Knowledge Governance in an Industrial Cluster Farah Purwaningrum, 2014 This dissertation explains why there persists a divergence of academia industry government inter linkage in the Indonesian science system This divergence constrains the capacity of the science system in localizing knowledge from the supply chain linkage and demonstrates the centralized character of the Indonesian science system Additionally the book shows that the Jababeka Industrial Cluster is shaped by the supply chain linkage and thus lacks the capacity of a knowledge cluster Therefore horizontal collaboration between academia industry is restricted and limited
