**Betrayed** S. Kaplan, 2013-11-26 Betrayed takes a new approach to the subject of global poverty one that doesn't blame the West but also doesn't rely on the West for solutions Betrayed puts the poor themselves at center stage and shows how their entrepreneurial energies are shackled by political and social discrimination When these shackles are removed as is happening in places such as China and Vietnam the poor are able to seize opportunities and drive wealth creation Combining the latest research into poverty and state building with the author's personal observations drawn from years running businesses in the developing world Betrayed explains how leaders in the developing world can build more inclusive societies and more equitable governments thereby creating dynamic national economies and giving the poor the opportunity to accumulate the means and skills to control their own destinies This refreshing new approach will appeal to business people who are fed up with reading critiques of global poverty that see capitalism as the problem not the solution people in both the global North and South who want to see attention focused not on Western aid but on what developing countries and their citizens can do to help themselves scholars and practitioners in the development field who are looking for new practicable ideas and general readers who want accessible and engaging accounts of ordinary people struggling to overcome poverty

*Deep Secrets* Niobe Way, 2013-05-06 Boys are emotionally illiterate and don't want intimate friendships In this empirically grounded challenge to our stereotypes about boys and men Niobe Way reveals the intense intimacy among teenage boys especially during early and middle adolescence Boys not only share their deepest secrets and

feelings with their closest male friends they claim that without them they would go wacko Yet as boys become men they become distrustful lose these friendships and feel isolated and alone Drawing from hundreds of interviews conducted throughout adolescence with black Latino white and Asian American boys Deep Secrets reveals the ways in which we have been telling ourselves a false story about boys friendships and human nature Boys descriptions of their male friendships sound more like something out of Love Story than Lord of the Flies Yet in late adolescence boys feel they have to man up by becoming stoic and independent Vulnerable emotions and intimate friendships are for girls and gay men No homo becomes their mantra These findings are alarming given what we know about links between friendships and health and even longevity Rather than a boy crisis Way argues that boys are experiencing a crisis of connection because they live in a culture where human needs and capacities are given a sex female and a sexuality gay and thus discouraged for those who are neither Way argues that the solution lies with exposing the inaccuracies of our gender stereotypes and fostering these critical

*The Psychology of Love and Hate in Intimate Relationships* Katherine Aumer, 2016-06-23 Social psychology has made great advancements in understanding how our romantic relationships function and to some extent dissolve However the social and behavioral sciences in much of western scholarship often focus exclusively on the more positive aspects of intimate relationships and less so on more controversial or unconventional aspects The goal of this volume is to explore and illuminate some of these underrepresented aspects aspects such as non monogamy female orgasm sadism and hate that often function alongside love in intimate relationships Ultimately by looking at intimate relationships in this way the volume contributes to and advocates for a more holistic and comprehensive view of intimate relationships Throughout the volume contributors from social clinical and evolutionary psychology cover love and hate from a variety of sometimes opposing perspectives The first section covers love and the changing landscape of intimate relationships Its chapters review the current literature and research of understudied topics like non monogamy female orgasm sexual fantasies and the viewpoint of love as something other than positive The second section explores hate and how hate can operate in intimate relationships for example the appearance of sadistic behavior and debates the nature of hate as either a motivation or emotion The volume concludes by looking at ways in which the appearance of hate in relationships can be dealt with and overcome successfully Taken together these two sections reflect the full variety of experiences within intimate relationships With the aim of exploring how love and hate can and frequently do work together *The Psychology of Love and Hate in Intimate Relationships* is a fascinating psychological exploration of intimate relationships in modern times It is an invaluable resource to academics and students specializing in psychology gender and sociology including clinicians and therapists and all those interested in increasing our knowledge of intimate relationships
