Axford,1976 , National Union Catalog ,1973 Crafts and Creative Media in Therapy Carol Tubbs,Margaret Drake,2024-06-01

For more than 20 years *Crafts and Creative Media in Therapy Fifth Edition* has been an illuminating reference for the use of creative approaches in helping clients achieve their therapeutic goals. Carol Crellin Tubbs has included a range of craft and creative activity categories from paper crafts to cooking to the use of recycled materials and everything in between. Each chapter includes a brief history of the craft, several projects along with suggestions for grading or adapting examples of related documentation, and a short case study. The text also features chapters on activity analysis, general strategies for implementation of creative activities and documentation, as well as a chapter describing the relevance of this media from both historical and current occupation-based perspectives. In this updated Fifth Edition, the craft projects have been updated and numerous resources and links for more ideas have been added. There are new chapters on making therapy tools and crafting with a purpose, and the recycled and found materials chapter has been expanded in keeping with cultural trends. A flow chart has been added to each case study to help students better understand the process and rationale for tailoring activities for individual client needs, and project suggestions for working on specific performance skills or client factors are scattered throughout the chapters. Other additions include a behavioral observation checklist as an aid in evaluation and documentation, and several illustrations to help students distinguish between the use of occupation as means and occupation as end. This Fifth Edition also includes an updated instructors manual with additional resources and suggestions for lesson planning. *Crafts and Creative Media in Therapy Fifth Edition* not only provides a wide assortment of craft ideas and instructions but also provides multiple suggestions for therapeutic uses for activities in each category. It includes ways to grade activities to best achieve therapy objectives and examples of documentation for reimbursement. For each craft category, there is discussion on precautions for use with certain populations, contextual limitations, and safety considerations. Information is presented in several different formats such as examples, tables, illustrations, and other formats to promote student understanding. Included with the text are online supplemental materials for faculty use in the classroom. *Crafts and Creative Media in Therapy Fifth Edition* is the foremost resource for using creative approaches in helping clients achieve their therapeutic goals and should be used by all occupational therapists, occupational therapy assistants, and recreational therapists.

Casseroles, Can Openers, and Jell-O Elizabeth Aldrich, 2023-05-01. *Casseroles, Can Openers, and Jell-O* provides insight on how American food culture developed during the early years of the Cold War. Highlighting gender roles, the promotion of democracy and capitalism, and the impact of mass market advertising, the book draws on cookbooks, popular magazines, television advertisements, government publications, and industry pamphlets to paint a vivid picture of what Americans ate and how food was enlisted as a symbol of America's postwar dominance. Featuring eighty recipes, the book shows how the food industry promoted new processed foods to an increasingly industrialized nation. For anyone wanting to better understand how America's food culture developed during the mid-twentieth century and for those who were raised on TV dinners and Campbell's soup, the book offers an engaging and evocative look at the story of American cuisine during the
