Dina Rasor, Robert Bauman, 2007-05-01 In this shocking exposé two government fraud experts reveal how private contractors have put the lives of countless American soldiers on the line while damaging our strategic interests and our image abroad From the shameful war profiteering of companies like Halliburton KBR to the sinister influence that corporate lobbyists have on American foreign policy Dina Rasor and Robert H Bauman paint a disturbing picture Here they give the inside story on troops forced to subsist on little food and contaminated water on officers afraid to lodge complaints because of Halliburton's political clout on millions of dollars in contractors' bogus claims that are funded by American taxpayers Drawing on exclusive sources within government and the military the authors show how money and power have conspired to undermine our fighting forces and threaten the security of our country *The Impact of 9/11 on Business and Economics* M.

Morgan, 2009-08-31 *The Impact of 9/11 on Business and Economics* is the second volume of the six volume series *The Day that Changed Everything* edited by Matthew J Morgan The series brings together from a broad spectrum of disciplines the leading thinkers of our time to reflect on one of the most significant events of our time **The Sociology of Privatized**

Security Ori Swed, Thomas Crosbie, 2018-10-04 The first book dedicated to the sociology of privatized security this collection studies the important global trend of shifting security from public to private hands and the associated rise of Private Military and Security Companies PMSCs and their contractors The volume first explores the trend itself making important historical and theoretical revisions to the existing social science of private security These chapters discuss why rulers buy rent and create private militaries why mercenaries have become private patriots and why the legitimacy of military missions is undermined by the use of contractors The next section challenges the idea that states have a monopoly on legitimate violence and questions our legal and economic assumptions about private security The collection concludes with a discussion of the contractors themselves focusing on gender race ethnicity and other demographic factors Featuring a mix of qualitative and quantitative methods and a range of theoretical and methodological innovations this book will inspire sociologists to examine with fresh eyes the behind the scenes tension between the high drama of war and conflict and the mundane realities of

privatized security contractors and their everyday lives *Naval Law Review* ,2009 **The Routledge Handbook of Security Studies** Myriam Dunn Cavelty,Victor Mauer,2009-12-16 Focusing on contemporary challenges this major new Handbook offers a wide ranging collection of cutting edge essays from leading scholars in the field of Security Studies The field of Security Studies has undergone significant change during the past twenty years and is now one of the most dynamic sub disciplines within International Relations It now encompasses issues ranging from pandemics and environmental degradation to more traditional concerns about direct violence such as those posed by international terrorism and inter state armed conflict A comprehensive volume comprising articles by both established and up and coming scholars the Handbook of Security Studies identifies the key contemporary topics of research and debate today This Handbook is a benchmark publication with major importance both for current research and the future of the field It will be essential reading for all scholars and students of Security Studies War and Conflict Studies and International Relations **The Lonely Soldier** Helen Benedict,2010-04-01 The Lonely Soldier the inspiration for the documentary The Invisible War vividly tells the stories of five women who fought in Iraq between 2003 and 2006 and of the challenges they faced while fighting a war painfully alone More American women have fought and died in Iraq than in any war since World War Two yet as soldiers they are still painfully alone In Iraq only one in ten troops is a woman and she often serves in a unit with few other women or none at all This isolation along with the military s deep seated hostility toward women causes problems that many female soldiers find as hard to cope with as war itself degradation sexual persecution by their comrades and loneliness instead of the camaraderie that every soldier depends on for comfort and survival As one female soldier said I ended up waging my own war against an enemy dressed in the same uniform as mine In The Lonely Soldier Benedict tells the stories of five women who fought in Iraq between 2003 and 2006 She follows them from their childhoods to their enlistments then takes them through their training to war and home again all the while setting the war s events in context We meet Jen white and from a working class town in the heartland who still shakes from her wartime traumas Abbie who rebelled against a household of liberal Democrats by enlisting in the National Guard Mickiela a Mexican American who grew up with a family entangled in L A gangs Terris an African American mother from D C whose childhood was torn by violence and Eli PaintedCrow who joined the military to follow Native American tradition and to escape a life of Faulknerian hardship Between these stories Benedict weaves those of the forty other Iraq War veterans she interviewed illuminating the complex issues of war and misogyny class race homophobia and post traumatic stress disorder Each of these stories is unique yet collectively they add up to a heartbreaking picture of the sacrifices women soldiers are making for this country Benedict ends by showing how these women came to face the truth of war and by offering suggestions for how the military can improve conditions for female soldiers including distributing women more evenly throughout units and rejecting male recruits with records of violence against women Humanizing urgent and powerful The Lonely Soldier is a clarion call for change **Professional Journal of the United**

