**A Brief Chronology of Bethlehem Steel** Bethlehem Steel Corporation, 1998      **A Brief History of Bethlehem Steel Corporation** Bethlehem Steel Corporation, 1965      *Bethlehem Steel* Tracy L. Berger-Carmen, 2022 The Lehigh Valley Railroad established the Bethlehem Iron Company in 1860 along the Lehigh River in South Bethlehem The Bethlehem Iron Company manufactured the largest steel axle to date to support the first Ferris wheel at the 1893 World's Fair Bethlehem Iron Company became Bethlehem Steel in 1899 In 1904 Charles Schwab incorporated the company and ultimately it became the second largest steelmaker in the United States Bethlehem Steel built battleships such as the USS Massachusetts and USS Missouri and bridges such as the Golden Gate and George Washington and provided steel for iconic structures such as the US Supreme Court Building and Madison Square Garden      **Bethlehem Steel** Kenneth Warren, 2008-01-17 In the late 19th century rails from Bethlehem Steel helped build the United States into the world's foremost economy During the 1890s Bethlehem became America's leading supplier of heavy armaments and by 1914 it had pioneered new methods of structural steel manufacture that transformed urban skylines Demand for its war materials during World War I provided the finance for Bethlehem to become the world's second largest steel maker As late as 1974 the company achieved record earnings of 342 million But in the 1980s and 1990s through wildly fluctuating times losses outweighed gains and Bethlehem struggled to downsize and reinvest in newer technologies By 2001 in financial collapse it reluctantly filed for Chapter 11 bankruptcy protection Two years later International Steel Group acquired the company for 1.5 billion In Bethlehem Steel Kenneth Warren presents an original and compelling history of a leading American company examining the numerous factors contributing to the growth of this titan and those that eventually felled it along with many of its competitors in the U.S. steel industry Warren considers the investment failures indecision and slowness to abandon or restructure outdated integrated plants plaguing what had become an insular inward looking management group Meanwhile competition increased from more economical mini mills at home and from new technologically superior plants overseas which drove world prices down causing huge flows of imported steel into the United States Bethlehem Steel provides a fascinating case study in the transformation of a major industry from one of American dominance to one where America struggled to survive      **Steelmaking :**
