**Between Worlds** Frances E. Karttunen, 1994 Spanning the globe and the centuries Frances Karttunen tells the stories of sixteen men and women who served as interpreters and guides to conquerors missionaries explorers soldiers and anthropologists These interpreters acted as uncomfortable bridges between two worlds their own marginality the fact that they belonged to neither world suggests the complexity and tension between cultures meeting for the first time Some of the guides were literally dragged into their roles others volunteered The most famous ones were especially skilled at living in two worlds and surviving to recount their experiences Among outsiders the interpreters found protection sustenance recognition intellectual companionship and employment yet most of the interpreters ultimately suffered tragic fates *Between Worlds* addresses the broadest issues of cross cultural encounters imperialism and capitalism and gives them a human face

**Between Worlds** Yasna Bozhkova, 2022-07-07 This book provides a new critical reappraisal of the work of modernist writer and artist Mina Loy Primarily known for her daring and difficult poems Loy was also the author of a dazzling variety of other literary and visual artworks in different genres and media My reading demonstrates the richness and complexity of her work beyond the more often explored path from Futurism to Dada to Surrealism emphasizing the importance of her perpetual travel between disparate aesthetics Engaging in a close analysis of her poetry essays manifestoes and novel *Insel* I unearth a multiplicity of hidden literary and pictorial intertexts in her works Tracing the origins of Loy's often puzzling imagery I examine the complex strategies of collage condensation distortion and displacement through which she conflates multiple allusions in enigmatic constellations I challenge T S Eliot's claim that Loy lacks an oeuvre claiming that there is an aesthetic project or at least a paradoxical unity in her famously fragmented work I show how her writings critically engage with the turbulence of avant garde innovation of her time pinpointing the essential ephemerality of the avant gardes and their tendency to become dogmatic ideologies Through a perpetual shift of the aesthetic paradigm Loy's work creates dialogic exchanges between different experimental aesthetic programs Thus the book positions Loy not only as an important artist but also as a major theorist of modernist and avant garde aesthetics

Between worlds Robert Silverberg, 2004 For this volume an SFBC Creation Silverberg asked some of today's best sf writers to take a fresh look at this inexhaustible theme and they came up with a collection of dazzlingly original tales All the novellas here encapsulate the star faring theme with an intriguing twist characters in transit between worlds are undergoing internal transitions as well In Stephen Baxter's eponymous lead story a virtual messiah takes advantage of a desperate refugee's pleas for help to get himself transferred off world for a jaunt to Galaxy's Core and a new life Between Worlds Rosabelle Boswell, 2022-03-11 Because of the climate crisis and declining ocean health humans are increasingly in a liminal space between this world and imaginary alien worlds to come The poems raise the issue of climate change by foregrounding the centrality beauty and significance of the ocean and of marine life to humanity They suggest that all species live between worlds between fantasy and reality dreaming and wakefulness intuition and consciousness water and air We need all worlds to survive Serendipitously the poems were composed between dusk and dawn They are both part thoughts and whole thoughts that come to inspire my ethnographic writing Between Worlds, *Caught between Worlds* Joe Snader, 2014-07-11 The captivity narrative has always been a literary genre associated with America Joe Snader argues however that captivity narratives emerged much earlier in Britain coinciding with European colonial expansion the development of anthropology and the rise of liberal political thought Stories of Europeans held captive in the Middle East America Africa and Southeast Asia appeared in the British press from the late sixteenth through the late eighteenth centuries and captivity narratives were frequently featured during the early development of the novel Until the mid eighteenth century British examples of the genre outpaced their American cousins in length frequency of publication attention to anthropological detail and subjective complexity Using both new and canonical texts Snader shows that foreign captivity was a favorite topic in eighteenth century Britain An adaptable and expansive genre these narratives used set plots and stereotypes originating in Mediterranean power struggles and relocated in a variety of settings particularly eastern lands The narratives rhetorical strategies and cultural assumptions often grew out of centuries of religious strife and coincided with Europe's early modern military ascendancy *Caught Between Worlds* presents a broad rich and flexible definition of the captivity narrative placing the American strain in its proper place within the tradition as a whole Snader having assembled the first bibliography of British captivity narratives analyzes both factual texts and a large body of fictional works revealing the ways they helped define British identity and challenged Britons to rethink the place of their nation in the larger world *Living Between Worlds* James Hollis, Ph.D., 2020-06-23 What guides us when our world is changing Discover the path to deeper meaning and purpose through depth psychology and classical thought How did we get to this crossroads in history And will we make it through individually and as a species We all assumed that learning rationality and good intentions would prove enough to bring us to the promised land says Dr James Hollis But they haven't and won't Yet what we also do not recognize sufficiently is that this human animal is equipped for survival In time as we have seen of life's other insolubles we grow large enough to

