Minimally Invasive Pediatric Surgery: How To Improve and Overcome Limitations Edoardo Bindi,Giuseppe Lauriti,Giovanni Cobellis ,Gabriele Lisi,2024-07-29 Pediatric surgery among all the surgical specialties is the one that has perhaps evolved the most in a shorter period of time compared to the others In 1995 van der Zee performed the first laparoscopic CDH repair and after that surgical techniques have undergone continuous improvements up to goals that were unimaginable a few years ago such as performing robotic assisted surgical procedures on patients under the age of one The evolution of techniques and knowledge has made it possible to overcome barriers operating with minimally invasive techniques on small patients with complex pathologies while ensuring reduced postoperative pain good cosmetic results and short hospitalization period In particular robot assisted surgery has made it easier for pediatric surgeons to perform very important reconstructive type procedures Just think for example of robotic pyeloplasty which has become a widely performed procedure in pediatric centers given the greater precision and accuracy of robotic instruments in performing pyelo ureteral anastomosis These observations have allowed the bar to be moved higher and higher until patients with choledochal cysts are now being treated robotically At the same time all this has made it easier for even the youngest surgeons and residents to acquire basic technical skills increasing the speed of acquiring the learning curves necessary to be surgically autonomous In addition other types of technological innovations have come to the aid of pediatric surgeons such as rendering programs that have facilitated not only the planning of more complex operations but have also made it easier to create simulations for surgical training In this Special Issue we want to give space to all papers that aim to describe and highlight minimally invasive surgical experiences with more emphasis on how technological innovation combined with the surgeon s knowledge and intuition can move surgical limits forward and make the most complex procedures easier

Promoting Global Competencies Through Media Literacy Yildiz, Melda N., Funk, Steven S., De Abreu, Belinha

S., 2017-11-30 It is imperative that the 21st century population develops media literacy competence at several levels. Schools possess a crucial role in achieving these competencies and as such teachers need to be equipped with effective methods and training. *Promoting Global Competencies Through Media Literacy* is an advanced reference publication featuring the latest scholarly research on transdisciplinary and transformative assessment practices from primary level to university level educational settings. Including coverage on a broad range of topics such as digital storytelling, virtual environment and cross cultural communication, this book is ideally designed for academicians, researchers and librarians seeking current research on current trends in media literacy in educational settings. Neonatal Palliative Care for Nurses Alexandra Mancini, Jayne Price, Tara Kerr-Elliott, 2020-01-22

This textbook details the nursing care of babies with life limiting conditions and sets the context within the philosophy of internationally collaborative neonatal palliative care, emphasising emotional and practical support for their families. Currently increasing interest from nursing and medical fields regarding palliative care for babies in the antenatal and neonatal period is evident. This innovative and unique text provides experienced nurses and student nurses alike with realistic guidance in caring for babies with palliative care needs alongside the crucial support for their families and identifies important strategies for professional self care. Nursing experts in this field collaborated to develop a reference book which supports holistic and integrated clinical practice. Parents' experiences of what they consider helpful or not so helpful are interwoven throughout the chapter. There is currently no other textbook which offers the above information and guidance specifically for nurses and allied health professionals. As such, this book will appeal to all nurses and health professionals working within the neonatal palliative care specialty in a global context. *Neuropalliative Care*, 2023-01-03

Neuropalliative Care Part Two Volume 191 covers a type of care that is given when there is no cure for the neurological disorder and the patient is in distress. It provides a scholarly background of neuropalliative care from historic underpinnings to its practice in various geographical regions along with best practices for specific neurological disorders. It covers the work of multi or interdisciplinary teams whose care is intended to make the patient as comfortable as possible and includes partners and families in treatment plans. Summarizes research in neuropalliative care. Identifies current practices in different geographic regions. Provides best practices for specific neurological disorders and patient populations. Includes advanced care planning.

Pc Training Courses For 2016: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Pc Training Courses For 2016 : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
