Comics and Stuff Henry Jenkins, 2020-04-14 Considers how comics display our everyday stuff junk drawers bookshelves attics as a way into understanding how we represent ourselves now For most of their history comics were widely understood as disposable you read them and discarded them and the pulp paper they were printed on decomposed over time Today comic books have been rebranded as graphic novels clothbound high gloss volumes that can be purchased in bookstores checked out of libraries and displayed proudly on bookshelves They are reviewed by serious critics and studied in university classrooms A medium once considered trash has been transformed into a respectable if not elite genre While the American comics of the past were about hyperbolic battles between good and evil most of today s graphic novels focus on everyday personal experiences Contemporary culture is awash with stuff They give vivid expression to a culture preoccupied with the processes of circulation and appraisal accumulation and possession By design comics encourage the reader to scan the landscape to pay attention to the physical objects that fill our lives and constitute our familiar surroundings Because comics take place in a completely fabricated world everything is there intentionally Comics are stuff comics tell stories about stuff and they display stuff When we use the phrase and stuff in everyday speech we often mean something vague something like etcetera In this book stuff refers not only to physical objects but also to the emotions sentimental attachments and nostalgic longings that we express or hold at bay through our relationships with stuff In *Comics and Stuff* his first solo authored book in over a decade pioneering media scholar Henry Jenkins moves through anthropology material culture literary criticism and art history to resituate comics in the cultural landscape Through over one hundred full color illustrations using close readings of contemporary graphic novels Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities sustain memory and make meaning *Comics and Stuff* presents an innovative new way of thinking about comics and graphic novels that will

change how we think about our stuff and ourselves **Observations on the Castrati in Britain** Paul F. Rice, 2022-12-08

This book highlights the experiences of castrato singers in Britain during the long eighteenth century. These singers stood apart from traditional cultural and sexual norms of the period by nature of their altered bodies. The work investigates the fears surrounding the possibility of Catholic influence in the nation and the ability of sensual Italian operatic music to feminize the male population and weaken the country's leaders. The castrato as a possible romantic rival to normal men is also discussed while the contributions of the castrati to cultural leadership in the areas of teaching, concert direction, and social influence are examined. This book will appeal to music historians and those interested in cultural and gender studies.

The Children of 1965 Min Hyoung Song, 2013-04-15 Since the 1990s a new cohort of Asian American writers has garnered critical and popular attention. Many of its members are the children of Asians who came to the United States after the Immigration and Nationality Act of 1965 lifted long-standing restrictions on immigration. This new generation encompasses writers as diverse as the graphic novelists Adrian Tomine and Gene Luen Yang, the short story writer Nam Le, and the poet Cathy Park Hong. Having scrutinized more than one hundred works by emerging Asian American authors and having interviewed several of these writers, Min Hyoung Song argues that collectively these works push against existing ways of thinking about race even as they demonstrate how race can facilitate creativity. Some of the writers eschew their identification as ethnic writers while others embrace it as a means of tackling the uncertainty that many people feel about the near future. In the literature that they create, a number of the writers that Song discusses take on pressing contemporary matters such as demographic change, environmental catastrophe, and the widespread sense that the United States is in national decline.

Fully integrated with the main guide, the anthology section includes work by creators including Lynda Barry, Alison Bechdel, Jaime Hernandez, Marjane Satrapi, Adrian Tomine, and many others.