contain what threatened to destroy us Dr Hollis's readers know him as a penetrating thinker who brings profound insight and sophistication to the inner journey In *Living Between Worlds* he broadens his lens to encompass the relationship between our inner struggles and the rapidly shifting realities of modern human existence You will learn to invoke the tools of depth psychology classical literature philosophy dream work and myth to gain access to the resources that supported our ancestors through their darkest hours Through these paths of inner exploration you will access your locus of knowing an inner wellspring of deep resilience beyond the ego always available to guide you back to the imperatives of your soul Though many of the challenges of our times are unique the path through for us personally and collectively will always rely on our measureless capacity for creativity wisdom and connection to a reality larger than ourselves Here you will find no easy answers or pat reassurances Yet within the pages of *Living Between Worlds* you will encounter causes for hope We can find what supports us when nothing supports us Hollis teaches By bearing the unbearable we go through the desert to arrive at a nurturing oasis we did not know was there

The Destroyer Of Worlds: From the Akkadian Meditations Dominic Trimboli, 2020-04-11 An advanced humanoid civilization resides in a protected realm known as Agartha and have existed on the Earth for millennia Watching our progress as a species from afar their ancient laws forbid them from intervening in our affairs When the first atomic bomb is detonated they choose to reveal themselves with an offer to share their technology on the condition that we forego our warlike ways They choose James Forrestal the first US Secretary of Defense as their emissary to deliver this message But some in the government are skeptical of their message of peace seeing nuclear weapons as our only protection against them Set in the late 1940s humankind stands at a crossroads as a civilization should we join with the Agarthans and abandon our view of accepted history and cherished beliefs or is there an ulterior motive to their offer

**Hart Crane's Poetry** John T. Irwin, 2011-11-17 In one of his letters Hart Crane wrote Appollinaire lived in Paris I live in Cleveland Ohio comparing misspelling and all the great French poet's cosmopolitan roots to his own more modest ones in the midwestern United States. Rebelling against the notion that his work should relate to some European school of thought Crane defiantly asserted his freedom to be himself a true American writer. John T Irwin long a passionate and brilliant critic of Crane gives readers the first major interpretation of the poet's work in decades. Irwin aims to show that

Hart Crane's epic *The Bridge* is the best twentieth century long poem in English. Irwin convincingly argues that compared to other long poems of the century *The Bridge* is the richest and most wide ranging in its mythic and historical resonances, the most inventive in its combination of literary and visual structures, the most subtle and compelling in its psychological underpinnings. Irwin brings a wealth of new and varied scholarship to bear on his critical reading of the work, from art history to biography to classical literature to philosophy, revealing *The Bridge* to be the near perfect synthesis of American myth and history that Crane intended. Irwin contends that the most successful entryway to Crane's notoriously difficult shorter poems is through a close reading of *The Bridge*. Having admirably accomplished this, Irwin analyzes Crane's poems in *White Buildings* and his last poem *The Broken Tower* through the larger context of his epic, showing how Crane in the best of these worked out the structures and images that were fully developed in *The Bridge*. Thoughtful, deliberate, and extraordinarily learned, this is the most complete and careful reading of Crane's poetry available. Hart Crane may have lived in Cleveland, Ohio, but as Irwin masterfully shows, his poems stand among the greatest written in the English language. *Liminal Spaces* Eric Varney, 2024-02-09. Within the pages of this book, you will encounter classified entries from a secret government database that reveal shocking information about interdimensional beings, the multiverse, the nature of time, and much more. These entries are written from the point of view of remote viewers known as Socionauts, who document their experiences, discoveries, and the dangers of the practice. These files are snippets of some place and time of the multiverse.
