Baltimore 68 Riots And Rebirth In An American City:

Baltimore '68 Jessica I. Elfenbein, Thomas Hollowak, Elizabeth Nix, 2011-06-17 Annotation In 1968 Baltimore was home to a variety of ethnic religious racial communities that like those in other American cities were confronting a quickly declining industrial base This book offers chapters on events leading up to the turmoil of that year four rigorously edited annotated oral histories Baltimore Revisited P. Nicole King, Kate Drabinski, Joshua Clark Davis, 2019-08-09 Nicknamed both Mobtown and Charm City and located on the border of the North and South Baltimore is a city of contradictions From media depictions in *The Wire* to the real life trial of police officers for the murder of Freddie Gray Baltimore has become a quintessential example of a struggling American city Yet the truth about Baltimore is far more complicated and more fascinating To help untangle these apparent paradoxes the editors of *Baltimore Revisited* have assembled a collection of over thirty experts from inside and outside academia Together they reveal that Baltimore has been ground zero for a slew of neoliberal policies a place where inequality has increased as corporate interests have eagerly privatized public goods and services to maximize profits But they also uncover how community members resist and reveal a long tradition of Baltimoreans who have fought for social justice The essays in this collection take readers on a tour through the city's diverse neighborhoods from the Lumbee Indian community in East Baltimore to the crusade for environmental justice in South Baltimore *Baltimore Revisited* examines the city's past reflects upon the city's present and envisions the city's future

Slow and Sudden Violence Derek Hyra, 2024-08-06 In *Slow and Sudden Violence* Derek Hyra weaves together a persuasive unrest narrative linking police aggression to an ongoing cycle of racial and spatial urban redevelopment repression By delving into the real estate history of the St Louis region and Baltimore Hyra shows how rounds of urban renewal decisions to segregate displace and gentrify Black communities advance neighborhood inequality Despite moments of racial political representation repeated decisions to upgrade the urban fabric and uproot low income Black populations result in Black poverty pockets inhabited by people experiencing chronic displacement trauma and unrelenting police surveillance These interconnected sets of accumulated frustrations powerfully culminate and surface when tragic and unjust police killings occur To confront the core components of U S unrest Hyra suggests we must end racialized policing stop Black community destruction and displacement and reduce neighborhood inequality Provided by publisher **Atlantic Crescent** Alaina M. Morgan, 2025-07-29 In the period between the twentieth century's two world wars Black and Muslim people from the United States South Asia and the Caribbean collided across an expansive diasporic geography As these people and their ideas came into contact they reignited the practice of Islam among people of African descent living in the United States and the Anglophone Caribbean and prompted them to adopt new understandings of their place in the world As the freedom dreams of these diasporic communities met the realities and limitations of colonialism and race in the Atlantic world Islam presented new strategies for combating oppression and introduced new allies in the struggle Envisioning the

geography and significance of this encounter within what she calls the Atlantic Crescent Alaina M Morgan draws on an expansive archive to show how Black and Muslim people imagined understood and acted on their religious and racial identities Morgan reveals how her subjects overlapping diasporic encounters with Islam led to varied local adaptation as well as common ground to pursue liberation from racial subjugation and white supremacy **Social Entrepreneurship** Kucher, J. H., Raible, Stephanie E., 2022-01-28 This accessible textbook provides a comprehensive guide to the building blocks of sustainable social enterprise exploring how core elements contribute to either the success or failure of the social venture It analyzes the key skills needed to synthesize effective business practices with effective social innovation and points out both what works and what does not Taking a practical approach it demonstrates how big ideas can be transformed into entities that produce lasting change

The Seedtime, the Work, and the Harvest Jeffrey L. Littlejohn, Reginald K. Ellis, Peter B. Levy, 2019-10-07 This volume's contributors expand the chronology and geography of the black freedom struggle beyond the traditional emphasis on the Jim Crow South and the years between 1954 and 1968 Beginning as far back as the nineteenth century and analyzing case studies from southern northern and border states the essays in *The Seedtime the Work and the Harvest* incorporate communities and topics not usually linked to the African American civil rights movement The collection opens with a biographical sketch of Thomas DeSaille Tucker an educational pioneer who served as the first president of Florida State Normal and Industrial School for Colored Students It then highlights the work of black women including Bostonian publisher Josephine St Pierre Ruffin who defied local governments during the Progressive Era by disseminating medical information and providing access to medical professionals Next the collection explores the life and work of Norfolk civil rights attorney James F Gay who helped to democratize the political establishment in Virginia's largest city but became a victim of his own success The collection then moves to York Pennsylvania to examine a 1969 riot that went mostly unnoticed until the town's mayor was charged more than thirty years later with the riot related murder of Lillie Belle Allen Also featured is an essay examining the Student Nonviolent Coordinating Committee's Food for Freedom campaign that aimed to complement voter registration work in Mississippi by providing everyday sustenance to African Americans Addressing more recent issues this volume considers the politics of public memory in Baltimore Maryland a city divided by racial riots in 1968 and in 2015 It then examines the Black Lives Matter movement that gained international attention for its response to Michael Brown's death at the hands of police in Ferguson Missouri as well as the Sandra Bland Movement inspired by the arrest of Bland and her subsequent death in the Waller County jail in rural Texas These chapters connect the activism of today shaped in so many ways by social media student activism and grassroots organization to a deeply historical wide ranging fight for equality

