*Community Health Practitioners and Child Sexual Abuse in the Family, 1970s-2010s* Ruth Beecher,2025-05-12 This open access book is an innovative history of community health practitioners responses to the seemingly intractable problem of men and on rare occasions women sexually abusing children within the private family home It is situated within a social history of the development of British community based health professions in the last decades of the twentieth century Drawing on archival research and newly gathered in depth oral history interviews the monograph argues that expectations placed upon community based doctors nurses and mental health staff since the 1980s in relation to predicting and preventing the sexual abuse of children by men they know are incongruous Beneath a surface acquiescence to the need to protect children from such abuse or to intervene early lie cultural social and structural barriers that prevent its fulfilment The book

is a first in specifically interrogating the recent history of the role of community health practitioners within the modern child protection workforce and contributes to growing scholarship on the history of emotions in the medical professions The Politics of Child Abuse in America Lela B. Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 Child abuse policy in the United States contains dangerous contradictions which have only intensified as the public slowly accepted it as a middle class problem One contradiction is the rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys which is consuming enormous resources while thousands of poor children are seriously injured or killed many while being protected by public agencies This rediscovery has also led to the frenzied pursuit of offenders resulting in the sacrifice of some innocent people Moreover the media's focus on the sensational details of high visibility sexual abuse cases has helped to trivialize if not commercialize the child abuse problem As such child abuse has gone from a social problem to a social spectacle By the 1980s the child welfare system had become a virtual nonsystem marked by a staggering turnover of staff unmanageable caseloads a severe shortage of funding and caseloads composed of highly dysfunctional families many with drug related problems To make room for these families public agencies rationed services by increasingly screening out child abuse reports which contained little likelihood of serious bodily harm In The Politics of Child Abuse in America the authors argue that child abuse must be viewed as a public safety problem This redefinition would make it congruent with other family based social trends including the crackdown on domestic violence Children must have the same legal protection currently extended to physically and sexually abused women This can be done by creating a Children's Authority which would have the overall charge for protecting children Specifically Children's Authorities would have the responsibility for providing the six main functions of child protection investigation enforcement placement services prevention and education family support and research and development Offering a unique perspective on the cold reality of this crisis The Politics of Child Abuse in America will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely issue

**Desire and Consent in Representations of Adolescent Sexuality with Adults** Maureen Turim, Diane Waldman, 2023-10-02 This book presents an innovative comparative view of how the issue of adolescent sexuality and consent is differently treated in various media Analyzing teenage sexual encounters with adults across a variety of media including films television novels and podcasts the volume takes a positive stance on the expression of teenage sexuality while remaining sensitive to the power of adults to abuse and manipulate The anthology treats these representations as negotiations between conflicting forces desire sexual self knowledge unequal power and the law the latter both actual legal statutes and internalized law in the philosophical and psychoanalytic sense Questions of unequal power inherent in such relations are theorized The authors examine variations of this configuration of sexual relations between teenagers and adults from different perspectives to consider how various forms of expression rework it formally These essays are attuned to both nuances of presentation and contexts of reception and they consider how aesthetics play a role

Contributing to the general debate about the ways that societies construct and regulate adolescent sexuality this book will be of great interest to scholars and students of media studies cultural studies film studies television studies sociology and gender studies

*Contemporary Perspectives on Freud's Seduction Theory and Psychotherapy* Warwick Middleton, Martin J. Dorahy, 2024-10-02 This edited collection brings together the perspectives of a broad spectrum of experts who reflect on Freud's Seduction Theory psychoanalysis and the reality of child abuse through the work of Jeffrey Masson Jeffrey Masson's *The Assault on Truth: Freud's Suppression of the Seduction Theory* 1984 is arguably the most controversial book on psychoanalysis in the last century It provoked a furore from mainstream psychoanalysis yet was well received by the emerging international trauma field and became a bestseller Four decades on a group of international scholars and professionals revisit Masson's original work and reflect on the lessons that can be taken from the saga Was the reaction of Masson's peers tied to the fact that he had accused Freud of being less than heroic or was it that he confronted psychoanalysis with a very uncomfortable truth This book examines how *The Assault on Truth* came to be written why it sparked such an extreme reaction and the issues Masson was grappling with Complete with an extended Foreword by John Briere a luminary of the modern trauma field this book will be essential reading for practitioners students and researchers involved in contemporary psychoanalysis psychotherapy psychology and especially trauma care women's mental health child safety and the study of memory

