Transfer of Missile and Satellite Technology to China: A Summary of H.Res. 463 Authorizing a House Select Committee

Stephen W. Stathis
Specialist in American National Government
Government Division

On June 18, 1998, the House voted 409-10 to create a Select Committee on U.S. National Security and Military/Commercial Concerns with the People's Republic of China. The select committee will investigate, among other matters, allegations that the Clinton Administration allowed the Chinese government to acquire sensitive missile technology in exchange for campaign contributions, focusing on the national security consequences of those actions. This fact sheet provides a brief summary of H.Res. 463, which was reported by the Rules Committee (H.Rept. 105-582) on June 16. The resolution was considered under procedures that permitted no floor amendments.

Jurisdiction. H.Res. 463 charges the select committee with determining whether the transfer of technology, information, advice, goods, or services to the People's Republic of China enhanced:

- the accuracy, reliability, or capability of China's nuclear long-range missiles or other weapons;
- its domestic or foreign intelligence capabilities; and
- its manufacture of weapons of mass destruction, missiles, or other armaments.

The committee will also investigate, with respect to these transfers and enhancements:

- effects on the regional and national security of the United States;
- the conduct and decision-making of the executive branch, defense contractors, weapons manufacturers, satellite manufactures, and other firms;
- the enforcement of U.S. statutes, regulations, or executive orders;
- efforts by the Chinese government or other entities to influence these matters; and
- efforts to conceal or withhold relevant information or documents, obstruct justice, or obstruct any investigation of these matters.

Committee Structure and Rules. The select committee consists of nine members. Republican members include Representative Christopher Cox, chair, and Representatives Porter J. Goss, Douglas Bereuter, James V. Hansen, and Curt Weldon. Democratic members include Representative Norman D. Dicks, ranking minority member, and Representatives John M. Spratt, Jr., Lucille Roybal-Allard, and Robert C. Scott.

The End of Grand Strategy Simon Reich, Peter Dombrowski, 2018-01-15 In The End of Grand Strategy Simon Reich and Peter Dombrowski challenge this common view They eschew prescription in favour of describing and explaining what America s military actually does They argue that each presidential administration inevitably resorts to each of the six variant of grand strategy that they implement simultaneously as a result of a series of fundamental recent changes what they term calibrated strategies Reich and Dombrowski support their controversial argument by examining six major maritime operations stretching from America s shores to every region of the globe Each of these operations reflects one major variant of strategy They conclude that grand strategy as we know it is dead
