Week of: _____

If I use a peak flow meter:

My personal best peak expiratory flow (PEF) is _____

My PEF for green zone is _____ liters per second (80% to 100% of my personal best*).

My PEF for yellow zone is _____ liters per second (50% to less than 80% of my personal best*).

My PEF for red zone is less than _____ liters per second (less than 50% of my personal best*).

* To figure out 80% of personal best peak flow, multiply your personal best by 0.80. To figure out 50% of personal best peak flow, multiply your personal best by 0.50.

If your peak flow is lower than normal, check your asthma action plan or call your doctor.

My current controller medicines are _____

Date	AM/PM peak expiratory flow (if I use a peak flow meter)			Trigger	Symptoms	Quick-relief medicine and response	Red zone visit to doctor or hospital?
	Green	Yellow	Red

Clinical Asthma Jonathan A. Bernstein, Mark L. Levy, 2025-09-03

Enormous progress in asthma research has been made in the past 50 years including a greater understanding of its complex pathogenesis and new and more effective therapies. Consequently the scientific literature has grown vast and can be difficult to integrate. With contributions from a distinguished panel of world renowned authors the Second Edition of Clinical Asthma Theory and Practice presents a comprehensive study of both the common and the more challenging problems faced by all healthcare personnel who treat patients with asthma. The book is divided into seven sections starting with the basics of asthma and ending with a discussion on the approach to asthma worldwide and in the primary care setting. Reflecting a strong clinical emphasis each chapter begins with a patient case study supported by essential background information on the basic science and clinical decision making process. This is followed by a discussion of clinical evaluation and management. The multidisciplinary coverage explores a range of topics including genetics, inflammation, immunology and the identification of different endotypes. Using a bench to bedside approach the book links basic science to the clinical management of asthma and explores options for improvement. The carefully selected authorship from experts worldwide presents a truly global outlook.

Clinical Asthma E-Book Mario Castro, Monica Kraft, 2008-04-21 This unique new text delivers practical guidelines on diagnosing and treating patients with asthma. Drs. Castro and Kraft are extensively involved in asthma research and improved patient care and their comprehensive coverage of key challenges in diagnosing and treating asthma makes this a must have resource. The organized full color format ensures readability and helps you find information quickly and easily. Offers up to date protocols and management guidelines to help you provide the best care for your patients. Presents chapters on special situations and special populations to help you overcome clinical challenges such as the difficult to control or pregnant asthma patient. Provides specialized sections on asthma education to give guidance on leading your patients to better self management by improving their adherence to treatment guidelines. Highlights material found on the Asthma Educator Certification exam in special education boxes. Offers expert guidance on translating the new NIH EPR 3 Asthma Guidelines to hands on patient care. Organized in a consistent chapter format that provides concise logical coverage of essential information for easy reference. Contains special boxes that highlight clinical pearls, controversial issues and patient education information. Uses a full color format that makes it easy to find information quickly.
