Assemblies Representation Languedoc Thirteenth Princeton:

Assemblies and Representation in Languedoc in the Thirteenth Century Thomas N. Bisson, 2015-12-08 The author demonstrates that medieval assemblies have a significant history well before the great age of parliaments and Estates He deals with assemblies council and consent and shows how the older procedures were transformed by the increasingly bureaucratic Capetian governments after the royal conquest of Languedoc in the 13th century Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The World of the Troubadours Linda M. Louis IX and the Challenge of the Crusade William Chester Jordan, 2015-03-08 Louis IX has long been known both as a saintly crusader and as the founder of effective royal administration in France But in spite of a vast amount of research the details of what happened under his rule and why it happened have been little understood Synthesizing this research from a thematic perspective William Chester Jordan integrates the various facets of the king's reign from 1226 to 1270 to show how the monarch's reforms were inextricably connected with his crusades Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Curia and Cortes in León and Castile 1072-1295* Evelyn S. Procter, 1980-07-31 Analyses the composition

and function of the curia regis assemblies in León and Castile in and around the twelfth century **Ideology and Royal Power in Medieval France** William Chester Jordan, 2024-10-28 Ideology and Royal Power is a collection of essays describing and assessing the ways in which royal publicists in medieval France conceived the authority of the crown especially with regard to protecting and defending its Christian subjects from their alleged enemies at home and abroad corrupt officials Jews particularly moneylenders heretics and Muslims A number of the essays also describe the execution of royal policies with respect to these groups and evaluate their impact both in terms of the groups affected and their influence on further developments in royal ideology A key figure is that of Louis IX Saint Louis r 1226 1270 *The Letters of Edward I* Kathleen B. Neal, 2021 Detailed examination of the letters of Edward I reveals them to be powerful and sophisticated political tools Highly commended for the Royal Studies Journal Book Prize 2022 As formulaic in appearance as they are abundant in the

archives it is easy to underestimate the power of the letters generated by medieval governments but these acts of communication were more than mere containers of information Operating at the intersection of the spoken and the written the performed and the observed they produced a discourse that maximized royal authority and promoted solidarity between sender and recipient This book situates letters within medieval theories of composition and habits of reception to argue that even mundane letters of governance were rhetorical texts It focuses on the example of Edward I of England whose rhetorical prowess was noted often critically by contemporaries It shows how the king's correspondence varied in tone vocabulary and structure across his reign and between recipients revealing an unexpected dynamism of political discourse Moving between historical context and close readings of individual letters this volume identifies letter writing as an art through which the king and his government attempted to negotiate and mould relationships with political communities and diplomatic interlocutors alike
