## **Beyond Khartoum A History Of Subnational Government In Sudan:**

**Beyond Khartoum** Randall Fegley, 2011 Useful to both scholars and policymakers *Beyond Khartoum* is a history of subnational government in Sudan from early times through to 2010 With more than 2.5 million Sudanese killed in conflicts over the past half century such an enquiry has become increasingly relevant and urgent Given Sudan's pivotal position in regional conflicts its cultural diversity its past instability and more recent oil wealth an understanding of subnational politics is essential to fully appreciate the dynamics behind the news emanating from Khartoum Darfur Southern Sudan and beyond

*Beyond History* Elijah Nyaga Munyi, David Mwambari, Aleksis Ylönen, 2020-08-27 Moving beyond a self-indulgent attitude about Africa's historical victimhood the book seeks to capture how African states individually and Africa's collective institutions the AU are providing agency in Africa's international relations While African states have been trailblazers in such ideas as The Responsibility to Protect as conceived in the African Union Constitutive Act 2001 which preceded the United Nations UN Secretary General's report *In Larger Freedom* 2005 in which the UN adopted the concept African agency in international relations has not always been captured proactively This volume seeks to document Africa and African states in a state of proactivity as opposed to a reactionary mode of international relations which has long been the case due to the discipline's heavy concentration on the West The main themes explored are African agency in international relations and commerce agency in Africa's balancing of big and regional powers reshaping Africa EU relations beyond the Cotonou Agreements Africa and international human rights institutions African efforts in elections and conflicts in Africa and relationship building among African leaders

*New Armies from Old* Roy Licklider, 2014-04-15 Negotiating a peaceful end to civil wars which often includes an attempt to bring together former rival military or insurgent factions into a new national army has been a frequent goal of conflict resolution practitioners since the Cold War In practice however very little is known about what works and what doesn't work in bringing together former opponents to build a lasting peace Contributors to this volume assess why some civil wars result in successful military integration while others dissolve into further strife factionalism and even renewed civil war Eleven cases are studied in detail Sudan Zimbabwe Lebanon Rwanda the Philippines South Africa Mozambique Bosnia Herzegovina Sierra Leone Democratic Republic of the Congo and Burundi while other chapters compare military integration with corporate mergers and discuss some of the hidden costs and risks of merging military forces *New Armies from Old* fills a serious gap in our understanding of civil wars their possible resolution and how to promote lasting peace and will be of interest to scholars and students of conflict resolution international affairs and peace and security studies

**Historical Dictionary of the Sudan** Robert S. Kramer, Richard A. Lobban Jr., Carolyn Fluehr-Lobban, 2013-03-22 The Republic of the Sudan was long the largest country in Africa and according to the general consensus also one of the least successful in many ways This was not entirely its fault since it lay along the fault line between Muslim and Christian Africa and between the Nile Valley civilizations and African Sudanic cultures This partly explains the

long and bloody warfare waged by the Southerners to achieve independence which they did in July 2011 So this hefty book actually covers not one but two states This fourth edition of the Historical Dictionary of the Sudan does so first through a lengthy and detailed chronology tracing its relatively few successes and numerous failures The introductory essay does an admirable job of putting it all in perspective But the most informative part is the dictionary with now over 700 entries for this fourth edition They deal with important personalities politics the economy society culture religion and inevitably the civil war There are also appendixes and an extensive bibliography

Hasan al-Turabi W. J. Berridge, 2017-08-17 A comprehensive study of the life and political thought of Sudanese Islamist scholar and politician Hasan al Turabi for undergraduate and graduate students studying the modern Sudanese state and Islamic government and politics in Africa and the Middle East and journalists and policy makers focused on core debates on democracy Islamism and Jihad

Civil Uprisings in Modern Sudan W. J. Berridge, 2016-07-28 In the wake of the protests that toppled regimes across the Middle East in 2011 Sudanese activists and writers have proudly cited their very own Arab Springs of 1964 and 1985 which overthrew the country's first two military regimes as evidence of their role as political pioneers in the region Whilst some of these claims may be exaggerated Sudan was indeed unique in the region at the time in that it witnessed not one but two popular uprisings which successfully uprooted military authoritarianisms Civil Uprisings in Modern Sudan provides the first scholarly book length history of the 1964 and 1985 uprisings It explores the uprisings themselves their legacy and the contemporary relevance they hold in the context of the current political climate of the Middle East The book also contends that the sort of politics espoused by various kinds of Islamist during the uprisings can be interpreted as a form of early post Islamism in which Islamist political agendas were seen to be compatible with liberalism and democracy Using interviews Arabic language sources and a wealth of archival material this book is an important and original study that is of great significance for scholars of African and Middle Eastern political history

