Global Anti-Terrorism Law and Policy

Victor V. Ramraj, Michael Hor, Kent

Roach, 2009-04-09 All indications are that the prevention of terrorism will be one of the major tasks of governments and regional and international organisations for some time to come. In response to the globalised nature of terrorism, anti-

terrorism law and policy have become matters of global concern. Anti-terrorism law crosses boundaries between states and between domestic, regional and international law. They also cross traditional disciplinary boundaries between administrative, constitutional, criminal, immigration and military law and the law of war. This collection is designed to contribute to the growing field of comparative and international studies of anti-terrorism law and policy. A particular feature of this collection is the combination of chapters that focus on a particular country or region in the Americas, Europe, Africa and Asia and overarching thematic chapters that take a comparative approach to particular aspects of anti-terrorism law and policy, including international constitutional, immigration, privacy, maritime, aviation and financial law.

Authority of State and

Local Police to Enforce Federal Immigration Law Michael John Garcia, 2011 This is a print on demand edition of a hard-

to-find publication. The power to prescribe rules as to which aliens may enter the U.S. and which aliens may be removed resides solely with the federal government and in particular with Congress. Deportation and associated administrative processes related to the removal of aliens are civil in nature, while certain violations of federal immigration law such as

smuggling unauthorized aliens into the country carry criminal penalties. The ability of state and local police to make arrests for federal immigration violations is a subject of legal debate and conflicting jurisprudence. This report discusses the

authority of state and local law enforcement to assist in the enforcement of federal immigration law through the investigation and arrest of persons believed to have violated such laws. Illustrations

Nationalism, Law and Statelessness John R.

Campbell, 2013-07-18 In 1998 a bloody war erupted in The Horn of Africa between Ethiopia and Eritrea. During the war,

Ethiopia arrested and expelled 70,000 of its citizens and stripped another 50,000 plus of their citizenship on the basis of their presumed ethnicity. Nationalism, Law and Statelessness: Grand Illusions in the Horn of Africa examines the events which led

up to the war, documents the expulsions and denationalisations that took place and follows the flight of these stateless

Ethiopians out of the Horn into Europe. The core issue examined is the link between sovereignty and statelessness as this

plays out in The Horn of Africa and in the West. The book provides a valuable insight into how nations create and perpetuate

statelessness the failure of law both national and international to protect and address the plight of stateless persons and the illusory nature of nationalism citizenship and human rights in the modern age The study is one of a very few which examines the problem of statelessness through the accounts of stateless persons themselves This book will be of great interest to students and researchers in anthropology law politics African studies and refugee studies as well as professionals and all those interested in stateless persons in the West including Eritreans who continue to be denied basic rights

Controlling a New Migration World Virginie Guiraudon, Christian Joppke, 2003-09-02 Controlling a New Migration World explores the factors that drive recent migration control policies and in turn sheds light on the unintended consequences of policies for the new character of migration This book asks how we can account for the immigration policies of liberal states Is the recent linkage between migration and security a rhetorical invention of elites or a reflection of changing migrant profiles Are states control policies effectively containing or only redirecting unwanted migration flows This increasingly relevant issue will be of great use to anyone working in comparative politics sociology and studying ethnicity or international migration as well as professionals working in the migrant asylum and public law fields
