Between Truth And Illusion A Dualistic Philosophy:

Between Truth and Illusion John O'Loughlin, 2022-03-08 Mr O Loughlin's first exercise in philosophy dating from 1977 takes as its starting point an analysis of the inter-relativity of dualities and expands via a series of aphoristic essays and dramatic lessons towards a dialogue climax in which the two inevitably characters discuss the implications of a dualistic philosophy both as it impacts on theory and practice Although the author didn't realize it at the time truth and illusion are a lot closer together than may at first appear to be the case even if one doesn't necessarily have to get between them

Between Truth and Illusion John James O'Loughlin, 2014-05-31 This title signifies an attempt by John James O Loughlin to return to basics in philosophy and understand the connections and indeed interrelations of antitheses polarities opposites and other such neat philosophical categories in relation to the relativity of everyday life It is not an express attempt to expound the Truth but rather a modest undertaking on his part to comprehend the paradoxes of the world in which we happen to live and seek to unveil some of the illusions and superstitions which make the pursuit of philosophical truth such a difficult not to say protracted task Hopefully the result of this undertaking is a franker and maturer approach to those very paradoxes which were the inspiration for this work and which led to some of its most striking contentions Therefore if *Between Truth and Illusion* cannot by dint of its paradoxical nature lay claims to being the Truth it can at least be seen as the basis for a more realistic appraisal of the terms by which the pursuit of philosophical truth is made possible **DUALISM**

John O'Loughlin, 2022-03-23 This project divided into two books both of which originally date from 1977 but have now been extensively revised and reissued in a new format signifies an attempt by me to return to basics in philosophy and understand the connections and indeed interrelations of antitheses polarities opposites and other such neat philosophical categories in relation to the relativity of everyday life It is not an express attempt to expound the Truth in respect of metaphysical knowledge but rather a modest undertaking on my part to comprehend the paradoxes of the world in which we happen to live and seek to unveil some of the illusions and superstitions which make the pursuit of metaphysical knowledge such a difficult not to say protracted task Hopefully the result of this undertaking is a franker and maturer approach to those very paradoxes which were the inspiration for this project and which led to some of its most striking contentions A Centretruths Editorial

Vadiraja's Refutation of Sankara's Non-dualism L. Stafford Betty, 1978 The region of Bihar is one of the great foci of Indian history From before the days of Buddha it was a major centre of Indian Political life and the most significant cultural centres especially in respect of Buddhism Hitherto the student of Ancient India has been rather badly provided with geographical and topographical studies Dr M S Pandey has made a very significant contribution to the subject The author has ransacked a very large range of sources for information and has produced a survey of the subject which may in many respects serve as a model to students working on other regions of India The chapter helps in understanding the geographical forces behind historical events of the state The author has dealt very scholarly the Historical outlines mountain systems river

systems regions districts place names communications etc The book is written with scholarly acumen and clarity and is very evidently the work of a man with a deep affection for his native land **Dantologies** William Franke, 2023-09-26 This book comprises a searching philosophical meditation on the evolution of the humanities in recent decades taking Dante studies as an exemplary specimen The contemporary currents of theory have decisively impacted this field but Dante also has a strong relationship with theology The idea that theology teleology and logocentric rationalities are simply overcome and swept away by new theoretical approaches proves much more complex as the theory revolution is exposed in its crypto theological motives and origins The revolutionary agendas and methodologies of theoretical currents have ushered in all manner of minorities and postcolonial and gender studies But the exciting adventure they inaugurate shows up in quite a surprising light when brought to focus through the scholarly discipline of Dante studies as a terrain of dispute between traditional philology and postmodern theory On this terrain negative theology can play a peculiarly destabilizing but also a conciliatory role it is equally critical of all languages for a theological transcendence to which it nevertheless remains infinitely open

Psychedelic Immortality: Nietzschean Perspectives on Reincarnation, Femtheogens, and Philosophy Joseph I. Breidenstein Jr., 2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche's philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west's mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche's philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes *Sanathana Dharma:*