*The Theories of Decentralization and Local Government* Kwame Badu Antwi-Boasiako, Peter Csanyi, 2014 Theories of Decentralization and Local Government brings fresh perspective to the debate and comparative analysis of vertical division of power i.e processes of decentralization and relations between central and local self governments The multiple author book is not just one of many similar around the globe as it encompasses contributions from many different academics from not only different countries but also different continents and even more importantly very different political traditions and cultures This way the book deepens and strengthens knowledge of the role of local governments in the contemporary world and brings new value to discussions on the relationship between decentralization and development Contributors include Ahmed Mustafa Elhussein Mansour Hong Pang Abdulfattah Yaghi Jose Neftali Recinos Gariela Miranda Recinos Lee Payne Heather Wyatt Nichol Ed Gibson James Newman Kwame Asamoah Minerva Cruz and Alexandra Tsvetkova

Nationalist Passions Stuart J. Kaufman, 2015-11-06 Nationalist and ethnic conflict can take many forms from genocidal violence and civil war to protest movements and peaceful squabbles in democracies

Nationalist Passions poses a stark challenge to extreme rationalist understandings of political conflict Stuart J Kaufman elaborates a compelling theory of ethnic politics to explain why ethnic violence erupts in some contexts and how peace is maintained in others At the core of Kaufman s theory is an assertion that conflicts are initiated due to popular symbolic predispositions biases of all kinds and perceptions of threat Kaufman puts his theory to the test in a range of conflicts He examines some highly violent episodes among them the Muslim rebellion in the southern Philippines beginning in the 1970s the civil war in southern Sudan that began in the 1980s and the Rwanda genocide of 1994 Kaufman also analyzes other situations in which leaders attempted to tame the violence that nationalist passions can generate In India Mahatma Gandhi mobilized an overtly nonviolent movement but failed in his efforts to prevent the rise of Muslim Hindu communal violence In South Africa Nelson Mandela and F W de Klerk ended apartheid but not without terrible cost more than fifteen thousand people died while the negotiations were under way In Tanzania however Julius Nyerere led one of the few ethnically diverse countries in the world with almost no ethnic violence Nationalist Passions is essential reading for policymakers international aid workers and all others who seek to find the best possible outcomes for future internal and interstate clashes

*Konfliktlandschaften des Südsudan* Jan Pospisil, 2021-09-17 Nach einem jahrzehntelangen Bürgerkrieg erlangt die Republik Südsudan am 9 Juli 2011 ihre Unabhängigkeit Doch trotz aller Bemühungen um einen friedlichen Staatsaufbau nimmt die erste Dekade der Eigenstaatlichkeit einen gewaltsamen Verlauf Im Dezember 2013 schlittert der Südsudan in einen blutigen Bürgerkrieg der sich nicht als einheitlicher Konflikt mit klar definierbaren Parteien sondern zu einem Amalgam komplex verschachtelter Konfliktlandschaften entwickelt In analytischen Vignetten die verschiedene Regionen sowie die nationale und internationale Dimension des Bürgerkrieges untersuchen gibt Jan Pospisil einen Einblick in die südsudanesische Konfliktrealität *Autonomy, Self-governance and Conflict Resolution* Marc Weller, Stefan Wolff, 2005 Conflicts over the

rights of self defined population groups to determine their own destiny within the boundaries of existing states are among the most violent forms of inter communal conflict Many experts agree that autonomy regimes are a useful framework within which competing claims to self determination can be accommodated This volume explores and analyses the different options available The contributors assess the current state of the theory and practice of institutional design for the settlement of self determination conflicts and also compare and contrast detailed case studies on autonomous regimes in the former Yugoslavia the Crimea land Northern Ireland Latin America Indonesia and Vietnam Data-Driven Decision Making in Fragile Contexts Alexander Hamilton, Craig Hammer, 2017-06-16 The need for evidence based decision making at all levels of government is perhaps greatest in fragile settings Data deficiencies contribute to state fragility and exacerbate constraints on the capacity to provide basic services public security and the rule of law The lack of robust good quality data can also have a disabling effect on government efforts to manage political conflict Indeed the lack of data can worsen conflict since violent settings pose substantial challenges to knowledge generation capture and application The development of sustainable and