First-Class Passengers on a Sinking Ship Richard Lachmann,2020-01-14 The extent and irreversibility of US decline is becoming ever more obvious as America loses war after war and as one industry after another loses its technological edge Lachmann explains why the United States will not be able to sustain its global dominance He contrasts America s relatively brief period of hegemony with the Netherlands similarly short primacy and Britain s far longer era of leadership Decline in all those cases was not inevitable and did not respond to global capitalist cycles Rather decline is the product of elites success in grabbing control of resources and governmental powers Not only are ordinary people harmed but also capitalists become increasingly unable to coordinate their interests and adopt policies and make investments necessary to counter economic and geopolitical competitors elsewhere in the world Conflicts among elites and challenges by non elites determine the timing and mould the contours of decline Lachmann traces the transformation of US politics from an era of elite consensus to present day paralysis combined with neoliberal plunder explains the paradox of an American military with an unprecedented technological edge unable to subdue even the weakest enemies and the consequences of finance s cannibalisation of the US economy

Irrational Security Daniel Wirls,2010-05 Irrational security After the Cold War from buildup to bottom up What comes down must go up Clinton and the politics of military spending From ambition to empire Bush and military policy before and after 9 11 Hidden in plain sight the Bush military buildup Paying the price from Bush to Obama

Contractors and War Christopher Kinsey,Malcolm Hugh Patterson,2012-07-25 The U S military is no longer based on a Cold War self sufficient model Today s armed forces are a third smaller than they were during the Cold War and yet are expected to do as much if not more than they did during those years As a result a transformation is occurring in the way the U S government expects the military to conduct operations with much of that transformation contingent on the use of contractors to deliver support to the armed forces during military campaigns and afterwards Contractors and War explains the reasons behind this transformation and evaluates how the private sector will shape and be shaped by future operations The authors are drawn from a range of policy legislative military legal and academic backgrounds They lay out the philosophical arguments supporting the use of contractors in combat and stabilization operations and present a spectrum of arguments that support and criticize emergent private sector roles The book provides fresh policy guidance to those who will research direct and carry out future deployments

Shattered Minds Robert H. Bauman,Dina Rasor,2019-03-01 Shattered Minds is the first book to investigate how American military bureaucracies have

let our troops down by failing to upgrade one of the most important pieces of personal safety equipment the combat helmet Two longtime employees of North Dakota defense contractor Sioux Manufacturing discovered that the required density of the Kevlar material woven into the netting of combat helmets was being shorted After bringing their discovery to the attention of management their boss rather than cleaning up the illegal practice accused them of having an adulterous affair Both employees were fired leading to a lawsuit and a court judgment in their favor that eventually brought the company's bad faith practices to light Around the same time a separate whistleblower a retired Navy doctor was pulled into a bizarre struggle with Army and Marine bureaucracies when he discovered from his Marine grandson that the protective webbing inside the military helmets was inadequate Why was the military so resistant to upgrading the most essential piece of gear to protect soldiers from traumatic brain injury Interweaving these two whistleblower stories Robert H Bauman and Dina Rasor explain why the military despite news coverage and congressional hearings on the faulty helmet continued to do the indefensible They also suggest how the public the press and military institutions can remedy the problem to give U S troops effective helmets when serving to protect their country

The Military and the Market Jennifer Mittelstadt, Mark R. Wilson, 2022-10-11 Throughout its history the U S military has worked in close connection to market based institutions and structures It has run systems of free and unfree labor taken over private sector firms and both spurred and snuffed out economic development It has created new markets for consumer products for sex work and for new technologies It has operated as a regulator of industries and firms and an arbitrator of labor practices And in recent decades it has gone so far as to refashion itself from the inside so as to become more similar to a for profit corporation The Military and the Market covers two centuries of history of the U S military's vast and varied economic operations including its often tense relationships with capitalist markets Collecting new scholarship at the intersection of the fields of military history business history policy history and the history of capitalism the nine chapters feature important new research on subjects ranging from Civil War soldier entrepreneurs to the business of the construction of housing and overseas bases for the Cold War to the U S military's troubled relationships with markets for sex The volume enriches scholars' understandings of the depth and complexity of military market relations in U S history and offers today's military policymakers novel insights about the origins of current arrangements and how they might be reimagined Contributors Jessica L Adler Timothy Barker Patrick Chung Gretchen Heefner Jennifer Mittelstadt A Junn Murphy Kara Dixon Vuic Sarah Jones Weicksel Mark R Wilson Daniel Wirls
