Foodservice Manual for Health Care Institutions Ruby Parker Puckett, 2012-11-13 The thoroughly revised and updated fourth edition of Foodservice Manual for Health Care Institutions offers a review of the management and operation of health care foodservice departments. This edition of the book, which has become the standard in the field of institutional and health care foodservice, contains the most current data on the successful management of daily operations and includes information on a wide range of topics such as leadership, quality control, human resource management, product selection and purchasing, environmental issues, and financial management. This new edition also contains information on the practical operation of the foodservice department that has been greatly expanded and updated to help institutions better meet the needs of the customer and comply with the regulatory agencies' standards.

TOPICS COVERED INCLUDE: Leadership and Management Skills, Marketing and Revenue Generating Services, Quality Management and Improvement, Planning and Decision Making, Organization and Time Management, Team Building, Effective Communication, Human Resource Management, Management Information Systems, Financial Management, Environmental Issues and Sustainability, Microbial, Chemical, and Physical Hazards, HACCP, Food Regulations, Environmental Sanitation, and Pest Control, Safety, Security, and Emergency Preparedness, Menu Planning, Product Selection, Purchasing, Receiving, Storage, and Inventory Control, Food Production, Food Distribution, and Service, Facility Design, Equipment Selection and Maintenance.

Learning objectives, summary, key terms, and discussion questions included in each chapter help reinforce important topics and concepts. Forms, charts, checklists, formulas, policies, techniques, and references provide invaluable resources for operating in the ever-changing and challenging environment of the food service industry.

The Certified HACCP Auditor Handbook, Third Edition ASQ's Food, Drug, and Cosmetic Division, 2014-01-14 This handbook is intended to serve as a baseline of hazard analysis critical control point (HACCP) knowledge for quality auditors. HACCP is more than just failure mode and effect analysis (FMEA) for food; it is a product safety management system that evolved and matured in the commercial food processing industry, allowing food processors to take a proactive approach to prevent foodborne diseases. Both the FDA and the USDA have embraced HACCP as the most effective method to ensure farm-to-table food safety in the United States. This handbook also assists the certification candidate preparing for the ASQ Certified HACCP Auditor (CHA) examination. It includes chapters covering the HACCP audit, the HACCP auditor, and quality assurance analytical tools.
