Popovski, 2018-12-19 With existing literature focusing largely on Western perspectives of peace and their applications a global understanding of peace is much needed Spurred by more recent debates and discourses that criticize the dominant realist and liberal approaches for crises in contemporary state and peace building the contributors to this handbook emphasize not only the need to solve this eternal conundrum of humanity but also demand with the rise of increasingly more violent conflicts in international relations the development of a global interpretive framework for peace and security To this end the present handbook examines conceptual institutional and normative interpretive approaches for making building and promoting peace in the context of roles played by state and non state actors within local national regional and global units of analysis

Youth Peacebuilding Lesley J. Pruitt, 2013-04-01 This book highlights the important role youth can play in processes of peacebuilding by examining music as a tool for engaging youth in such activities As Lesley J Pruitt discusses throughout the book music as expression as creation as inspiration can provide many unique insights into transforming conflicts altering our understandings and achieving change She offers detailed empirical work on two youth peacebuilding programs in Australia and Northern Ireland countries that appear overtly peaceful but where youth still face structural violence and related direct violence at the community level She also pays careful attention to the ways in which gender norms might influence young people s participation in music based peacebuilding activities Ultimately the book defines a new research area linking youth cultures and music with peacebuilding practice and policy *The Psychology of Peace*

Communication and Peace Julia Hoffmann, Virgil Hawkins, 2015-02-11 This book analyses the use of communication in resolving conflicts with a focus on de escalation and processes of peacebuilding and peace formation From the employment of hate radio in the Rwanda genocide to the current conflict between Russia and the Ukraine following events in the Crimea communication and the media are widely recognized as powerful tools in conflicts and war Although there has been significant academic attention on the relationship between the media conflict and war academic efforts to understand this relationship have tended to focus primarily on the links between communication and conflict rather than on communication and peace In order to make sense of peace it is essential to look at communication in its many facets mediated or not This is true within many of the diverse strands that make up the field of communication and peace but it is also true in the sense that a holistic and interdisciplinary approach is missing from the literature This book addresses this widely acknowledged lacuna by providing an interdisciplinary perspective on the field bringing together relevant but so far largely isolated streams of research In doing so it aims to provide a platform for further reflection of the meaning of and requirements for peace in our contemporary world with a focus on de escalation conflict transformation reconciliation and processes of peacebuilding as opposed to conflict escalation or crisis intervention This volume will be of much interest to students of peace and conflict studies peacebuilding media and communication studies security studies and IR in general