On the Truth and Nothingness Pasquale De Marco,2025-05-18 In an era where truth is increasingly elusive and contested this groundbreaking book embarks on an intellectual odyssey to unravel the enigmatic nature of truth Delving into its philosophical foundations its complex relationship with language power and ideology and its manifestations in art literature ethics and science this book offers a profound exploration of truth s significance for human existence With rigorous analysis and thought provoking insights the author takes readers on a journey through the labyrinthine corridors of knowledge and uncertainty We question the limits of human perception and the role it plays in shaping our understanding of reality We examine the intricate interplay between truth and illusion exploring the ways in which our beliefs and biases can distort our perception of the world We investigate the role of language in constructing and conveying truth uncovering the power of words to illuminate and obscure to reveal and conceal We explore the limitations of language and the challenges of translating abstract concepts into concrete terms We delve into the relationship between truth and power uncovering the ways in which dominant ideologies can shape and manipulate our understanding of reality Our exploration extends to the realms of art and literature where truth is expressed in myriad forms We examine the ways in which artists and writers use their creative talents to unveil hidden truths to challenge conventional wisdom and to offer new perspectives on the human condition We explore the role of metaphor and symbolism in conveying truths that defy literal expression We delve into the realm of ethics and morality where truth and falsehood intertwine in complex ways We explore the foundations of moral principles and the role of truth in shaping our notions of right and wrong We examine the relationship between truth and justice questioning whether truth is always necessary for justice to prevail Finally we venture into the realm of science where the pursuit of truth is a rigorous and systematic endeavor We examine the scientific method as a tool for uncovering truths about the natural world We explore the role of evidence and experimentation in validating scientific claims We investigate

the limits of scientific knowledge and the challenges of reconciling scientific truth with other forms of truth This book is an essential guide for anyone seeking a deeper understanding of truth and its profound implications for human existence With its comprehensive analysis and thought provoking insights it illuminates the enduring power of truth its resilience in the face of adversity and its significance for building a more just equitable and compassionate world If you like this book write a review on google books

In the Shadow of Spengler John O'Loughlin,2223-04-11 This composite project by John O Loughlin combines the dialogues of A Question of Belief 1978 with the essays of The Fall of Love 1979 to make a substantial volume of literary philosophy which attempts to take a balanced view of a variety of weighty subjects from literature and music to war and spirituality under the looming shadow of Spenglerian historicism and environmental fatalism **Paideia** Anna-Teresa Tymieniecka,2013-04-17 The education of humanity is the key to the next century s culture its social and practical life The main concerns of education are perennial but the continuous flood of inventions the technological innovations that re shape life calls for a radically new appraisal of the situation such as only philosophy can provide Answering the call of humanity for the measure sense of proportion and direction that could re orient present and future education the phenomenology of life integral and scientific in a dialogue with the arts the sciences and the humanities proposes an ontopoietic model of life s unfolding as the universal paradigm for this re orientation Taking the Human Creative Condition as its Archimedean point it offers a unique context for a fresh investigation of the concerns of education both perennial and immediate

Young Schopenhauer Alessandro Novembre,2023-10-04 This book provides a detailed reconstruction of the origins of Schopenhauer s philosophy and its inherent aporias It is divided into four parts The first section delves into the pietistic upbringing of young Schopenhauer and his introduction to philosophy through the teachings of G E Schulze as well as his study of Plato Schelling and Kant Faced with the negative outcomes of Kant s criticism particularly the unknowability of the thing in itself young Schopenhauer initially engaged with Fichte and Schelling this is covered in the second part of the volume However Schopenhauer formed the opinion that these two philosophers instead of upholding and expanding upon Kant s ideas ultimately diverge from them That notwithstanding he implicitly inherited certain pivotal concepts from Fichte and Schelling The third part explores Schopenhauer s initial endeavor to formulate a new metaphysics after Kant known as the theory of better consciousness In the fourth part the book demonstrates how the internal contradictions within that theory and Schopenhauer s transformative encounter with Indian wisdom Hinduism and Buddhism lead him to abandon his first attempt at a system and develop his metaphysics of will The last and most substantial chapter of the book focuses on the author s analysis of the inherent aporias within Schopenhauer s mature system

approaching them from a genetic perspective Philosophy's Higher Education Nigel Tubbs,2006-01-26 At about the age of 13 I began to realise that my formal education was separating itself off from my philosophical education Of course at the time I did not know it in this way I experienced it as a split between what I was being taught and my experience of what I was

being taught It was I now know the philosophical experience of formal schooling It was not until beginning the study of sociology at 16 that I came across the idea of dualisms pairs of opposites that always appeared together but were never reconciled In sociology it was the dualism of the individual and society The question most asked in our classes was always regarding which aspect of the dualism dominated the other The answer we always leaned towards was that both were mutually affected by the other The answer seemed to lie somewhere in the middle It was only at university first as an undergraduate and then as a postgraduate that I came across the idea of the dialectic Slowly I began to recognise that the dualisms which plagued social theory I and we self and other good and evil modernity and post modernity autonomy and heteronomy freedom and nature truth and relativism and so many more were not only dialectical in being thought about but also that the thought of them being dialectical had an even stranger quality It was the same experience as being at school

