over two decades of development and refinement by clinicians at the Raptor Center at the University of Minnesota In addition we have included details of the vascular anatomy of the limbs further informing the surgeon and clinician The class Aves includes thousands of species with countless anatomic variations Although it is impractical to represent every species birds commonly encountered in private practice and rehabilitation medicine including poultry pigeons parrots and birds of prey were chosen for this book Details of the vascular anatomy of the limbs were obtained by high resolution digital computed tomography imaging of the appendicular skeleton of several diverse bird species These images provide a unique comparative aspect that clinicians will find useful in conducting surgical procedures This new information is intended to help the reader better understand skeletal and vascular anatomy and thus improve interpretation reporting of findings treatment and teaching This new information is intended to help the reader better understand relationships between musculoskeletal and vascular anatomy helping the surgeon preserve vasculature during complex orthopedic procedures It is our hope that it will enrich the interpretation reporting of findings development of treatment methods and the teaching of management procedures for orthopedic issues in birds Since publication of the first edition numerous advances have been made and published relative to avian orthopedics In this edition you will find comprehensive discussion of orthopedic conditions and clinical management that represents best treatment options and current practices The title of the book has been changed to reflect inclusion of that information As our knowledge of avian anatomy health and disease progresses so does the need for improved resources that convey this valuable information Over time the information contained herein will also need to be expanded and updated The authors humbly submit this work to the veterinary and scientific community for review and scrutiny We hope that it will contribute to the betterment of avian care PAESP Journal Pennsylvania Association of Elementary School Principals,1972 **Directory of Public Elementary and Secondary Education Agencies** ,1998
