Shively, 2012-08-31 This narrative study uses Mark 3 22 30 as an interpretive lens to show that the Gospel of Mark has a thoroughly apocalyptic outlook That is Mark 3 22 30

constructs a symbolic world that shapes the Gospel's literary and theological logic Mark utilizes apocalyptic discourse portraying the Spirit-filled Jesus in a struggle against Satan to establish the kingdom of God by liberating people to form a community that does God's will This discourse develops throughout the narrative by means of repetition and variation functioning rhetorically to persuade the reader that God manifests power out of suffering rejection and death This book fits among literary studies that focus on Mark as a unified narrative and rhetorical composition and uses narrative analysis as a key tool While narrative approaches to Mark generally offer non-apocalyptic readings this study clarifies the symbols metaphors and themes of Mark 3:22-30 in light of the religious and social context in which the Gospel was produced in order to understand Mark's persuasive aims towards the reader Accordingly a comparative analysis of Jewish apocalyptic literature informs the use of Mark 3:22-30 as a paradigm for the Gospel

**Thomas More on Statesmanship** Gerard B.

Wegemer, 1998 The term statesman entered the English language during the Renaissance as a result of the widespread return to the Greek and Roman classics Sir Thomas More who brought his careful study of Plato and Aristotle Cicero and Augustine to bear upon his political life contributed most to the recovery of the ancient Greco-Roman concept of the statesman Throughout More's writings and his actions one finds a consistent and principled approach to statesmanship that emphasizes the free character of the human person and integrates classical and Christian thought with the best of England's common law tradition of self-rule This study is the first to examine More's complete works in view of his concept of statesmanship and in the process link More's humanism his faith and his legal and political vocations into a coherent narrative In Part One Gerard B. Wegemer sets forth More's theory of statesmanship drawing heavily from the entire corpus of his work In the second part he presents More's understanding of literature and applies this understanding to his book *Utopia* In Part Three he investigates the two most controversial events in More's life his treatment of heretics and his refusal to obey his king More presented a consistent defense of institutional arrangements now taken as basic to all democratic government rule of law division of power separation of church and state elected representation and protected forms of free and public deliberation He believed that the essential work of the statesman is to draw upon the nation's deepest and longest standing consensus as expressed in its literature and its laws in order to govern with the people's consent More was convinced that law not individual persons should rule This book which integrates the literature philosophy history and politics of the Renaissance will appeal across disciplines to scholars of early modern England and to anyone fascinated by the life and times of St. Thomas More Gerard B. Wegemer is the author of *Thomas More: A Portrait of Courage* (1995) and has written about More and his times for such journals as *Renascence* *Philosophy and Rhetoric* *Moreana* and *The Review of Politics* He holds master's degrees in political philosophy and literature from Boston College and Georgetown respectively and a doctorate in English literature from Notre Dame He is associate professor of literature at the University of Dallas and he teaches and lectures regularly on St. Thomas More Professor Wegemer's book is an extraordinary work of interpretation The key to its success is a

comprehensive grasp of More's life and work rooted in a profound sympathy for the man and his goals With a calm and confident hand Wegemer sheds new light on More's views of statesmanship and its requirements on the inner structure of his enigmatic and playful masterpiece Utopia and on the guiding conceptions of his practical political life Rarely do authors show such a capacity for leaping across the chasm of culture and years to understand the vision that makes sense of a man's life and thought Professor Christopher Wolfe Department of Political Science Marquette University Table of Contents

War and the Making of Medieval Monastic Culture Katherine Allen Smith, 2013-09-19 Finalist for AAH First Book Prize The monastic life traditionally considered as an area of withdrawal from the world is here shown to be shaped by metaphors of war and to be actively engaged with battle in the world outside An extremely interesting and important book makes an important contribution to the history of medieval monastic spirituality in a formative period whilst also fitting into wider debates on the origins development and impact of ideas on crusading and holy war Dr William Purkis University of Birmingham Monastic culture has generally been seen as set apart from the medieval battlefield as those who prayed were set apart from those who fought However in this first study of the place of war within medieval monastic culture the author shows the limitations of this division Through a wide reading of Latin sermons letters and hagiography she identifies a monastic language of war that presented the monk as the archetypal soldier of Christ and his life of prayer as a continuous combat with the devil indeed monks' claims to supremacy on the spiritual battlefield grew even louder as Church leaders extended the title of soldier of Christ to lay knights and crusaders So while medieval monasteries have traditionally been portrayed as peaceful sanctuaries in a violent world here the author demonstrates that monastic identity was negotiated through real and imaginary encounters with war and that the concept of spiritual warfare informed virtually every aspect of life in the cloister It thus breaks new ground in the history of European attitudes toward warfare and warriors in the age of the papal reform movement and the early crusades Katherine Allen Smith is Assistant Professor of History University of Puget Sound

*Scala Christus est* Giovanni Tortoriello,2023-05-09 Since the nineteenth century scholars have debated the controversial relationships between humanism the Renaissance and the Reformation Challenging the dominant narrative on the subject Giovanni Tortoriello reconstructs the debates that characterized the early Reformation movements He shows that Martin Luther s theology of the cross developed in reaction to the irenic tendencies of the Renaissance With the spread of Platonism Hermeticism and Kabbalah in the fifteenth century the identity of Christianity shifted and the boundaries between the different religions thinned In response to this attempt to minimize the differences among the various religions Luther reiterated the centrality and uniqueness of the salvific event of the cross Confessional biases and theological prejudices have obliterated the role that Platonism Hermeticism and Christian Kabbalah played in the early Reformation debates The author reconstructs these controversies and situates Luther s theology of the cross in this historical context
