Thonberg,2010-12-15 Es bien sabido que la arquitectura es un tipo muy especifico de arte de ciencia o de acto etico porque

los edificios las ciudades y los territorios son artefactos fisicos y sociales no representaciones virtuales como sucede en el

cine en la literatura etc Mijail Bajtin era consciente de esta especificidad cuando afirmaba que la arquitectura toda la

arquitectura solamente tiene sujetos esteticos potenciales no heroes esteticos reales 1 Sin embargo estas cualidades

especificas de la arquitectura no significan que el proyecto arquitectonico virtual es decir un proyecto aun no construido aun

What World War I meant for architecture and urbanism writ large More than one hundred years after the conclusion of the First World War the edited collection *States of Emergency Architecture Urbanism and the First World War* reassesses what that cataclysmic global conflict meant for architecture and urbanism from a human social economic and cultural perspective Chapters probe how underdevelopment and economic collapse manifested spatially how military technologies were repurposed by civilians and how cultures of education care and memory emerged from battle The collection places an emphasis on the various states of emergency as experienced by combatants and civilians across five continents from refugee camps to military installations villages to capital cities thus uncovering the role architecture played in mitigating and exacerbating the everyday tragedy of war
