Betwixt And Between Patterns Of Masculine And Feminine Initiation:

Betwixt & Between Louise Carus Mahdi, Steven Foster, Meredith Little, 1987 *Betwixt and Between* offers new insights into the basic elements of initiations and rites of passage. The absence of these traditional supports creates problems in the lives of those who are caught in the void and lack definite expectations at various times of their lives. The chapters on masculine and feminine initiation provide new and creative concepts and practical possibilities for each of us. Initiation has been a missing component in the modern world and needs to be re-introduced with new understanding and consciousness.

A Jungian Approach to Coaching Laurence Barrett, 2022-09-29 Winner of the Henley Business School Coaching Book of the Year 2023 Award. In an increasingly superficial and disconnected world, Jungian psychology offers a more soulful alternative. It provides a frame within which we can more easily notice and understand the voice of the unconscious and its implications, allowing us to build deeper relationships and lead more meaningful lives. In this book, Laurence Barrett explores the fundamental principles and structures of Jung's model of the mind and considers ways in which these may be applied and extended to a modern coaching and consulting practice. It offers a deep but accessible insight to Jungian theory supported by a wealth of source materials and rich examples from the author's own work and experience. *A Jungian Approach to Coaching* will help experienced coaches to better support individuals, groups, and organizations in a rediscovery of their humanity and their potential. It will help turn leaders into people.

Horror Films James B. Weaver, Ron Tamborini, 2013-11-05 Why do so many of us enjoy being told frightening stories? What are some of the consequences that result from such exposure? In light of the considerable popularity of horror films over the last three decades, these questions have become the focus of growing attention for many scholars. However, research on audience preferences for and reactions to horror films has been performed eclectically by investigators from varied theoretical and methodological backgrounds. As a result, the information has not been effectively integrated. This volume was written to address this problem and to position the study of audience responses to frightening fiction as a significant research topic.
