The Quest for the Christ Child in the Later Middle Ages Mary Dzon,2017-01-25 Beginning in the twelfth century clergy and laity alike started wondering with intensity about the historical and developmental details of Jesus early life Was the Christ Child like other children whose characteristics and capabilities depended on their age Was he sweet and tender or

formidable and powerful Not finding sufficient information in the Gospels which are almost completely silent about Jesus childhood medieval Christians turned to centuries old apocryphal texts for answers In *The Quest for the Christ Child in the Later Middle Ages* Mary Dzon demonstrates how these apocryphal legends fostered a vibrant and creative medieval piety Popular tales about the Christ Child entertained the laity and at the same time were reviled by some members of the intellectual elite of the church In either case such legends so persistent left their mark on theological devotional and literary texts The Cistercian abbot Aelred of Rievaulx urged his monastic readers to imitate the Christ Child s development through spiritual growth Francis of Assisi encouraged his followers to emulate the Christ Child s poverty and rusticity Thomas Aquinas for his part believed that apocryphal stories about the Christ Child would encourage youths to be presumptuous while Birgitta of Sweden provided pious alternatives in her many Marian revelations Through close readings of such writings Dzon explores the continued transmission and appeal of apocryphal legends throughout the Middle Ages and demonstrates the significant impact that the Christ Child had in shaping the medieval religious imagination

Personification Walter Melion,Bart Ramakers,2016-03-11

Personification or prosopopeia the rhetorical figure by which something not human is given a human identity or face is readily discernible in early modern texts and images but the figure s cognitive form and function its rhetorical and pictorial effects have rarely elicited sustained scholarly attention The aim of this volume is to formulate an alternative account of personification to demonstrate the ingenuity with which this multifaceted device was utilized by late medieval and early modern authors and artists in Italy France England Scotland and the Low Countries Personification is susceptible to an approach that balances semiotic analysis focusing on meaning effects and phenomenological analysis focusing on presence effects produced through bodily performance This dual approach foregrounds the full scope of prosopopoeic discourse not just the what but also the how not only the signified but also the signifier
