respond to sexual modernities and to what extent the keywords of queer social movements travel across borders The handbook draws from fields as diverse as translation studies critical multilingualism studies comparative literature European studies Slavic studies Middle Eastern studies Latin American studies and East Asian studies This pioneering handbook maps out an emerging brand of women's gender and sexuality studies that approaches sexualities as translational formations Divided into two parts the handbook covers Theoretical chapters on the interdisciplinary dialogue between translation studies and queer studies Empirical studies of both canonic and minor scientific religious literary philosophical and political texts about sex and sexuality in translation across a variety of world languages With 20 chapters written by leading academics from around the world The Routledge Handbook of Translation and Sexuality will serve as an important reference for students and scholars in the fields of translation studies applied linguistics modern languages and women's gender and sexuality studies

Trans-generational Trauma and the Other Sue Grand, Jill Salberg, 2016-12-19 Often our trans generational legacies are stories of us and them that never reach their terminus We carry fixed narratives and the ghosts of our perpetrators and of our victims We long to be subjects in our own history but keep reconstituting the Other as an object in their own history Trans generational Trauma and the Other argues that healing requires us to engage with the Other who carries a corresponding pre history Without this dialogue alienated ghosts can become persecutory objects in psyche politics and culture This volume examines the violent loyalties of the past the barriers to dialogue with our Other and complicates the inter subjectivity of Big History Identifying our inherited narratives and relinquishing splitting these authors ask how we can re cast our Other and move beyond dysfunctional repetitions in our individual lives and in society Featuring rich clinical material Trans generational Trauma and the Other provides an invaluable guide to expanding the application of trans generational transmission in psychoanalysis It will appeal to psychoanalysts psychoanalytic psychotherapists and trauma experts

What Is Sexual Difference? Mary C. Rawlinson, James Sares, 2023-06-06 Luce Irigaray has written that sexual difference is one of the major philosophical issues of our age Spanning metaphysics phenomenology and psychoanalysis her work examines how sexual difference structures being and subjectivity organizes our experience of the world and affects the images and discourses involved in knowledge production and practical action No other philosopher has paid such careful attention to the consequences of the elision of sexual difference in philosophical thought However at a time when notions of sexual and gender difference are hotly contested Irigaray s thought has often been dismissed as essentialist or reductively binary This book brings together leading scholars to consider the philosophical implications of Irigaray s writing on sexual difference particularly for issues of

gender and race Their essays directly confront the charge of essentialism exploring how Irigaray's thought opens new possibilities for understanding the complexity of gender identities including nonbinary and trans experiences as well as alternative configurations of masculinity and femininity Though Irigaray is sometimes accused of a failure to appreciate racial difference contributors show the productive role of her work in thinking race This book also illuminates how Irigaray's work provides creative practices that help realign human experience and our relations with nature and each other
