy prohibits the assignment of women to units with a routine mission of direct combat and their definitions of direct combat differ The research finds that the Army is adhering to the DoD assignment policy but may not be complying with the separate Army assignment policy for women *Assessing the Assignment Policy for Army Women* serves to inform DoD decisionmaking with regard to the clarity and appropriateness of the current DoD and Army assignment policies especially given how units are operating in Iraq

members of Congress about the role of women in military operations in Iraq Reflecting that Section 541 b of Public Law 109 163 requires the Secretary of Defense to submit a report on the current and future implementation of DoD policy for assigning military women This monograph is intended as input into DoD decision making and focuses on Army operations in Iraq In particular it focuses on the Army s brigade combat teams BCTs that deployed to Iraq in a modular configuration paying specific attention to the new organic relationships of these BCTs with brigade support battalions BSBs This research was sponsored by the Under Secretary of Defense for Personnel and Readiness and was conducted within the Forces and Resources Policy Center of the RAND National Defense Research Institute

Crow,2017-07 This inspiring anthology is the first to convey the rich experiences and contributions of women in the American military in their own words from the Revolutionary War to the present wars in the Middle East Serving with the Union Army during the Civil War as a nurse scout spy and soldier Harriet Tubman tells what it was like to be the first American woman to lead a raid against an enemy freeing some 750 slaves Busting gender stereotypes Josette Dermody Wingo enlisted as a gunner s mate in the navy in World War II to teach sailors to fire Oerlikon anti aircraft guns Marine Barbara Dulinsky recalls

serving under fire in Saigon during the Tet Offensive of 1968 and Brooke King describes the aftermath of her experiences outside the wire with the army in Operation Iraqi Freedom In excerpts from their diaries letters oral histories and pension depositions as well as from published and unpublished memoirs generations of women reveal why and how they chose to serve their country often breaking with social norms even at great personal peril **Professional Journal of the United States Army** ,2013-03 **From Yeomanettes to Fighter Jets** Randy Carol Goguen,2024-03-06 From Yeomanettes to Fighter Jets addresses a major element of twenty first century sea power the integration of women into all military units of the U S Navy Randy Goguen delineates the cultural economic and political conditions as well as the technological changes that shaped this movement over the course of a century Starting with the establishment of the Yeomen F in World War I and continuing through today to address the current arguments over the registration of women for Selective Service and the reform of the military justice system Goguen describes how changes in civilian society affected the U S Navy and the role of Navy women She highlights the contributions of key women and men in the military and civilian spheres who were willing to challenge convention and prejudice to advance the integration of women and make the U S Navy a stronger institution Today women in the U S Navy have proven themselves essential to the mission success of the service They are forward deployed around the world sharing the same risks as their male counterparts Some have commanded logistics and combatant ships including aircraft carriers They fly and maintain combat and patrol aircraft and serve as crew members on ships and submarines Some hold major commands ashore and have risen to the highest echelons of navy leadership Integrating women into the U S Navy has been a long and often contentious process as women strived to overcome resistance imposed by prevailing cultural and institutional norms and patriarchal prejudices Goguen a retired naval reserve officer who holds a PhD in military history from Temple University has written a comprehensive and up to date history of women s integration into the Navy She argues that throughout the process the decisive force driving progress was exigency That exigency took various forms two world wars communist expansionism in the Cold War the ending of the draft and the establishment of the All Volunteer Force as well as the political pressures posed by social change especially the mid twentieth century feminist and contemporary Me Too movements Despite a deeply ingrained institutional resistance cultivated within an insular often misogynist sea going subculture today s U S Navy could not meet its mission requirements without women Goguen asserts Exigency is the mother of integration **Dept. of Defense Authorization for Appropriations for FY 2013,...S. Hrg. 112-590, Pt. 1, 112-2 Hearings** ,2013 **Gender Integration in NATO Military Forces** Lana Obradovic,2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the

ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award Gender issues information to assess servicemembers' perceptions of gender inequities is incomplete : report to congressional committees , **Women in Combat** Rosemarie Skaine,2011-01-19 This handbook provides a straightforward account of how women have served in combat roles and explains the ongoing controversy surrounding efforts to legalize combat assignments for female service members Women have been excluded from combat roles for most of American history During conflicts such as the American Civil War a few women enlisted as men in some cases their identities as women were not discovered until after their deaths Today the nontraditional battlefields of Iraq and Afghanistan have no clearly defined front lines and many female soldiers have found themselves face to face with the enemy Yet despite the realities of modern warfare the subject of women serving in combat roles remains highly controversial Women in Combat A Reference Handbook examines the historical background current dilemmas and global context of this contentious issue The author explores both sides of the argument presenting information from leading sources and gleaned from personal interviews Statistical data primary source documents a directory of organizations and print and electronic resources offer additional insight *Hearing on National Defense Authorization Act for Fiscal Year 2013 and Oversight of Previously Authorized Programs Before the Committee on Armed Services, House of Representatives, One Hundred Twelfth Congress, Second Session* United States.
