Reclaiming My Decade Lost in Scientology Sands Hall, 2018-03-01 With its keen attention to the language and tactics of the church Hall's memoir is unique among the assortment of Scientology reports and exposes offering insight into the certainties that its subjects gain The Nation In the secluded canyons of 1980s Hollywood Sands Hall a young woman from a literary family strives to forge her own way as an artist But instead Hall finds herself increasingly drawn toward the certainty that Scientology appears to offer Her time in the Church includes the secretive illness and death of its founder L Ron Hubbard and the ascension of David Miscavige In this compelling memoir Hall reveals what drew her into the religion with its intrigues and unique contemporary vision and how she came to confront its darker sides and finally escape Some of the most penetrating illuminating prose about how an educated and skeptical person could get so deeply into and then struggle to escape what everyone around her warned was a dangerous cult brilliant The Underground Bunker If it is Scientology's offer of a life with meaning that hauls her in it is its approach to meaning that keeps her Hall's fascination with this is palpable Camille Ralphs The Times Literary Supplement

Terror, Love and

Brainwashing Alexandra Stein, 2016-11-03 Written by a cult survivor and renowned expert on cults and totalitarianism Terror Love and Brainwashing draws on the author's 25 years of study and research to explain how almost anyone given the right set of circumstances can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts Illustrated with compelling stories from a range of cults and totalitarian systems from religious to political to commercial the book defines and analyses the common and identifiable traits that underlie almost all these groups It focuses on how charismatic authoritarian leaders control their followers attachment relationships via manipulative social structures and ideologies so that emotionally and cognitively isolated they become unable to act in their own survival interests Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments and incorporating the latest neuroscientific findings Stein illustrates how the combined dynamic of terror and love works to break down people's ability to think and behave rationally From small local cults to global players like ISIS and North Korea the impact of these movements is widespread and growing This important book offers clarity and a unique perspective on the dynamics of these systems of control and concludes with guidance to foster greater awareness and prevention It will be essential reading for mental health professionals in the field as well as policy makers legal professionals cult survivors and their families as well as anyone with an interest in these disturbing groups Students of social and developmental psychology will also find it fascinating