Religious Debates in Indian Philosophy Dr. Ravi Prakash 'Baboo', 2022-01-15 Indian philosophy was more decisively established with the Upanishads the first of which may have been written in the 7th century BC Early Upanishads which dominate the late ancient period of thought were key to the emergence of several classical philosophies In the Upanishads views about Brahman and atman were proposed Buddhism now a major world religion also appeared in the ancient period of Indian philosophy The Buddha the founder of Buddhism lived during the 6th century BC Religious or spiritual metaphysics a field that currently receives little attention among philosophers in academia in the West considers the question of the nature of a Supreme Being and its relation to the world Indian Buddhism Advaita Vedanta and theistic Vedanta all have contributed to this debate Within spiritual metaphysics an insistence on spiritual monism is probably the most important consideration that Indian thought upholds though with numerous variations Much Buddhist philosophy promotes the idea of the interdependence of everything theistic Vedanta finds no gap between the world and God and Advaita Vedanta insists that everyone's true self is nothing other than Brahman the Absolute This book presents information on some of the basic concepts of this subject Contents Zoroastrianism Judaism Christianity Islam Tribal Religions of India Phenomenology Vedanta Philosophy Maya Nature and Arguments **Tom Stoppard's Plays** Nigel Purse, 2016-11-01 In Tom Stoppard's Plays Patterns of Plenitude and Parsimony Nigel Purse assesses the complete canon of Tom Stoppard's works on a thematic basis He explains that amongst the plenitude of chaotic comedy wordplay and intellectual ping pong of Stoppard's plays the principle of parsimony that is Occam's razor lies at the heart of his works He identifies key patterns in theme ethics and duality and method Stoppard's stage debates and his dramatic vehicles as well as in theatrical devices Quoting extensively from all Stoppard's published works many of his interviews and also unpublished material Nigel Purse arrives at a comprehensive and unique appraisal of Stoppard's plays Christopher Etter, 2006-04-01 A Study of Qualitative Non Pluralism a Comparative Religious Studies text that compares almost 30 different religious and philosophical schools of thought **A Theory of Moral Objectivity** Robert M. Ellis, 2011-03-13 This book was originally written as an accredited Ph

D thesis but one that broke all the usual rules Rather than focusing on a small area like most theses this is a inter disciplinary philosophical treatise that attempts to establish a new approach to the whole question of objectivity especially in ethics Inspired by the Buddhist Middle Way but argued in Western terms from first premises this book challenges widespread assumptions found in both analytic and continental traditions of philosophy It seeks to establish a Middle Way between absolutism and relativism using evidence from philosophy psychology religion and history The author Robert M Ellis is a philosopher and teacher and was also a Buddhist practitioner for many years However he has now withdrawn from any commitment to the Buddhist tradition to concentrate on developing a universal Middle Way philosophy promoted on his website www.moralobjectivity.net

Non-Duality: The End of Seeking and Awakening to Truth Alecsandros Kirmis, From birth we are conditioned to believe that we are separate individuals distinct from the world around us This sense of duality reinforced by our sensory experiences and cultural upbringing drives us into a continuous search for wholeness happiness and purpose But was this separation ever real Quantum physics spiritual traditions and experiences of expanded awareness all point to the same truth separation is an illusion In this e book you will embark on a journey of deep self discovery exploring How the mind constructs the illusion of duality and perpetuates patterns of suffering The intersection of science and spirituality in understanding fundamental unity Stories and insights that reveal a reality beyond the mind s limitations Experiential exercises and practices to recognize non duality in your own life The impact of non duality on daily life relationships work and the way we perceive the world This is not just a book to be read it is meant to be lived With each page you will be invited to question your deepest beliefs and directly experience reality as it truly is without separation without resistance only pure presence and freedom Are you ready to see beyond the illusion and discover who you really are The truth is already within you
