Sandbrook,2003-01-09 Discusses the many facets of globalization in easy to understand language *The New Development Economics* Jomo K.S.,Ben Fine,2006 This volume provides a critique of the post Washington Consensus in neoliberal economics Britain's International Development Policies B. Ireton,2013-09-12 History of Britain s official international development efforts beginning with its colonial era and then following the establishment of a new Ministry created by Prime Minister the Rt Honourable Harold Wilson The Trouble with Aid Jonathan Glennie,2010-01-01 Africa is poor If we send it money it will be less poor It seems perfectly logical doesn t it Millions of people in the rich world moved by images on television and appalled by the miserable conditions endured by so many in other countries have joined campaigns to persuade their governments to double aid to Africa and help put an end to such shameful inequality It seems simple But it isn t In this book Jonathan Glennie argues that along with its many benefits government aid to Africa has often meant more poverty more hungry people worse basic services and damage to already precarious democratic institutions Moreover calls for more aid are drowning out pressure for action that would really make a difference for Africa s poor Rather than doubling aid to Africa it is time to reduce aid dependency Through an honest assessment of both the positive and negative consequences of aid this book will show you why **Policy Matters** Jose Antonio Ocampo,Jomo Kwame Sundaram,Sarbuland Khan,2007-03 In 2000 UN member states pledged to halve world poverty by 2015 among other Millennium Development Goals MDG s But progress has been elusive since The chapters in this volume address disparate problems in achieving the UN Development Agenda from the complex effects of trade and financial liberalisation to the realities of development aid itself a central pillar of the MDGs The unifying theme is one of economic and social integration and an emphasis on long term strategic investments in education health and infrastructure *Development Cooperation - Evaluation and New Approaches* Heinz Ahrens,2005-07-29 This volume represents some of the Proceedings of the Annual Meeting of the Research Committee on Development Economics Ausschuss f r Entwicklungsl nder of the German Economic Association Verein f r Socialpolitik held in Cologne Germany in July 2004 The meeting focused on the effectiveness of and new approaches in development cooperation Both issues have become increasingly important in recent years in view of the declining volume of budget funds allocated to development cooperation The papers discussing the effectiveness of foreign aid shed new light on the issue at a crucial moment where economists have begun to question the recent consensus that the productivity of aid mainly depends on the recipient country s policy environment As far as the contributions dealing with new approaches in development cooperation are concerned these are centred on a closer integration of the private sector by joint action with so called lead firms in production networks on the one hand and the mobilization of additional financial resources from international capital markets for bilateral development cooperation on the other The authors also make suggestions concerning critical aspects relevant for implementation The last part of this volume is dedicated to an assessment of low income countries pension schemes based on the human capital approach *Aid* John Degnbol-Martinussen,Poul

Engberg-Pedersen,2003 This is the most comprehensive and up to date analysis of the global aid scene *Living (In)Dependence* Bill F. Ndi,Benjamin Hart Fishkin,Adaku T. Ankumah,2024-11-29 *Living In Dependence Critical Perspectives on Global Interdependence* embraces a multidisciplinary approach to the interconnectedness of independence and dependence in every ramification of the words These scholars and academics from different disciplinary area examine independence which rhetoric is aimed at legitimizing nationalist and isolationist positions and with exclusionists clamoring for walls separating people who supposedly live in a global village *Living In Dependence Critical Perspectives on Global Interdependence* is a timely reminder especially when the world is at cross purposes with generation old alliances falling apart like the Berlin Wall that less than 30 years ago fell to mark an end to sadness and separation that same engendered from 1949 1989 In short this study explores the binary of life experience of independence and that of dependence as constituent flipsides of a coin whose meaning can only be grasped by taking a closer look at each facet Foreign Aid for Development George Mavrotas,2010-02-25 Foreign aid is one of the few topics in the development discourse with such an uninterrupted yet volatile history in terms of interest and attention from academics policymakers and practitioners alike Does aid work in promoting growth and reducing poverty in the developing world Will a new big push approach accelerate progress towards the Millennium Development Goals or will another opportunity be missed Can the lessons of almost half a century of aid giving be learnt These are truly important questions in view of the emerging new landscape in foreign aid and recent developments related to the global financial crisis which are expected to have far reaching implications for both donors and recipients engaged in this area Against this shifting aid landscape there is a pressing need to evaluate progress to date and shed new light on emerging issues and agendas This volume brings together leading aid experts to review the progress achieved so far identify the challenges ahead and discuss the emerging policy agenda in foreign aid A central conclusion of this important and timely volume is that since development aid remains crucial for many developing countries a huge effort is needed from both donors and aid recipients to overcome the inefficiencies and make aid work better for poor people After all as global citizens we have a moral obligation to do the best we can to lift people out of poverty in the developing world The findings of this book will be of considerable interest to professionals and policymakers engaged in policy reforms in foreign aid and provide an essential one stop reference for students of development international finance and economics The Challenge of Economic Development Norman L. Hicks,2011 This book provides a general overview of the challenges of economic development for the five billion people living in developing countries While they constitute over 80 percent of the world s population they account for only 40% of the world s output and are home to 2.6 billion people living on less than 2.00 per day Thinking on economic development has shifted over time Early theories that stressed capital formation and a heavy reliance on the public sector proved inadequate Gradually economists began to see that development was a complex multifaceted problem that combined economic issues with problems of poverty and income distribution

institutions building and governance While there have been many failures there have also been many successes Countries such as China Chile Ghana and Korea demonstrate that good policies and strong institutions can result in remarkable progress However many poor countries particularly those in Africa continue to lag behind Closing this gap remains a major challenge for the world particularly as the growing population and output of developing countries accelerate tensions in such areas as trade immigration and financial flows

Reinventing Foreign Aid William R. Easterly, 2008-05-09 Top experts in the field discuss how to improve the effectiveness of foreign aid proposing practical solutions to specific problems rather than a utopian master plan The urgency of reducing poverty in the developing world has been the subject of a public campaign by such unlikely policy experts as George Clooney Alicia Keyes Elton John Angelina Jolie and Bono And yet accompanying the call for more foreign aid is an almost universal discontent with the effectiveness of the existing aid system In *Reinventing Foreign Aid* development expert William Easterly has gathered top scholars in the field to discuss how to improve foreign aid These authors Easterly points out are not claiming that their ideas will to invoke a current slogan Make Poverty History Rather they take on specific problems and propose some hard headed solutions Easterly himself in an expansive and impassioned introductory chapter makes a case for the searchers who explore solutions by trial and error and learn from feedback over the planners who throw an endless supply of resources at a big goal as the most likely to reduce poverty Other writers look at scientific evaluation of aid projects including randomized trials and describe projects found to be cost effective including vaccine delivery and HIV education consider how to deal with the government of the recipient state work through it or bypass a possibly dysfunctional government examine the roles of the International Monetary Fund a de facto aid provider and the World Bank and analyze some new and innovative proposals for distributing aid Contributors Abhijit Banerjee Nancy Birdsall Craig Burnside Esther Duflo Domenico Fanizza William Easterly Ruimin He Kurt Hoffman Stephen Knack Michael Kremer Mari Kuraishi Ruth Levine Bertin Martens John McMillan Edward Miguel Jonathan Morduch Todd Moss Gunilla Pettersson Lant Pritchett Steven Radelet Aminur Rahman Ritva Reinikka Jakob Svensson Nicolas van de Walle James Vreeland Dennis Whittle Michael Woolcock