professional data literate stakeholders who are able to produce and increase the quality and accessibility of official statistics can help to improve development outcomes Good quality and reliable statistics are required to track the progress of development policies through the monitoring of performance indicators and targets and to ensure that public resources are achieving results Although reliable data alone cannot have a transformative effect without the right contextual incentives they constitute an essential prerequisite for greater accountability and more efficient decision making Data Driven Decision Making in Fragile Contexts Evidence from Sudan explores methods and insights for data collection and use in fragile contexts with a focus on findings from Sudan It begins by posing several questions on the political economy of data and then sets out a framework for assessing the validity reliability and potential impact of data on decision making in fragile settings It then provides insights regarding the challenges associated with data driven decision making in Sudan derived from the 2014 15 United Kingdom's Department for International Development Sudanese household survey Featured are data driven analyses of diverse topics from public service delivery to the interplay of governance trust and state legitimacy As the data revolution and the advent of the Sustainable Development Goals herald an increasing need to solicit the perceptions and experiences of program beneficiaries the impetus to develop and deploy good quality survey instruments will increase This volume provides an important proof of concept that this type of endeavor is both feasible and useful in fragile contexts and in combination with other important data collection tools can be effectively utilized to enrich the evidence base of decision making in these settings

**Inside Sudan** Donald Petterson, 2009-04-27 Sudan governed by an Islamic fundamentalist dictatorship has come into conflict with the United States and other countries not because of its religious orientation but because of its record of human rights abuses and support for terrorism The country has captured the attention of many Americans some of whom feel that something must be done to combat religious persecution throughout the world and others who are appalled that almost two million civilians have died as a consequence of Sudan's civil war As the last American ambassador to complete an assignment based in Sudan Donald Petterson provides unique insights into how it has become what it is today The central focus of Inside Sudan is on Petterson's experiences dealing with a hostile government Petterson tells of what occurred after Sudanese security forces executed four Sudanese employees of the US government in the southern city of Juba He relates what happened to Americans in Khartoum after Washington put Sudan on the list state sponsors of terrorism He describes what he saw on his many trips into war devastated southern Sudan These unique observations and Petterson's account of his return to Sudan in late 1997 to look for openings to improve US Sudan relations provide a timely review of our relationship with a country increasingly regarded by Washington as beyond the pale

passion and commitment Its stature ringing significance and contribution to knowledge make it a powerful and unique book The process of liberation in south Sudan has been rocky since 1955 Successive governments in Khartoum have broken promises and agreements relating to governance of the south and the northern establishment has manipulated the situation to perpetuate northern hegemony and to speed up the process of Islamisation in the south This study from an activist in the politics of liberation in the south addresses relevant issues such as the objectives of the armed struggle and the reasons for so long a struggle the contradictions of the political leaders in the south the repercussions of the Nasir coup of 1991 and the prospects for the SPLM A struggle

**A History of the Sudan** Peter Malcolm Holt, M. W. Daly, 2000 Here is a new edition of well known introductory history of the Sudan which takes events of this troubled region up to 1998 This extended coverage considers the last years of Jaafar Nimeiri's government to his fall from power in 1985 the subsequent transitional military regime the return to parliamentary rule and the current attempts to establish an Islamic state under a renewed military regime More than a political narrative this book shows how the modern Sudan has been shaped by three key elements in its history the influence of the Ottoman Empire the impact of British domination and above all else the enduring indigenous tradition of the region produced by the intermingling of its African and Arab Muslim inheritance

**Sudan's Unfinished Democracy** Willow Berridge, Alex de Waal, Justin Lynch, 2022-08-01 This book tells the story of the Sudanese revolution of 2019 of how it succeeded in bringing down the long standing rule of President Omar al Bashir and of the troubled transitional civilian led government that was installed in his place It sets the scrupulously non violent uprising in its historical context showing how the protesters drew upon the precedents of earlier civic revolutions and adapted their practices to the challenges of the al Bashir regime The book also explores how that regime was brought to its knees through its inability to manage the intersecting economic and political crises caused by the secession of South Sudan and the loss of oil revenue alongside the uncontrolled expansion of a sprawling security apparatus The civilian protesters called for and expected a total transformation of Sudanese politics but they found themselves grappling with a still dominant cabal of generals who had powerful regional backers and a strong hold over the economy Internally divided and faced with a deepening economic crisis the civilian government led by Prime Minister Abdalla Hamdok has found itself in office but with less and less real power unable to change the conduct of political business as usual
