Bykova,2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia s philosophy Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents

and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields Written by a team of internationally recognized scholars from Russia and abroad it examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yuri Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked By introducing and examining original philosophical ideas that evolved in the Soviet period the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution *Bakhtin in the Fullness of Time* Craig Brandist, Michael Gardiner, E Jayne White, Carl Mika, 2020-05-21 This book takes the works of Mikhail Bakhtin as its inspiration in the contemplation of the potential of dialogic scholarship for philosophy of education While Bakhtin's work has been widely received in educational studies in recent years the academic literature does not sufficiently convey the sophistication of his cultural historical works Selected works on the limits and perspectives of Mikhail Bakhtin are presented in the book In doing so the contributors seek to interpret the work of the Bakhtin Circle in a complex contemporary world Layering and drawing from the many ideas explored by the Circle during their collective lifetimes and those that influenced their work each chapter offers a different dimension of thought concerning issues facing societies remote or perhaps not so remote from the world of post revolutionary Russia In the post 2008 era during which financial crises have morphed into global recession and which characterise growing social inequities widespread political instabilities and further environmental decline and resource depletion what is needed more than ever is a twenty first century Bakhtin one that is occupied with the distinct challenges our times present to all of us The individual contributors to *Bakhtin in the Fullness of Time* aim to contribute to a revisioning and reassessment of Bakhtin through a diverse series of engagements with both his legacy and future promise In contemplating Bakhtin in the fullness of time historical perspectives and contributions must be encountered in a contemporary understanding that will contribute to philosophy of education today The chapters in this book were originally published in the journal *Educational Philosophy and Theory*

Ablett,2020-07-30 Aesthetic disgust is a key component of most classic works of drama because it has much more potential than to simply shock the audience This first extensive study on dramatic disgust places this sensation among pity and fear as one of the core emotions that can achieve katharsis in drama The book sets out in antiquity and traces the history of dramatic disgust through Kant Freud and Kristeva to Sarah Kane s in yer face theatre It establishes a framework to analyze forms and functions of disgust in drama by investigating its different cognates miasma abjection etc Providing a concise argument against critics who have discredited aesthetic disgust as juvenile attention grabbing Sarah J Ablett explains how this repulsive emotion allows theatre to dig deeper into what it means to be human **Agamben Reframed** Dan Smith,
