Architecture and Welfare Thordis Arrhenius, Ellen Braae, Guttorm Ruud, 2025-01-27 Architecture was fundamental to the realization of welfare state policy in the Nordic countries translating democratic ideals into concrete spatial materializations An inclusive notion of welfare for all was embraced by a generation of architects landscape architects and planners who labored to give physical form to ideas of equality collectivity and democracy producing a vast architectural output in Scandinavia during the postwar years Today however the architectural legacy of this era is contested Welfare for all no longer enjoys the social or political consensus it once did This publication critically engages with this contested architectural legacy and provides a nuanced portrait of postwar welfare architecture coming to terms with a contentious past and facing an uncertain future With newly commissioned photographic work by contemporary Nordic artists Based on an interdisciplinary research project by KTH Stockholm Oslo School of Architecture University of Copenhagen Internationally

renown contributors shed light on aspects of the relationship between architecture and welfare Kristian Lange,1971 **Norwegian Music**

Forms of Persuasion Alex J. Taylor,2022-03-15 Forms of Persuasion is the first book length history of corporate art patronage in the 1960s After the decline of artist illustrated advertising but before the rise of museum sponsorship this decade saw artists and businesses exploring new ways to use art for commercial gain Where many art historical accounts of the sixties privilege radical artistic practices that seem to oppose the dominant values of capitalism Alex J Taylor instead reveals an art world deeply immersed in the imperatives of big business These projects unfolded in Madison Avenue meeting rooms and MoMA galleries but as the most creative and competitive corporations sought growth through global expansion they also reached markets all around the world From Andy Warhol s commissions for packaged goods manufacturers to Richard Serra s work with the steel industry Taylor demonstrates how major artists of the period provided brands with forms of persuasion that bolstered corporate power prestige and profit Drawing on extensive original research conducted in artist gallery and corporate archives Taylor recovers a flourishing field of promotional initiatives that saw artists advertising creatives and executives working around the same tables As museums continue to grapple with the ethical dilemmas posed by funding from oil companies military suppliers and drug manufacturers Forms of Persuasion returns to these earlier relations between artists and multinational corporations to examine the complex aesthetic and ideological terms of their enduring entanglements

Luminous Lives Thomas Schlessor,2023-07-04 Long neglected by art historians Anna Eva Bergman 1909 87 was a painter of major importance who invested her work with an almost mystical ambition The story of her life told for the first time in this meticulously researched biography is extraordinary a Norwegian childhood that was constantly overshadowed by fear a bohemian and adventurous youth that spanned much of Europe a career as an illustrator encounters in Nazi Germany increasingly severe health problems three marriages two of which were to the same man Bergman s fellow artist Hans Hartung and a tragic end in the splendour of their villa in Antibes But above all Bergman s was a life dedicated to creation often in defiance of fashion Only recently has the scale of her achievement begun to be adequately acknowledged Bergman undoubtedly enjoyed a distinguished career crossing paths with such key artists as Wassily Kandinsky Pierre Soulages and Mark Rothko In many respects however she remained a marginal figure little known in her homeland and championed by only a handful of allies in France and the rest of Europe Characterised by the use of gold and silver leaf and by the remarkable rhythm of her lines Bergman s paintings are hieratic and simplified radical evocations of the great structuring forces of the universe minerals the elements and even time itself Thomas Schlessor s biography which draws upon the considerable body of written material that Bergman left behind at long last enables us to understand the creator of these magnificent works in all the complexity of her character and the dramatic circumstances of her life
