**Six Decades of Indonesia-China Relations** Lidya Christin Sinaga, 2018-03-20 This book analyses the relations between Indonesia and China in the regional dynamics of Southeast Asia The rising China has influenced global and regional constellations and also has direct impacts for Indonesia While this fact should be viewed as an opportunity that needs to be fully utilised for the benefit of national development of Indonesia we should also prepare for the threats embedded in this development especially from the service and labour sectors As such this book suggests that equal positions in relations between Indonesia and China are absolutely necessary since both countries need each other in their efforts to maintain the continuity of their development It also argues that to further strengthen its position in relation to China in the future Indonesia's diplomacy requires an integrated grand design that supports the creation of economic and political power in the face of the emergence of China's economic and military power

*Understanding ASEAN's Role in Asia-Pacific Order* Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN's prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This

text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN's contribution to order management is part of a negotiated division of labour with the great powers. The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day.

*The International Politics of the Asia Pacific* Michael B. Yahuda, 2011

*Southeast Asia between China and Japan* Lam Peng Er, Victor Teo, 2011-11-15

Triangular relations which frame China and Japan as two sides of an isosceles triangle usually focus on the United States as the significant third side. This edited book examines another relatively underexplored set of triangular relations: those between China, Japan, and Southeast Asia. The region comprised of eleven small and medium size states is often considered inconsequential in the tempestuous world of international politics where political clout, economic prowess, military strength, and soft power matter most. Often seen as easily dominated by extra-regional great powers, this volume reconsiders the region's relationship with China and Japan, their two Asian neighbours to the northeast which also happen to be the world's second and third largest economies. While China and Japan do compete for turf in Southeast Asia, states in the region do not perceive themselves as strategic pawns of these two great Asian powers but instead as proactively engaging China and Japan in the region. The country-specific case studies of this book collectively support the thesis that the Southeast Asian states actively seek to manoeuvre between China and Japan for their own advantage and at the same time grapple with developments in Northeast Asia through regional integration efforts. Through the establishment of benchmark norms and values, Southeast Asia attempts to socialise China and Japan and other external powers to the ASEAN way. Indeed, Southeast Asia as a region is now the driver of East Asian multilateralism and regionalism, and the East Asian reality is that Southeast Asia is a major political, economic, and cultural player in its own right vis-à-vis the great powers.

*New Dynamics Between China and Japan in Asia* Guy Faure, 2010

This book is a study of ties between China and Japan and their Asian counterparts. It does not therefore directly treat bilateral relations between these powers as these already constitute the subject of many other studies. A lengthy perspective has been taken into account in order to recall past legacies, some of which are still painfully contentious, and to record evolutions in attitudes and strategies vis-à-vis Asian countries.

*The Domestic Sources of China's Foreign Policy* Lai Hongyi, 2010-04-28

Offers a systemic analysis of the foreign policy of China. This title demonstrates how domestic factors have profoundly shaped China's foreign policy from the late Mao's era to the reform era, presenting its argument through an analysis of major cases of Chinese foreign policy.

*Central Asia and Southeast Asia* Paradorn Rangsimaporn, 2022-08-23

This book explores Central Asia's relationship with Southeast Asia and ASEAN. It examines the Southeast Asian vector in the Central Asian countries' mostly multi-vector foreign policies and the key dynamics that are transforming interregional relations into one of greater engagement. It argues that Central Asian states are interested in developing stronger ties with Southeast Asian countries amongst others as part of their hedging strategy in order to diversify their foreign economic relations and to lessen their overdependence on neighbouring great powers. It also

looks at Central Asian views of ASEAN as a successful model of regionalism and as a hedging platform for Central Asian states to collectively manage relations with external powers      Re-Reading Education Policies ,2009-01-01 This book collects studies with a critical education policy orientation and presents itself as a handbook of matters of public concern The term critical does not refer to the adoption of a particular theoretical framework or methodology but rather it refers to a very specific ethos or way of relating to the present and the belief that the future should not be the repetition of the past This implies a concern about what is happening in our societies today and what could or should be happening in the future As a consequence the contributors to the book rely on a general notion of public policy that takes on board processes practices and discourses at a variety of levels in diverse governmental and non governmental contexts and considers the relation of policy to power to politics and to social regulation Following the detailed introduction that aims at picturing the landscape of studies with a critical education policy orientation the book presents re readings of six policy challenges globalization knowledge society lifelong learning equality democracy social inclusion accountability control efficiency and teacher professionalism It seeks to contextualise these in relation to issues of current global concern at the start of the 21st century Despite the diversity of approaches this collection of critical education policy studies shares a concern with what could be called the public and its education and represents a snapshot of education policy research at a particular time      **ASEAN Matters!** Yoong Yoong Lee,2011 The initiative to establish the Association of Southeast Asian Nations ASEAN Community was adopted by the ten leaders at the 2003 Bali Summit in Indonesia Since then the concept of a community building process in ASEAN has become an issue that attracts a great deal of attention from scholars and experts around the world ASEAN Matters Reflecting on the Association of Southeast Asian Nations carries essays with different perspectives on critical issues relating to the three pillars in building the ASEAN Community namely the ASEAN Political and Security Community the ASEAN Economic Community and the ASEAN Socio Cultural Community In a nutshell this book provides broad and invaluable insights into the role ASEAN plays in enhancing peace prosperity and stability in the Southeast Asian region Written in a highly accessible style the contents include both a thorough review of current issues and a succinct overview of the past and future direction of ASEAN The book reiterates the continued and strengthening relevance of ASEAN 43 years after its founding Unlike most other books on ASEAN a majority of the essays are written by former professional staff at the ASEAN Secretariat as well as from current office holders This gives the volume a high degree of authenticity and unique insights More interestingly it also includes viewpoints from experts scholars diplomats and officials who either have extensive research knowledge or had been involved in ASEAN s external and economic relations with the dialogue partners such as China India Japan the Republic of Korea Australia New Zealand and the European Union EU among others

trade ties and interactions with Pakistan China the United States Japan the Middle East and ASEAN Furthermore the contributors provide the reader with an overview and analysis of the quality and challenges of India s regional and global trade and investment policies While in the past India has been a reluctant and not particularly prominent foreign and security policy actor in East and Southeast Asia as well as globally China s resurgence and its assertive and increasingly aggressive regional security policies have led India s policymakers to reconsider the country s decades old non alignment policies and opt for expanding security and defence ties with the United States Japan and others The Indian Chinese border clashes in 2020 and China s unlawful occupation of disputed territories along the Indian Chinese border in the Himalayas have convinced Delhi s policymakers and the country s security and defence elites that India is well advised to join and contribute to US led China containment policies The expansion of India s security and defence ties with Japan over recent years in particular will continue to be instrumental to keeping Beijing s territorial expansionism in Southeast and South Asia in check This volume analyses India s involvement and engagement in regional and global trade and investment structures and flows in great detail Written by a team of prolific European and Indian scholars the book will be of interest to researchers in the fields of international relations and security studies as well as policymakers at governmental or international organizations
