Personification About The Rainforest:

Descriptive Writing Tara McCarthy, 1998 Mini lessons strategies and activities help students improve their descriptive writing skills
Animism in Rainforest and Tundra Marc Brightman, Vanessa Elisa Grotti, Olga Ulturgasheva, 2012-08-01 Amazonia and Siberia classic regions of shamanism have long challenged western understandings of man's place in the world. By exploring the social relations between humans and non-human entities credited with human-like personhood not only animals and plants but also things such as artifacts, trade items or mineral resources from a comparative perspective this volume offers valuable insights into the constitutions of humanity and personhood characteristic of the two areas. The contributors conducted their ethnographic fieldwork among peoples undergoing transformative processes of their lived environments such as the depletion of natural resources and migration to urban centers. They describe here fundamental relational modes that are being tested in the face of change presenting groundbreaking research on personhood and agency in shamanic societies and contributing to our global understanding of social and cultural change and continuity.

Environmental Communication Anabela Carvalho, Tarla Rai Peterson, 2024-12-30 This handbook reviews extant research and offers critical summaries of key topics and issues in the field enriched by authoritative analyses of specific cases and examples. It displays pluralism across a number of axes: epistemological, theoretical, geographical, cultural and thematic. The first part offers historical routes through the international development of the field and explores the epistemological grounds of multiple strands of environmental communication studies. In aiming to map the field broadly as well as stimulating new thinking, the second part is organized along three core perspectives: arenas, voice and place. It comprises chapters on various public spaces that are critical to the symbolic constitution of the environment and sheds light on a range of aspects and social agents that have received insufficient attention including research about and carried out in non-Western countries. Crucially at a time of profound environmental crisis the final part of this book discusses possibilities and constraints to social change and the potential contributions of environmental communication research to ways of understanding and responding to the challenge.

Contributors renowned anthropologists and authorities in the field draw on their research in Mongolia, China, Korea, Malaysia, Nepal, India, Siberia, America, Papua New Guinea, Taiwan to investigate how indigenous shamanic cultures dealt and are still dealing with varying degrees of internal and external violence. Mastering Writing at Greater Depth Adam Bushnell, Angela Gill, David Waugh, Rob Smith, 2023-02-09 To master the teaching of writing at greater depth, teachers first need to know what makes writing greater depth. What does it look like? How do I support children to develop the skills and creativity to be able to write at greater depth? Official guidance lacks the substance and clarity that is needed, so where do teachers go for support? This book provides teachers with support, guidance, background, theory, examples, and practical advice for the teaching of writing at greater depth. The text highlights the need to take writing beyond transcription into creative composition and not only shows how this is possible but also explores why it matters. The second edition is updated with new questions for discussion supporting teacher professional learning and links to the ITT Core Content Framework for trainee teachers.

States of Grace Patrícia I. Vieira, 2018-03-19 *States of Grace* offers a novel approach to the study of Brazilian culture through the lens of utopianism. Patrícia I. Vieira explores religious and political writings, journalistic texts, sociological studies

and literary works that portray Brazil as a utopian land of the future where dreams of a coming messianic age and of social and political emancipation would come true The book discusses crucial utopian moments such as the theological political utopia proposed by Jesuit Priest Ant nio Vieira matriarchal utopias like the egalitarian society of the Amazons work free utopias that abolished the boundaries separating toil and play and ecological utopias where humans and nonhumans coexist harmoniously The uniqueness of the book s approach lies in rethinking the link between messianic and utopian texts as well as the alliances forged between progressive religious socioeconomic political and ecological ideas Carleton Papers in Applied Language Studies ,1997 **Postcolonial Green** Bonnie Roos,Alex Hunt,2010-09-23 Postcolonial Green brings together scholarship bridging ecocriticism and postcolonialism Since its inception ecocriticism has been accused of being inattentive to the complexities that colonialism poses for ideas of nature and environmentalism Postcolonial discourse on the other hand has been so immersed in theoretical questions of nationalism and identity that it has been seen as ignoring environmental or ecological concerns This collection demonstrates that ecocriticism and postcolonialism must be understood as parallel projects if not facets of the very same project a struggle for global justice and sustainability The essays in this collection span the globe and cover such issues as international environmental policy land and water rights food production poverty women s rights indigenous activism and ecotourism They consider all manner of texts from oral tradition to literary fiction to web discourse Contributors bring postcolonial theory to literary traditions such as that of the United States not typically seen in this light and conversely bring ecocriticism to literary traditions such as those of India and China that have seen little ecological analysis Postcolonial Green boasts a global geographical breadth diversity of critical approach and increasing relevance to the issues we face on a world stage Contributors Neel Ahuja University of North Carolina Chapel Hill Pavel Cenkl Sterling College Sharae Deckard University College Dublin Ursula K Heise Stanford University Jonathan Highfield Rhode Island School of Design Alex Hunt West Texas A M University Upamanyu Pablo Mukherjee Warwick University Patrick D Murphy University of Central Florida Bonnie Roos West Texas A M University Caskey Russell University of Wyoming Rachel Stein Siena College Sabine Wilke University of Washington Laura Wright Western Carolina University Sheng yen Yu National Taipei University of Technology Gang Yue University of North Carolina Chapel Hill Xiamen University