American Democracy and Disconsent Daniel Monti, 2024-04-09 This volume is a thorough re examination of civil unrest and discontent in the United States particularly the intersection of democracy and violence The work argues that unrest and violence are embedded rituals of social and political disconsent and are

constitutive features of citizen based democracy As such they are part of how democratic life works unrest is the eruptive visible grammar of citizens in a democratic society Democracy and citizen unrest and violence in the United States are set within a deeper history The author traces the roots of American democracy and the rituals of dissent to their sources in ancient Mediterranean political society demonstrating that early democratic theory and practice understood unrest and revolt as morally grounded Featuring case studies of recent episodes of political and social dissent in the United States the volume contextualizes the Black Lives Matter protests unrest around police and institutional violence and the Capitol insurrection on January 6 Through this the book provides an important social theoretical lens through which to understand American discontent around racial injustice political suppression and citizen disillusionment **Most of 14th Street is**

The Painted Screens of Baltimore Elaine Eff, 2013-10-23 Painted screens have long been synonymous in the popular imagination with the Baltimore row house Picturesque practical and quirky window and door screens adorned with scenic views simultaneously offer privacy and ventilation in crowded neighborhoods As an urban folk art painted screens flourished in Baltimore though they did not originate there precursors date to early eighteenth century London They were a fixture on fine homes and businesses in Europe and America throughout the Victorian era But as the handmade screen yielded to industrial production the whimsical artifact of the elite classes was suddenly transformed into an item for mass consumption Historic examples are now a rarity but in Baltimore the folk art is still very much alive The Painted Screens of Baltimore takes a first look at this beloved icon of one major American city through the words and images of dozens of self taught artists who trace their creations to the capable and unlikely brush of one Bohemian immigrant William Oktavec In 1913 this corner grocer began a family dynasty inspired generations of artists who continue his craft to this day The book examines the roots of painted wire cloth the ethnic communities where painted screens have been at home for a century and the future of this art form

A New Working Class Jane Berger, 2021-10-15 For decades civil rights activists fought against employment discrimination and for a greater role for African Americans in municipal decision making As their influence in city halls across the country increased activists took advantage of the Great Society and the government jobs it created on the local level to advance their goals A New Working Class traces efforts by Black public sector workers and their unions to fight for racial and economic justice in Baltimore The public sector became a critical job niche for Black workers especially women a largely unheralded achievement of the civil rights movement A vocal contingent of Black public sector workers pursued the activists goals from their government posts and sought to increase and improve public services They also fought for their rights as workers and won union representation During an era often associated with deindustrialization and union decline Black government workers and their unions were just getting started During the 1970s

and 1980s presidents from both political parties pursued policies that imperiled these gains Fighting funding reductions public sector workers and their unions defended the principle that the government has a responsibility to provide for the well being of its residents Federal officials justified their austerity policies the weakening of the welfare state and strengthening of the carceral state by criminalizing Black urban residents including government workers and their unions Meanwhile workers and their unions also faced off against predominately white local officials who responded to austerity pressures by cutting government jobs and services while simultaneously offering tax incentives to businesses and investing in low wage service sector jobs The combination of federal and local policies increased insecurity in hyper segregated and increasingly over policed low income Black neighborhoods leaving residents particularly women to provide themselves or do without services that public sector workers had fought to provide

The American Politics of French Theory Jason Demers,2019-01-01 Working from the premise that May 68 is a shorthand that delimits an intensive decade of global revolt Jason Demers documents the cross pollination of French philosophy international activist movements and American countercultures From the assassinations of Martin Luther King Jr and George Jackson to the revolt at Columbia University the 1968 Democratic National Convention Woodstock and the Weather Underground Demers writes French theory into a constellation of American events and icons uncontained by national borders More than a compelling new take on the history of theory The American Politics of French Theory develops concepts gleaned from the work of Derrida Deleuze Guattari and Foucault providing new tools for thinking about translation theory and politics By recontextualizing French theory within a complex fabric of mass communication and global revolt Demers demonstrates why it is politically potent and methodologically necessary to think of translation associatively
