Beyond Acting White Reframing The Debate On Black Student Achievement:

Beyond Acting White Erin McNamara Horvat, Carla O'Connor, 2006 *Beyond Acting White* broadens the extant conversation on the Black White achievement gap that has been dominated by the notion that Blacks underperform in school because they fear being accused of acting white The authors elucidate the limitations of this explanation by presenting new research that theorizes race as a social phenomenon unmasks the heterogeneity of the Black experience and contends with the specifics of social context in the culture and organization of schools and communities

Beyond Acting White Erin McNamara Horvat, Carla O'Connor, 2006-03-09 Why do Blacks underperform in school Researchers continue to pursue this question with vigor not only because Blacks currently lag behind Whites on a wide variety of educational indices but because the closing of the Black White achievement gap has slowed and by some measures reversed during the last quarter of the 20th century The social implications of the persistent educational gap between Blacks and Whites are substantial Black people s experience with poor school achievement and equally poor access to postsecondary education reduces their probability for achieving competitive economic and social rewards and are inconsistent with repeated evidence that Black people articulate high aspirations for their own educational and social mobility Despite the social needs that press us towards making better sense of the gap we are nevertheless limited in our understanding of how race operates to affect Black students educational experiences and outcomes In *Beyond Acting White* we contend with one of the most oft cited explanations for Black underachievement the notion that Blacks are culturally opposed to acting White and therefore culturally opposed to succeeding in school Our book uses the acting White hypothesis as the point of departure in order to explore and evaluate how and under what conditions Black culture and identity are implicated in our understanding of why Black students continue to lag behind their White peers in educational achievement and attainment *Beyond Acting White* provides a response to the growing call that we more precisely situate how race its representations intersectionalities and context specific contingencies help us make better sense of the Black White achievement gap

Acting White Stuart Buck, 2010-05-25 Commentators from Bill Cosby to Barack Obama have observed the phenomenon of black schoolchildren accusing studious classmates of acting white How did this contentious phrase with roots in Jim Crow era racial discord become a part of the schoolyard lexicon and what does it say about the state of racial identity in the American system of education The answer writes Stuart Buck in this frank and thoroughly researched book lies in the complex history of desegregation Although it arose from noble impulses and was to the overall benefit of the nation racial desegregation was often implemented in a way that was devastating to black communities It frequently destroyed black schools reduced the

numbers of black principals who could serve as role models and made school a strange and uncomfortable environment for black children a place many viewed as quintessentially white Drawing on research in education history and sociology as well as articles interviews and personal testimony Buck reveals the unexpected result of desegregation and suggests practical solutions for making racial identification a positive force in the classroom

The Satire of the New Black Renaissance

Kamil Chrzczonowicz,2025-11-11 How do twenty first century Black satirists rewrite American ideas of race This book plunges into the New Black Renaissance a flowering of the 2000s and 2010s African American culture and argues that its most potent tool is anti essentialist satire The study traces what Baratunde Thurston calls Open source Blackness an ethos that prizes individuality inclusivity and remix To map this new terrain this volume offers close readings of three signature works Percival Everett s metafictional Erasure Justin Simien s campus satire Dear White People and Thurston s own multimedia endeavors his memoir How to Be Black and the playful software experiments developed under the auspices of his company Cultivated Wit Together these texts show how literature film and technology fracture worn stereotypes and invite broader co creation of non racial identity The result is the first sustained academic account of Open source Blackness of interest to students and scholars in literary media and cultural studies

Students of Color and the Achievement Gap

Richard R. Valencia,2015-03-05 Students of Color and the Achievement Gap is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education the relentless achievement gap between low socioeconomic students of color and their economically advantaged White counterparts Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino Latina students He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps Following each of these concerns Valencia provides a number of reform suggestions that can lead to systemic transformations of K 12 education Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political economic and cultural frameworks