**Sex, Lies, and Autobiography** James L. O'Rourke, 2006 In *Sex Lies and Autobiography* James O'Rourke explores the relationships between literary form and ethics revealing how autobiographical texts are able to confront readers with the moral complexities of everyday life Tracing the ethical legacy of Jean Jacques Rousseau's *Confessions* in a series of English language texts the author shows how Rousseau's doubts about the possibility of ethical behavior in everyday life shadows the first person narratives of five canonic works William Wordsworth's *Prelude* Charlotte Brontë's *Jane Eyre* and *Villette* Mary Shelley's *Frankenstein* and Vladimir Nabokov's *Lolita* Offering a fascinating new way of thinking about ethics through literature *Sex Lies and Autobiography* challenges the most fundamental principles of the philosophical study of ethics revealing the innate difference between morality in life and morality in literature O'Rourke begins with Rousseau's inability to reconcile his intuitive belief that he is a good person with the effects that his actions have on others and he goes on to show how this same ethical impasse recurs in the five aforementioned texts The ethical crises these texts describe such as when *Jane Eyre*'s happiness can be purchased only at the cost of Bertha Mason's suicide or when Humbert Humbert's artistry demands the sacrifice of Dolores Haze are not instances of authorial ethical blindness O'Rourke says but rather are ethical challenges that force us as readers to consider our own lives In each of these works a narrator attempts to justify his or her behavior and fails in each case the rigorous narrative of self examination demands a similar effort from the reader whose own sense of moral rectitude is put into question Confronting the long held philosophical construction that links ethical principles and life choices thereby reassuring us of the ethical coherence of

everyday life the narrators of these literary autobiographies come to a very different conclusion by looking back on their lives they cannot understand how their most benevolent desires led to such damaging life stories By leaving meaning inexplicit O'Rourke argues these texts are able to recover traumatic material that is ordinarily repressed and then bring that repressed knowledge to bear on self justifying narratives For readers interested in autobiographical studies ethical criticism and trauma and literary studies Sex Lies and Autobiography provides a groundbreaking analysis of the role of ethics in literature

**Freud and the Politics of Psychoanalysis** , *Freud and the Politics of Psychoanalysis* is a sympathetic critique of Freud's work tracing its political content and context from his early writings on hysteria to his late essays on civilization and religion Brunner's central claim is that politics is a pervasive and essential component of all of Freud's discourse since Freud viewed both the psyche and society primarily as constellations of power and domination Brunner shows that when read politically Freud's discourse can be seen to unite mechanics and meaning into a plausible fruitful and internally consistent theory of the mind therapy family and society Part one deals with the medical and political background of Freud's work It explains how Freud postulated mental principles that were the same for all races and nations The second part is concerned with the logic and language of Freud's theory of the mind Brunner also details how Freud introduced dynamics of dominance and subjugation into the very core of the psyche Part three addresses dynamics of power in the clinical setting which Freud forged out of a curious blend of authoritarian and liberal elements Brunner focuses on how this setting creates an arena for verbal politics He also examines various social factors that influenced the therapeutic practice of psychoanalysis such as class gender and education Part four explores Freud's analysis of the family and large scale social institutions Though Brunner is critical of the authoritarian bias in Freud's social theory he suggests that it provides a useful vocabulary to unmask hidden psychological aspects of domination and subjection This is an essential book for those interested in the history of ideas and psychoanalysis Jos Brunner is Senior Lecturer at the Buchmann Faculty of Law and the Cohn Institute for the History and Philosophy of Science and Ideas both at Tel Aviv University Born in Zurich Switzerland he has been living in Israel for most of the last three decades He is author of numerous publications on the history and politics of psychoanalysis and contemporary political theory
