The General Data Dissemination System International Monetary Fund,2007-07-25 The IMF s work on data dissemination standards consists of two tiers the General Data Dissemination System GDDS which applies to all IMF member countries and the Special Data Dissemination Standard SDDS for those members having or seeking access to international capital markets The GDDS framework provide governments with guidance on the overall development of the macroeconomic financial and sociodemographic data that are essential for policymaking and analysis in an environment that increasingly requires relevant comprehensive and accurate statistical data This Guide explains the nature objectives and operation of the GDDS the data dimensions it covers and how countries participate It provides national statistical authorities with a management tool and a framework to foster sound statistical methodology professional data compilation and data dissemination The Guide supersedes the version updated in March 2002 and incorporates the UN Millennium Development Goals MDGs as specific elements of the GDDS sociodemographic component which was articulated with the collaboration of the World Bank

The Special Data Dissemination Standard International Monetary Fund,2007-07-25 The Special Data Dissemination Standard

SDDS was established by the IMF in 1996 to guide members that already had or that might seek access to international capital markets in providing key economic and financial data to the public. In the following year the IMF established the General Data Dissemination Standard GDDS which seeks to prepare countries for meeting the requirements of the SDDS. Data supplied by countries subscribing to the SDDS as well as information provided by countries participating in the GDDS are posted on the Dissemination Standards Bulletin Board (DSBB) on the IMF's public website <http://dsbb.imf.org>. This Guide is intended to assist subscribers of the SDDS/GDDS participants moving toward subscription to the SDDS and users of the DSBB in becoming aware of the features and scope of the SDDS and the DSBB. It is intended to further the IMF's initiatives in data transparency and standards to enhance the public availability of timely and comprehensive international statistics and therefore to contribute to countries' pursuit of sound macroeconomic policies and to the improved functioning of global financial markets.

Direct Reporting of Private Sector Cross-Border Financial Flows and Stocks in Selected African Countries Simon Quin, Kenneth Egesa, Howard Murad, 2014-02-27. Private cross border financial flows and stocks have grown to account for an increasingly significant part of overall transactions and positions in many African countries. Direct reporting through enterprise surveys has become a key data source to enable them to be measured accurately. The paper describes a multi-year technical assistance project in The Gambia, Ghana, Kenya, Mauritius, Mozambique, and Nigeria where annual enterprise surveys are now established. To varying degrees, the survey results have been incorporated into the balance of payments and International Investment Position statistics. The case studies may serve as a useful reference for other countries embarking on efforts to establish direct reporting of cross border financial flows and stocks.

Understanding Financial Accounts OECD, 2017-11-06.