Confronting Equity Issues on Campus Estela Mara Bensimon, Lindsey Malcom, 2023-07-03 How can it be that 50 years after the passage of the Civil Rights Act our institutions of higher education have still not found ways of reducing the higher education gaps for racial and ethnic groups That is the question that informs and animates the Equity Scorecard model of organizational change It shifts institutions focus from what students do or fail to do to what institutions can do through their practices and structures as well as the actions of their leaders and faculty to

produce equity in outcomes for racially marginalized populations Drawing on the theory of action research it creates a structure for practitioners to become investigators of their own institutional culture to become aware of racial disparities confront their own practices and learn how things are done on their own turf to ask In what ways am I contributing to equity inequity The Equity Scorecard model differs significantly from traditional approaches to effecting change by creating institutional teams to examine and discuss internal data about student outcomes disaggregated by race and ethnicity The premise of the project is that institutional data acts as a powerful trigger for group learning about inequities in educational outcomes and that the likelihood of improving those outcomes increases if the focus is on those things within the immediate control of the participating leaders and practitioners Numerous institutions have successfully used The Equity Scorecard s data tools and processes of self reflection to uncover and document the behaviors and structures that lead to failure to retain and graduate students from diverse racial and ethnic backgrounds with a history of unequal opportunity and to create the climate for faculty and staff to take ownership of the issues and develop sustainable practices to eliminate racial disparities in academic performance The Scorecard can be used at a small scale to analyze individual courses or programs as well as broader institutional issues This book presents the underlying concept of funds of knowledge for race conscious expertise that informs this process describes its underlying theories defines the attributes needed to achieve equity minded practice demonstrates through examples of implementation what different institutions have learned and what they have achieved and provides a blueprint for action for higher education as a whole For college leaders instructors and support staff who feel the pressure moral or otherwise to close the racial equity gap that their institutions produce year after year this book provides the structure knowledge and tools to do so It is also of value to scholars and students of higher education who have an interest in the study of organizational change

Crossing Segregated Boundaries Dionne Danns,2020-10-16 Scholars have long explored school desegregation through various lenses examining policy the role of the courts and federal government resistance and backlash and the fight to preserve Black schools However few studies have examined the group experiences of students within desegregated schools Crossing Segregated Boundaries centers the experiences of over sixty graduates of the class of 1988 in three desegregated Chicago high schools Chicago s housing segregation and declining white enrollments severely curtailed the city s school desegregation plan and as a result desegregation options were academically stratified providing limited opportunities for a chosen few while leaving the majority of students in segregated underperforming schools Nevertheless desegregation did provide a transformative opportunity for those students involved While desegregation was the external impetus that brought students together the students themselves made integration possible and many students found that the few years that they spent in these schools had a profound impact on broadening their understanding of different racial and ethnic groups In very real ways desegregated schools reduced racial isolation for those who took part

Handbook on Positive Development of Minority Children and Youth Natasha J. Cabrera,Birgit

Leyendecker,2017-02-07 This Handbook presents current research on children and youth in ethnic minority families It reflects the development currently taking place in the field of social sciences research to highlight the positive adaptation of minority children and youth It offers a succinct synthesis of where the field is and where it needs to go It brings together an international group of leading researchers and in view of globalization and increased migration and immigration it addresses what aspects of children and youth growing in ethnic minority families are universal across contexts and what aspects are more context specific The Handbook examines the individual family peers and neighborhood policy factors that protect children and promote positive adaptation It examines the factors that support children s social integration psychosocial adaptation and external functioning Finally it looks at the mechanisms that explain why social adaptation occurs

Towards a Brighter Tomorrow Walter R. Allen,Erin Kimura-Walsh,Kimberly A. Griffin,2009-09-01 The book aims to develop a clearer understanding of the influence of social dynamics on the educational opportunities of high school students of color in the urban setting of California s Los Angeles area Specifically we examine how students backgrounds high school experiences and own agency shape their college preparation processes and postsecondary aspirations While some research has been done on high school students college choice process this book is unique in its broad and comparative approach It examines the experiences of students across 10 schools identifying broad themes that are illustrated through specific case studies This approach allows readers to understand the broader issues that face students from underserved backgrounds as they pursue college while illuminating how these issues uniquely manifest themselves in individual school contexts

Integration Interrupted Karolyn Tyson,2011-02-21 Carefully reconsidering how and why black students have come to equate school success with whiteness Integration Interrupted argues that when students understand race to be connected with achievement it is a powerful lesson conveyed by schools not their peers Drawing on over ten years of ethnographic research Karolyn Tyson shows how equating school success with acting white arose in the aftermath of Brown v Board of Education through the practice of curriculum tracking and shows how racialized tracking continues to define the typical American secondary school
